

# ADA COMPLIANT *Pool Lifts*

AND EQUIPMENT

## THE TRAVELER LIFT™

Title 24:  
California Code  
Compliant

## BATTERY POWERED POOL LIFT BENEFITS

- ADA Compliant
- Minimum 300 lb. lifting capacity
- Powered by 24V recharged battery
- 90 lifts per battery charge
- User operable via waterproof hand control
- 360° continuous rotation
- Made from all stainless steel construction
- Stabilizer bar improves lift stability
- Quiet and stable operations
- All models come standard with:
  - Battery & Battery Charger
  - Console Cover
  - Waterproof Control
  - Stainless Steel Anchor Socket
  - Footrest
  - Seat Belt Assembly

WATER POWERED LIFTS

# ADA COMPLIANCE OVERVIEW

In 2010 the federal government passed a bill requiring all commercial pools to have an ADA approved means of access by March 15, 2012.

Equal access to aquatic facilities has always been an important part of Spectrum Aquatics' goals. We were proud to offer our first aquatic lift October 1974 and after 37 years of refinement and technological advancement we now boast 20 different pool lift options, all with proprietary robust operating systems. Spectrum Aquatics is proud of our lifts which offer ease of transfer while maintaining a clean deck area. With 90 lifts per battery charge and all stainless steel electropolished construction, our lifts work hard and hold-up in harsh aquatic environments, indoors and out.

POOL TYPES	PERMITTED MEANS OF ACCESS					# REQUIRED
	PRIMARY TYPES OF ACCESS		SECONDARY TYPES OF ACCESS			
	SLOPED ENTRY	LIFT	TRANSFER WALL	TRANSFER SYSTEM	STAIRS	
Swimming Pools: LESS than 300 linear feet	☺	☺				1 Total
Swimming Pools: 300 or MORE linear feet	☺	☺	☺	☺	☺	2 Total: One must be a primary type
Wave action, lazy river, and other pools where user entry is limited to one area	☺	☺		☺		1 Total
Wading Pools	MANDATORY					1 Total
Spas		☺	☺	☺		1 Total

## WHAT MAKE A POOL LIFT COMPLIANT

### REQUIRED LIFT FEATURES

- 300 lbs. minimum weight capacity
- Capable of unassisted operation from deck and water
- Solid seat at least 16" wide
- Armrests are optional (except in California), but if included must be removable or fold clear of the seat
- Footrest (not required with lifts used in spas)
- Be able to drop the seat down to a depth of 18" below the stationary water level

### LIFT LOCATION SPECIFICATIONS

- Located in less than 48" of water
- Seat location must be a minimum of 16" from the edge of the pool in raised position
- Clear deck space
  - Minimum of 36" wide that extends forward a minimum of 48" from a line located 12" behind the rear of the seat
  - Located on opposite side of the seat from the water
  - Must be flat — slope no greater than 1:48 (2%) in all directions

### LIFT OPERATION SPECIFICATIONS

- Seat Height
  - Lift should allow for a stop between 16" and 19" above the top of the deck when in the raised position
- The controls and operating mechanisms should be unobstructed when the lift is in use
- Operation of the lift should not require tight grasping, pinching, or twisting of the wrists to operate and should not require more than 5 lbs. of pressure to operate

# WHY SPECTRUM® AQUATICS

## CUSTOMER SERVICE

- Quality Customer Service
- Nation-wide field, engineering and technical support
- Quick turn-around times

## QUALITY & DURABILITY

- All stainless steel construction
- Premium housing materials for heavy duty performance
- Triple protected for maximum corrosion resistance in harsh pool environments
  - ✓ Manufactured with 100% stainless steel, in a 100% stainless steel environment
  - ✓ Electropolished and passivated
  - ✓ Coated with Spectra Shield®

## PERFORMANCE

- Heavy Duty Actuator System
  - o Thermally protected with an internal heat sensing switch
    - Prevents damage if the actuator becomes overheated
    - Avoids substantial repairs, labor costs and lift downtime
    - No other lift offers this feature to prevent system failure
- Completely sealed waterproof battery
  - o Allows 90+ full lifts between charges vs competition at 45 lifts
- 300+ pound load capacity
- Rotationally & vertically powered with 360° continuous power rotation
- Stabilizer bar improves lift stability

## FLEXIBILITY

- Works with multiple deck configurations
- Accommodates setbacks ranging from 6" to 30" and a water draft up to 12"
- Allows access from any desired position or angle
- Frees up more deck space with a small footprint
  - o Great for narrow applications between pool walls & structural walls
- Easy to use with a completely wireless system
- Adapts to your needs - some models allow for wheel chair and spine board attachments
