3M Paraflyte Dive Tower

Ladder at Rear, Flanged Pedestal

Part Numbers

Diving Board Type	Ultraflyte	Superflyte	Topflyte
16' Duraflex	12009	12016	12023
14' Duraflex	12010	12017	12024
16' Maxiflex	12011	12018	12025
16' Paraflex	12012	12019	12026
14' Paraflex	12013	12020	12027
16' Century	12014	12021	12028
14' Century	12015	12022	12029

Specifications

- ① The superstructure of the diving tower shall be fabricated of ASTM A-554 certified, 1.90" OD, Type 304 stainless steel polished to a 320 grit finish. For Ultraflyte models, all members shall be made of 1.90" OD x .145" material. For Superflyte models, the Fulcrum Support Bars and Base Bar shall be made of 1.90" OD x .145" material, the Ladder Risers made of 1.90" OD x .109" material, with all other members being made of 1.90" OD x .065" material. For Topflyte models, the Fulcrum Support Bars and Base Bar shall be made of 1.90" OD x .145" material, with all other members being made of 1.90" OD x .065" material.
- ② The Front Support Pedestal shall be constructed of carbon steel with a primer paint coating (rust colored). The pedestal shall constructed of 10" x .25" thick pipe (10 5/8" OD). The bottom pedestal flange shall have eight (8) 1" diameter holes for mounting.
- ③ The Geared Adjustable Fulcrum shall be mounted to the Fulcrum Support Bars, and shall be capable 23" of horizontal movement (center of fulcrum $\pm$ 11 1/2"). The fulcrum shall be provided with adjustable stops to limit fulcrum travel when required. The Deluxe Geared Adjustable Fulcrum (provided on Ultraflyte and Superflyte models) shall be constructed of chrome plated bronze gear holders and wheels, and a stainless steel fulcrum shaft. The Economy Geared Adjustable Fulcrum shall be constructed of cast aluminum with a white enamel finish, and a stainless steel fulcrum shaft.
- ④ The diving board shall attach at the rear using swivel mounts, which serve to relieve stresses when diving board is in use.
- ⑤ Mounting steps shall be made of white, UV stabilized, ABS plastic with an integral, non-skid surface. The steps shall fit a 26" post spacing (center to center) and have a 5" tread depth.
- ⑥ Rear Anchor Deluxe shall be two piece construction comprised of a cast bronze body with a chrome plated cast bronze flange cap.
- ⑦ Pedestal Anchor Bolt Assembly shall consist of eight (8) 1/2" "J" bolts and bushings, fully embedded in concrete. The "J" bolts and bushing shall be made of carbon steel. Other materials and anchoring configurations are available upon request.
- ⑧ Diving board is not included, to be purchased separately. Diving board length and make shall be specified at the time of order. Please consult both national and local codes before selecting a board.
- ⑨ Anchor footing shall be concrete and designed to resist applied loading to the tower from use. These loads include a 4,500 lb vertical load and a 9,000 ft.-lb. moment at the front anchor, and a combined upward vertical load of 1,500 lbs. at the rear anchors.

General

The stainless steel frame shall be electro-chemically passivated on all worked areas for maximum corrosion resistance. All hardware shall be 18-8 stainless steel. Custom designs and modifications are available upon request.
