

Racing Lane Modification Instructions

TO SHORTEN THE OVERALL LENGTH OF THE LANE

1. Lay Competitor® Racing lane on a flat surface or pool deck.
2. Release all slack on the Take Up Reel, so Blue Nylon spool is showing.
3. Locate set-screw on Take Up Reel Spool and loosen.
4. Remove cable from Spool. Note the way the cable is threaded so re-attachment is done in the proper manner.
5. Locate the new point on the cable (allow 4-6 inches extra for attachment and slack).
6. Remove all disks and donuts up to the point. Allow 4-6 inches exposed to attach Take Up Reel.
7. Cut cable with small bolt/wire cutters.
8. Re-thread cable back onto Take Up Reel Spool. Remember to feed cable through the hole with no set screw first.
9. Tighten set screw firmly to complete modification.

A photograph of a swimmer in a pool, wearing a blue swim cap and goggles, splashing water. The swimmer is in the foreground, and the background shows the pool lanes with red and white lane dividers.
