Standard Capacity Lane Storage Reel

Part Number: **75101**
75101SS (with stainless steel casters)

Specifications

- ① Base supports shall be 1 1/2" square tube, and side frames shall be 1" schedule 5 pipe grade T304 stainless steel polished to a 320 grit satin finish.
- ② The side frames will be fusion welded and cleaned. They shall be mounted on four nickel plated Double Lock casters. The base supports will be fastened to the side frames by means of stainless steel hardware.
- ③ The main axle shall be 4" stainless steel pipe fusion welded to a 1" stainless steel shaft. The main axle will ride on poly bearings enclosed in a stainless steel housing.
- ④ The two captain's wheels shall be 1" tube 16 gauge with welded 1/2" rods in grade T304 stainless steel. Stainless steel machine bolts will secure the captain's wheel to the shaft.
- ⑤ Casters shall be provided for ease of movement. Casters shall swivel 360° and shall have lockable wheel brakes.
- ⑥ Storage reel shall be capable of holding 540' (164M) of 4" diameter lanes or 300' (91M) of 6" diameter lanes.

General

The stainless steel frame shall be electro-chemically passivated on all worked areas for maximum corrosion resistance. All hardware shall be 18-8 stainless steel. Custom designs and modifications are available upon request.
