

LaMotte Free Recycling Program for Used Spin Disks

LaMotte is committed to protecting our environment and preserving our natural resources. As part of our commitment, customers can return used Spin disks to LaMotte for recycling. The collected disks will be sent to a certified recycling center where they will recover and reuse both the metal and plastic components. While the recycling is free, customers are responsible for the cost to send the disks to LaMotte.

How to recycle

- 1) Used disks should be double bagged and placed in a sturdy carton for shipping. Double bagging will help prevent leakage during shipping.
- 2) Properly boxed disks should be sent via Fed-Ex, Priority Mail, UPS or USPS to :

LaMotte
Attn: Disk Recycling
802 Washington Avenue
Chestertown, MD 21620

- 3) There is no limitation of the number of disks sent for recycling.
