

Product Specifications - Written

Product Name: Legacy II Starting Platform

Part Number: Legacy II

General Notes:

The **Legacy II Starting Platforms** are designed for use on competitive pools. All tubing components are stainless steel and electro polished for corrosion resistance. The optional dual post anchor is also made of stainless steel. The Legacy II starting platform can be ordered to fit almost any deck and water height variable.

Application:

Depending upon installation design and local codes, this model is suitable for use on competitive pools. The deck to water level dimension must be noted to order the correct platform.

Specifications

- 1 Platform: The platform is constructed of an acrylic outer body skin and a non-slip, sanded tread over a solid laminated board covered with hand-laid fiberglass and resin roving. The platform is mounted onto the weldment at a 10° angle. The footboard dimensions are 20” x 24 (508.00mm x 609.60).
- 2 Step: The Legacy II slip resistant step is made of white, heavy duty plastic and has nominal dimensions of 4” x 20 (102mm x 508).
- 3 Frame: The Legacy II platform frame is constructed of 1.90” O.D. x .145 wall (48.26mm x 3.68), 304 series stainless steel electro polished tubing. The backstroke bar is constructed of 1.00” O.D. x .065 wall (25.40mm x 1.14) electro polished stainless steel tubing and is supported to the frame by 3/16” thick (4.76mm) 304 stainless steel gussets. Gussets of the same thickness also support the tread and are electro polished for corrosion resistance.
- 4 Anchor Assembly (p/n 27-105, see spec sheet for SRS-901): This dual post anchor assembly is constructed completely of stainless steel. The assembly has two sockets and comes with a 1/4-20 UNC stainless steel grounding screw. Stainless steel caps are provided to mount flush on the deck when the platform is removed.

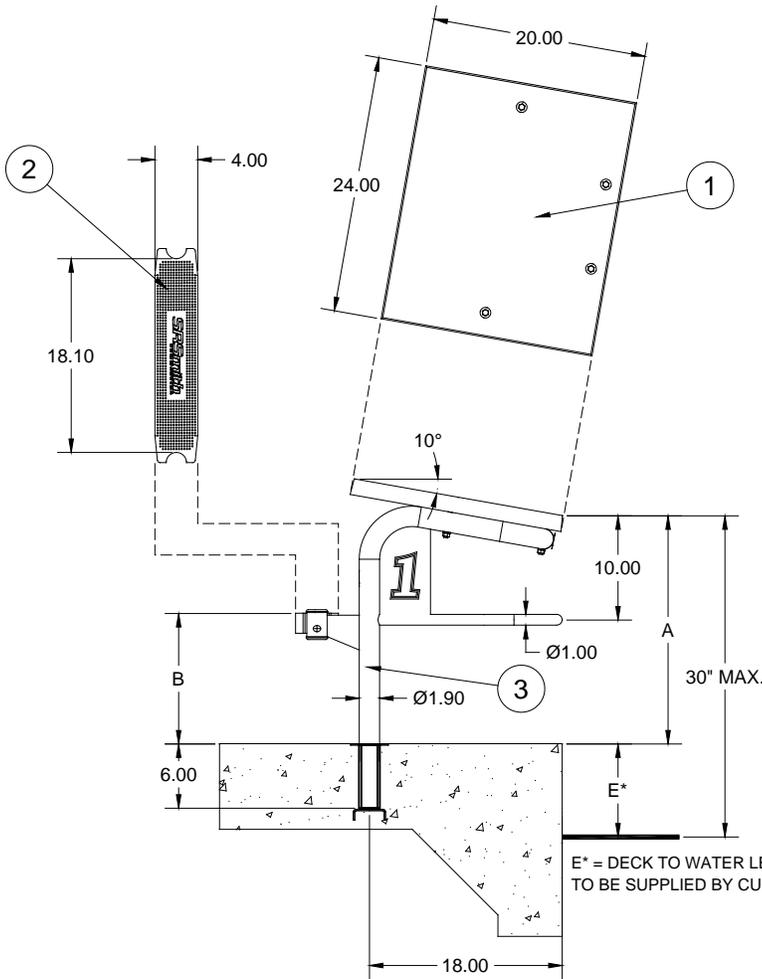

Additional Product Numbers: See page 1 for optional height dimensions.
