Dolphin Pool Cleaners

Dolphin W20

Ideal for children's pools and fountains.

The low profile of the W20 makes this cleaner the perfect solution for shallow water pools such as fountains, reflection pool, and wading pools reaching a minimum depth of 8 inches.

- Durable tracks and dual scrubbing brushes
- Swivel cable prevents tangling and improves pool coverage

Item Number	Description
CCW02028	Dolphin W20

Dolphin Wave 60

Ideal for small commercial pools up to 50 feet long.

A hard working commercial grade cleaner designed to deliver performance and reliability at an affordable price.

- Features quick and easy top-access to filter cartridges
- Large debris clean-up filters and fine porosity filter cartridges come standard

Item Number	Description
CCW06028	Dolphin Wave 60

Dolphin Wave 80

Ideal for mid-size commercial pools up to 68 feet long.

An advanced robotic cleaner designed to deliver superior performance and reliability with a must-have feature set.

- Features quick and easy top-access to filter cartridges
- Includes powerful pro remote control for manual navigation and feature selection
- Split brush technology for maneuverability and cleaning performance
- Large debris clean-up filters and fine porosity filter cartridges come standard

Item Number	Description
CCW08028	Dolphin Wave 80

Dolphin Wave 100

Ideal for mid-size commercial pools up to 88 feet long.

The Wave 100 is best suited for mid-sized pools in schools, health clubs, resorts, and water parks. This cleaner ensures complete pool coverage with floor, walls and waterline scrubbing plus superior filtration for all types of dirt and debris.

- Includes powerful pro remote control for manual navigation and feature selection
- Split brushes and drive motors for maneuverability and cleaning performance
- Multiple cycle choices with delayed start option
- Internal gyroscope ensures precise navigation over longer distances

Item Number	Description
CCW10028	Dolphin Wave 100

Dolphin Wave 120

Ideal for large commercial pools up to 121 feet long.

This heavy-duty robust performer does it all! It boasts double filtration and scrubbing power with adjustable pool parameters and choice of cycles. Filters 8,466 gallons per hour while scrubbing pool surfaces.

- Includes powerful pro remote control for manual navigation and feature selection
- Multiple cycle choices with delayed start option
- Internal gyroscope ensures precise navigation over longer distances

Item Number	Description
CCW12028	Dolphin Wave 120

Dolphin Wave 140

Ideal for large commercial pools up to 127 feet long.

Designed for pools up to 127 feet, the Wave 140 is a perfect solution for large universities, health clubs, municipal pools, and resort pools, including those with beach entry. With a wide cleaning path of 22 inches and a top-access filter, the Wave 140 excels at floor scrubbing and heavy-duty dirt collection.

- CleverClean™ Technology paired with a unique gyroscope system delivers accurate and effective scanning for systematic cleaning
- Extra-wide for maximum efficiency
- Filter thousands of gallons of water per hour, improving water circulation, leaving the pool water polished and exceptionally clean

Aquabot Pool Cleaners and Ariel Pool Skimmer

Magnum and Gemini Series by Aquabot

Magnum and Gemini Series cleaners are equipped with the Aqua Smart System, an intelligent program for robotic pool cleaners that aids the unit to fully cover and efficiently clean any commercial swimming pool. A mathematical algorithm installed in the brain of the machine enables the robot to clean the pool in a systemized fashion without wasting time.

- Fine mesh filter bag can trap extremely small particles and microscopic algae with only a few microns diameter.
- Gyro Navigation System is the new intelligent algorithm developed to improve navigation of the robot. Using systematic turning patterns, it prevents cable tangling and maximizes cleaning coverage efficiency.

Magnum Junior

For pools up to 50 feet long

Ariel Solar-Powered Pool Skimmer by Solar-Breeze

No plugs, just play; your pool's favorite gadget!

With a single button start, Ariel is easy to start up and start cleaning your pool right away. Ariel is fully solar powered, and with a powerful backup battery, Ariel can run 10 hours and more off a charge if there is no sunlight available. Slide out tray includes an embedded mesh filter that collects and retains particles all the way down to 200 microns in size, effectively filtering all pool water that passes through. Ariel functions great in pools of all shapes and sizes, and even pools with a salt base or chlorine base.

Features:

- Mesh filter collects and retains particles down to 200 microns in size
- Eco-friendly – fully solar-powered with powerful backup battery
- Simple removal with no-slip ergonomic handle
- Moves forward 10-20 feet per minute
- Sensors detect obstructions
- No cords or hoses
- Function in temperatures ranging from 40°F to 130°
- Can withstand water salinity of 6,500 ppm
- One-year limited warranty

Dual Stage

Waterco UltraVac Portable Filtration Cart

Perfect for service routes, hotels, condos, fountains and more!

- Most efficient Filtration Carts on the market
- Trap 80% more debris before it reaches the Pool Filter
- Reduce media cleaning
- Increased performance and efficiency
- Easy maneuverable cart

Dual Stage Ultra Vac Cart:

- Multicyclone 12 Filter
- 58 sq ft Cartridge Element

Single Stage Ultra Vac Cart:

- 100 sq ft Trimline Cartridge Filter
- 120 sq ft Cartridge Element

The cart is welded from strong structural steel tubing and powder coated for protection. The mobile portion will last many years, even in the most demanding environments. The filter element is made from high strength polyester backed up with a sturdy plastic core for years of use. A simple lock-ring arrangement on the filter lid helps make cleaning the element a breeze. The filter cartridge is easily cleaned by spraying the pleats with a standard garden hose. Includes GFCI/On-Off switch, heavy duty cart, and oversized tires.

Choose from the Dual Stage Multicyclone UltraVac Cart or the Single Stage UltraVac Cart.

Pump: 1 HP 110V

Item Number	Filter Type	Filter Area

Vacuum Hoses, Vacuum Heads, and Accessories

Commercial Vacuum Hose

Our I-Helix Pool Vacuum Hose is recognized as the finest professional grade spiral wound vacuum hose in the industry. It is flexible, abrasion resistant and resistant to UV radiation. Our hose, with its unique I-beam construction, has revolutionized hose design and flexibility. The point of flex is protected from punctures and cuts by an abrasion-resistant outer shell 30 times harder than conventional hose, without sacrificing flexibility. Flow characteristics are unrestricted, even if the hose is tightly coiled. The smooth exterior assures maximum external resistance to abrasion and eliminates hang-ups as well, making for long life and easy maneuverability. Swivel cuff prevents twisting, kinking or tangling. Backed by a **five year warranty**, you can't go wrong choosing our I-Helix Vacuum Hose.

Item Number	Size	Ship Weight
CC1171415	1-1/2" x 40'	12 lbs

Poles, Handles, and Accessories

Dually Heavy-Duty Professional Poles

Our Dually Heavy-Duty Professional Poles are made of the heaviest drawn aluminum tubing we offer. The Dually was created when we realized there was a demand to make a hybrid out of the 5000 series internal/external locking mechanisms. With this pole you can lock both external and internal locks for more locking power on jobs that demand the most. You also have the option to only use one of the locks for quicker and lighter jobs. These poles have larger drain holes for faster draining. These are three-piece poles with dual lock assemblies. Lock assemblies have replaceable parts when worn and are easily repaired.

Item Number	Description	Ships Via
CC901850	Three-Piece Dually Pole, 6'-18'	FedEx Ground
CC902499	Three-Piece Dually Pole Approx. * 8'-24'	FedEx Ground
CC961850	Three-Piece Dually Pole, 6-1/2'-18'	FedEx Ground

*This pole is trimmed by a few inches to allow it to ship at under 96"

Heavy-Duty SnapLite Poles

The SnapLite™ series is quickly becoming one of Skimlite's most popular poles. The lock is similar to what has been utilized as the primary locking mechanism in the painting industry for years. With a simple push of a button you can slide and lock your pole to your desired length. All SnapLite™ poles have a unique decagon shape to them which keeps the pole from rotating and provides ultra-smooth sliding. Skimlite's newest lock design that allows you to slide and lock the pole at your desired length with a simple push of a button.

Item Number	Description	Ships Via
CC631750	Three-Piece SnapLite Pole, 6'-17'	FedEx Ground

Carbonlite Poles

Made for extreme jobs and serious pool cleaning! The proprietary manufacturing process used for this Carbon Fiber pole warrants it as the strongest pole in the industry. When fully extended with heavy weight on the end this pole still has virtually no bend. This pole is ideal for anyone who uses heavy vac systems, or is looking for a stronger AND lighter pole than the industry standards. A pole made for the dedicated service professional who is willing to pay for the best.

Item Number	Description	Ships Via
CCCL81699	8'-16' telescoping carbon fiber pole	FedEx Ground

Fiberglass Poles by Rainbow/Pentair

E-Z Lock compression locks are manufactured to withstand abuse. Required for service pros in areas where protection from electrical shock is mandatory. UV protective coating helps prevent splintering with age.

Item Number	Description	Ships Via
CC8081604	8'-16' telescoping fiberglass pole	FedEx Oversize
CC8082204	11-1/2'-22' telescoping fiberglass pole	Truck

Replacement Parts for Skimlite Poles

Leaf Skimmers and Rakes

Economy Leaf Skimmer

Constructed of 3/8" solid anodized aluminum rod. Deep net is molded into ABS frame and snaps onto aluminum frame for easy replacement. Includes snap adapt handle for easy attachment to a standard pool pole.

Item Number	Description
CC12604	Economy Leaf Skimmer

Economy Leaf Rake

Designed to easily remove leaves and debris. Constructed of 3/8" solid anodized aluminum rod with heavy duty fiberglass screen. Screen and frame completely covered with squeegee for scraping fine, loose debris on bottom of pool. Includes snap adapt handle for easy attachment to a standard pool pole.

Item Number	Leaf Rake Bag Dimensions
CC12204	19" x 8" x 12"

Commercial Leaf Skimmer

This professional leaf skimmer features a gold anodized aluminum frame making it durable and rustproof. Its rounded edges are designed not to mark pools or cut vinyl lining. 13" x 14" fiberglass net.

Item Number	Leaf Net Dimensions
CC801F50	13" x 14"

Commercial Leaf Rakes

A gold anodized aluminum frame makes this line rustproof and durable. Edges are designed not to mark pools. Features fiberglass bag with rounded corners and seamless gold anodized aluminum capped handle with delrin snap.

Item Number	Leaf Rake Bag Dimensions
CC820F50	19" x 6" x 11"
CC830F50	30" x 8" x 12"

Rainbow #185 Leaf Eater

Venturi action top skimmer or bottom cleaner. Works with a garden hose and standard telescopic pole or automatic pool cleaner hose. Collector bag slips on and off easily. Comes with brushes for vinyl liner pools and wheels for ease of turning on hard bottomed pools.

Item Number	Description
CC1104604	#185 Leaf Eater
CC2142603	Standard Replacement Bag
CC2128603	Sand/Silt Fine Mesh Bag

Durapro SS8 Leaf Rake

This patented design uses a pure original plated spring steel frame which won't rust, corrode or break under normal use. The net is adhered to the frame with Skimplite's patented method and has a protective vinyl tubing around the frame that can be replaced when worn. The square 8" SS8 comes with a replaceable leafing edge.

Item Number	Description
CCSS850	Durapro SS8 Leaf Rake

Maxi Series M-16 Leaf Rake

Pocket 'stays' keep the pocket open moving forward and closed coming back, allowing debris to enter and empty effortlessly. They also keep the net off of surfaces, protecting it from wear and tear. Newly designed leafing edge rotates to make leaves and debris glide into the 16" pocket. Leafing edge, net and protective tubing are replaceable. No sewn seams across the back. Sewn seams are at the sides, allowing the M-16 to flow with less resistance. Plated steel spring frame provides greater strength with less weight. It will not rust, corrode or break.

Item Number	Description
CCM1650	Maxi Series M-16 Leaf Rake

CPSP30250	Replacement Net for Spartan Fine Mesh Leaf Rake

Three locations to serve you better!

Pool Maintenance Brushes

All brushes this section feature nylon bristles and Kwik-fit handle bracket for easy pole attachment. Order pole separately.

Item Number	Description	Bristle Rows
CC400050	18" Straight	5
CC301050	18" Curved	4
CC402050	24" Straight	2
CC302050	24" Curved	5
CC303050	36" Curved	5

Combination Wall Brushes

These innovative wall brushes combine stainless steel and synthetic bristles. The result is a brush that is softer and easier to push than stainless steel brushes, yet longer lasting with better scrubbing action than synthetic bristle brushes. Each combination wall brush features an aluminum back with 5 rows of mixed stainless steel and synthetic bristles.

Item Number	Description
CC300450	18" Curved
CC302450	24" Curved

Algae Brushes

One piece design. All algae brushes are equipped with 1" stainless steel bristles and a Kwik-change handle bracket for easy pole attachment. Order pole separately.

Item Number	Description
CC501050	9" Straight
CC502050	12" Straight
CC503050	18" Straight
CC504050	18" Curved End

Acid Wash Brushes

Crimped nylon bristles are long lasting, impervious to most solvents and will not rot. Order handles separately.

Item Number	Description
CC960050	Dual Sided w/ Polypropylene Block and threaded handle hole
CC602350	10" x 3" Wooden Block with two tapered handle holes

Corner Cleaning Brush

Round shaped brush makes it easy to clean all those hard to scrub places. Designed for use with a pool pole, purchased separately.

Item Number	Description
CC650050	Corner Cleaning Brush

Wall Whale

Wall Whale makes wall scrubbing easier by working like a spoiler on a car. The tail creates more than 10 times the force against the pool surface. It holds the brush firmly against the pool surface anywhere you can make the brush move.

Item Number	Description
CCW302050	Wall Whale with Nylon Bristles - 24"
CCW303050	Wall Whale with Nylon Bristles - 36"

Cleaning Supplies and Equipment

Boeshield T-9 Corrosion Shield and Waterproof Lubricant

This state-of-the-art formula applies thinly for maximum penetration, displacing moisture while attacking existing corrosion. It dries to a light, waxy film lubricating and protecting all metals for months. Excellent for deck equipment maintenance and swimming pool pump, filter, fittings and valve housing protection.

Item Number	Size
CCT000950	12 oz Aerosol
CCT100050	Gallon Liquid

Boeshield Rust Free

Rust Free is a heavy-duty rust and stain remover that works on stainless steel, iron, galvanized steel, chrome and fiberglass. Spray the affected area and allow to penetrate for 3 to 5 minutes, rinse with soapy water. For heavy rust, repeat using a Scotch-Brite pad.

Item Number	Size
CCT900R50	8 oz Spray Bottle
CCT900G50	Gallon Liquid

Scotch-Brite™ Hand Pads

Reusable 3M Scotch-Brite™ hand pads to be used for cleaning, finishing, blending, and deburring common materials around swimming facilities. Measures 6" x 9"

- **All-Purpose Pad:** Ideal for cleaning ceramic tile, vinyl liners, fiberglass, concrete, acrylic, and more
- **Stainless Steel Pad:** Designed specifically for hand-blending and finishing stainless steel

CitriSurf

CitriSurf products are recommended by Pentair for eliminating rust on stainless steel surfaces in aquatic facilities.

- CitriSurf 77 Plus is formulated for rust removal and passivation in a trigger sprayer bottle for applications where it is desired to spray the product on a local area.
- CitriSurf 2310 is a gelled version for rust removal and passivation of weld joints, vertical surfaces and large items or areas.
- Rust Rescue 200 is a high quality blend of chemicals formulated for the protection of stainless steel and other metal surfaces in conjunction with CitriSurf passivation, especially in environments where moisture and harsh atmospheric chemicals are expected to or have lead to corrosion.

Item Number	Description	Size
CC1007750	CitriSurf 77 Plus	22 oz Spray Bottle

Spectra Clean Systems

Although stainless steel is corrosion resistant, it may display rusting characteristics under certain conditions. Minimize the potential for corrosion with routine use of our Spectra-Clean™ System 1. Simply wipe down rail surfaces with ready-to-use Spectra-Clean™ and rinse with non-chlorinated water. For stubborn rust stains or heavy deposit build up, Spectra-Clean™ Systems 2 or 3 can bring back the original finish.

Item Number	Description
CC4790647	Spectra Clean System 1 – Daily Use (four 22 oz bottles)
CC4790547	Spectra Clean System 2 – Severe Use (one gallon)
CC4790447	Spectra Clean System 3 – Extreme Use (one gallon)

Surface Cleaning and Preparation

Acid Sprayer

B&G Acid sprayers are specifically designed to dispense acids for treatment of exposed surfaces. Acid sprayers are the only sprayers available which can be used for all chemical applications. The sprayer's strong polyethylene tank, poly pump unit, hose, and patented acid valve with viton gaskets are all acid-proof. No metal parts of the sprayer ever come in contact with acid. Acid sprayers are a proven value because of the innovative design and durable materials used in manufacturing.

Item Number	Capacity
CC2AS50	2 Gallons

Command 1000 Pressure Washer

The Command 1000 pressure washer is durable, cart-mounted, and easy to use. It is equipped to deliver 1000 PSI at 2 gallons per minute. The Command 1000 is driven by a 1½ horsepower motor. The cart enclosure is made of non-rusting polyethylene for maximum durability. The pump and motor are housed within and protected by the cart. The Command 1000 also features a built-in one gallon capacity detergent compartment. Other standard features include 20' of non-kinking hose, 36" gun lace, multi-reg tip, 10' cord with ground fault circuit interrupter, glycerin-filled gauge and chemical injection. Dimensions: 35½" × 19" × 15"

Item Number	Shipping Weight
CC1000E50	64 lbs

Wysiwash Cleaning System

Wysiwash is a revolutionary, patented system that changes the way people sanitize. Wysiwash means disinfection from a water hose-end sprayer. The hydro-injection venturi system produces a solution of hypochlorous acid that is up to 120 times more effective than liquid bleach.

- Will not destabilize swimming pool water
- Works with either cold or hot water
- Caplets last up to 3½ hours of continuous use
- No mixing, no mess, no harmful residues
- No rinsing necessary
- Great for cleaning pool filters too!

Item Number	Description
CCYS10250	Wysiwash Sanitizer-V Power Washer
CCYS11750	Wysiwash 9-pack of Jacketed Sanitizer Caplets
CCYS11050	Value Combo – Sanitizer-V Power Washer + 9-pack of Caplets

Industrial Water Broom

Quickly and easily clean pool decks, locker rooms, patios... anywhere a garden hose is used for cleaning or hosing down. Simply attach the Water Broom to a hose and clean in ¼th the time, using up to 80% less water. Heavy duty steel and brass construction with brass on/off valve, double ball bearing swivel rubber casters and threaded brass nozzles. Completely assembled and ready for years of use. Width: 36".

Item Number	Description
CCC4750	Water Broom

Viro-Shield™

- Made from pure Hydrogen Peroxide (H2O2)
- Effective natural oxidizer, cleaner, deodorizer and anti-microbial solution
- Cleans and disinfects hard, non-porous surfaces to destroy essential components of germ cells and deactivate a wide range of micro-organisms

Item Number	Size
CCSR62850	Gallon

Olympic Prep Magic One-Step Cleaning Solution

Olympic Prep Magic is a one-step, clean and etch pool surface preparation solution that allows you to clean your surface without the extra steps of traditional surface cleaning. Simply mix Prep Magic with water, clean your surface, and then rinse. Prep Magic can be used on bare concrete, gunite, marcite, bare fiberglass, plaster and painted surfaces.

1 gallon prepares approximately 400 sq ft of bare concrete, marcite, gunite and plaster surface or 700 sq. ft. of bare fiberglass and painted surface.

Item Number	Size
KK024518	Gallon

Clean and Prep Solution

Clean & Prep Solution is used to clean and degrease while simultaneously dissolving mineral deposits, increasing porosity for good adhesion on surfaces prior to painting.

1 gallon prepares approximately 400 sq ft of bare concrete, marcite, gunite and plaster surface or 700 sq ft of bare fiberglass and painted surface.

Item Number	Size
KK930655	Gallon

TriSodium Phosphate

TriSodium Phosphate, or TSP, is a cleaning compound commonly used in preparing swimming pool and deck surfaces for painting.

Item Number	Description	Size
AA9031250	TriSodium Phosphate	1 lb container
AA45850	TriSodium Phosphate	50 lb bag

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Pool and Deck Repair Products

Pox-O-Fill

We recommend Pox-O-Fill for permanent patching of concrete. Excellent for repairing structural cracks in concrete pools or as an anchoring compound for diving boards and ladders. May be trowelled over rough spots to a featheredge with no loss of adhesion. It may be applied underwater.

Item Number	Description
KK0096218	Pox-O-Fill – Quart
KK096218	Pox-O-Fill – Gallon

Concrete Patch

Concrete Patch is a strong yet economical concrete patching compound for above ground and underwater concrete surfaces. This two-component material is mixed together, then trowelled into cracks to form a hard, permanent patch. Concrete Patch will cure overnight and may be painted the next day. Compatible with all pool coatings.

Item Number	Description
KK0096018	Concrete Patch – Quart
KK096018	Concrete Patch – Gallon

Thermolastic

Thermolastic expansion joint filler is a permanently flexible 2-component polysulfide rubber material for filling vertical and horizontal expansion joints in concrete pools or decks. Thermolastic may be installed into expansion joints with a caulking gun. Use solvent #1109 for thinning and cleanup. This material must cure 5 to 7 days before painting. Use Horizontal (Type H) for floor joints. Use Vertical (Type V) for wall joints.

Item Number	Description
KK0935H18	Thermolastic – Horizontal
KK0935V18	Thermolastic – Vertical

FoamLite Backer Rod

Subfiller for expansion joints and crack repair. Polystyrene rope. Use under Thermolastic and Permaseal. Prices are per lineal foot.

Item Number	Description
KK9341218	1/2" FoamLite
KK9345818	5/8" FoamLite
KK9347518	3/4" FoamLite
KK93418	1" FoamLite

Olympic Clear Sealer

Olympic Clear Sealers are water-based acrylic coatings designed to protect and improve the appearance of concrete surfaces. Use on patios, decks, sidewalks, pavers, waterscapes and more. Roll, brush or spray on. Available in two finishes – matte and semi-gloss. VOC compliant.

One Gallon Item Number	Five Gallon Item Number	Finish
KK094718	KK94718	Matte
KK094818	KK94818	Semi-Gloss

Permaseal

Permaseal is a one-component nitrile rubber caulking compound that seals cracks while remaining permanently flexible. Permaseal is compatible with all types of pool paints and dries overnight.

This material should be used only for a small crack up to 1/4" in width. Some shrinkage will occur as it dries.

Item Number	Description
KK95018	Permaseal 10.5 oz tube

Vulkem 116 Sealant

Vulkem® 116 is a one-part, moisture-curing, gun-grade polyurethane sealant. It is durable, flexible, and offers excellent performance in dynamic joints.

10.1 oz tube. Color: White.

Item Number	Description
KK5031855	Vulkem 116 Sealant, White – 10.1 oz Cartridge

Vulkem 45SSL Self Leveling Sealant

Vulkem® 45SSL is a one-part, moisture-curing, low-modulus polyurethane sealant. It provides exceptional wear and tear resistance required in high traffic areas. Formulated for use in expansion joints in sidewalks, swimming pool decks, plazas, floors and other horizontal surfaces.

30 oz tube. Color: White.

Item Number	Description
KK5421855	Vulkem 45SSL Sealant, White – 30 oz Cartridge

BOSS® 801 Pool & Spa Silicone Adhesive

- A one-part, low odor, non-corrosive, neutral cure adhesive and sealant
- It provides excellent adhesion to ceramic tile, spa jets, skimmers, lighting fixtures, plumbing and fiber optic lighting
- Adheres well to fiberglass, ABS, acrylic, PVC, wood and masonry

10.3 oz cartridge

Item Number	Color
KK0101B50	White

Aquamend

Aquamend is a hand-kneadable specialty epoxy putty that mixes in just one minute for permanent repairs to damp, wet areas and underwater applications. It will bond tenaciously to substrates such as fiberglass, metal, wood, concrete, glass, and many vinyls. After the final cure, Aquamend may be drilled, sawed, tapped, filed, sanded, and painted.

Aquamend comes in a handy 4 oz "tootsie-roll" form with the curing agent encapsulation in the contrasting base material. The unused portion will remain stable for years if protected from direct contact with the air.

Item Number	Description
CCAQUAM50	4 oz Aquamend

Kneadatite Two-Part Epoxy Patching Compound

Kneadatite is great for larger repairs. It has a long work life and it smooths out very easily when you add water. The mixed epoxy sets in 50 minutes and can be drilled, tapped, filed, machined and painted.

Kneadatite is packaged in a 1 lb kit (1/2 lb Part A and 1/2 lb Part B).

Item Number	Description
KK4013050	1 lb Kit – White

Ramuc Pool Coatings

RAMUC EPOXY COATINGS

Type EP High Gloss Epoxy

Ramuc Type EP is a high solids, high gloss, epoxy pool paint formulated to provide a tile-like, abrasion resistant, durable, easy to clean film for the protection of concrete, plaster and fiberglass swimming pools, spas, reflecting pools, water park wave pools, and rivers. Type EP is compatible with other epoxy pool paints. Coverage is 175–200 sq ft per gallon on bare, sandblasted, or rough surfaces. 400–450 sq ft per gallon on recoats.

Olympic Pool Coatings

OLYMPIC EPOXY PRIMERS

Olympic offers two types of epoxy primer for unpainted concrete or plaster surfaces. Bare plaster and concrete are highly absorbent materials that tend to soak up the first coat of paint. Therefore, a primer should be used to seal the surface and provide a smoother profile for painting.

These primers should only be used as a base coat for **Poxolon 2** or **Zeron**. Do not use epoxy primers in conjunction with rubber base paints.

Poxoprime II

Poxoprime II is our epoxy primer for application over unpainted concrete or plaster. Used as an undercoat for Poxolon or Zeron, Poxoprime II soaks in and seals the surface. Poxoprime II's compatibility with wet surfaces helps reduce downtime and saves money.

Coverage: 200–225 sq ft per gallon.

One Gallon Item Number	Description
KK021418	Poxoprime II Primer

Gunzite

Gunzite is a two part epoxy primer for application over unusually rough plaster or concrete. The heavy viscosity of Gunzite acts as a fill coat on these surfaces and provides a much smoother surface. Gunzite should only be used as an undercoat for Poxolon or Zeron. Especially effective on sandblasted surfaces.

Coverage: 100–150 sq ft per gallon.

One Gallon Item Number	Four Gallon Item Number	Description
KK021618	KK421618	Gunzite Primer

Olympic Fusion Plus Conversion Coating

Convert Rubber-Base Coated Pool to Epoxy Coated Pool Fusion Plus is the smart way to convert your worn rubber-base coated pool to an epoxy finish. Simply clean surface, roll on Fusion Plus, then follow with one coat of Zeron or two coats of Poxolon. Your rubber-to-epoxy finish will be beautiful and will last for years.

Coverage: 225–250 sq ft per gallon.

KK0110918	Epoxy Solvent, 1 gallon

OLYMPIC EPOXY COATINGS

Epoxy swimming pool coatings are by far the most durable and attractive of all types of swimming pool paints. They provide the greatest degree of protection and long-range durability in swimming pools. Plus, their "ceramic-like" finish inhibits algae growth and common pool stains. May be applied by brush, roller or airless spray. You can expect five to eight years of service from an epoxy coating. Highly recommended for new unpainted pools or for refinishing rough and stained plaster. **Note: Do not use epoxy coatings over existing rubber base paints.**

Zeron

Zeron is a one coat epoxy pool coating recommended for use by pool service professionals. This high solids epoxy covers stains and seals hairline cracks. Excellent for refinishing rough, stained plaster pools. Provides a smooth easy to maintain pool surface. Zeron may also be used as an alternative to plaster in new pool construction.

Coverage: 125–150 sq ft per gallon.

Poxolon 2

Poxolon 2 is a high gloss epoxy pool coating that is easy to apply and durable. Recommended for use by pool service companies and the do it yourself pool owner. Use with primer on concrete, plaster, fiberglass and metal pools. Two coats are required.

Coverage: 225–250 sq ft per gallon.

OLYMPIC RUBBER BASE ENAMELS

Rubber base swimming pool paints are the most popular type used today. They are relatively low in cost, easy to apply and provide an attractive finish in swimming pools. Two coats are suggested for good adhesion and durability. There are two types of rubber base paints, chlorinated and synthetic. You can expect from one to three years of service from a rubber base enamel.

Paralon 2

Paralon 2 is our standard grade chlorinated rubber pool enamel. This paint is recommended for repainting existing chlorinated rubber coatings. Two coats are required for repaint jobs and three coats for bare concrete. Paralon 2 meets Federal Specification TTP-95, Type 1, Class 3 for rubber base pool paints.

Coverage: 250–275 sq ft per gallon.

One Gallon Item Number	Five Gallon Item Number	Color

KK029718	KK29718	Black

Optilon

Optilon is an economical synthetic rubber base formula meeting all the quality performance expectations of chlorinated rubber base paint. Optilon can be applied to bare concrete or plaster as well as over old rubber base paint. Optilon has excellent chemical resistance and color retention while yielding 2–3 years average service. Two coats are recommended.

Coverage: 250–275 sq ft per gallon.

OLYMPIC WATER BASE ACRYLIC ENAMEL

Hydrolon

Hydrolon combines a superb acrylic formulation with ease of application and cleanup. Hydrolon is perfect for use over old rubber base paint, and with no solvent odors Hydrolon can be comfortably applied indoors with minimal downtime. Two coats are required.

Coverage: 250–300 sq ft per gallon.

Before

After

Read Before Painting or Repairing Pool

Painting a pool properly requires attention to four factors:

1. Selection of the proper type of coating
2. Preparation of the surface
3. Proper application of the paint
4. Proper curing time

The most widely used pool coatings are chlorinated rubber base and epoxy base paints. When selecting either of these coatings for your pool, remember that they are not compatible. Each has its advantages and disadvantages. We encourage you to call our technical experts to assist in choosing a pool coating. We will also help estimate the quantity of paint required if you provide us with your pool measurements.

Pool surfaces must be completely clean and free from slime, scum, body and suntan oils, algae, calcium and other surface residue before they can be properly painted or repainted. Pools are prepared for painting by a three-step procedure: (1) washing, (2) acid etching, (3) rewashing.

It is important to know that acid will not remove suntan oil, body oil, diluted hair spray or any oil or greasy substance. These must be removed with a pool washing solution of tri-sodium phosphate (TSP). Mix 8 oz of TSP to each gallon of water. Mix about 5 gallons of this solution for each 1,000 sq ft of surface to be scrubbed. Always hose off the TSP with clear water.

Acid etching opens the pores which allows the paint to penetrate into the surface to create a good bond. All persons participating in acid etching should wear rubber boots and rubber gloves. Mix one part 30% muriatic acid with two parts of water. Always pour acid in the water. Never pour water in the acid! As soon as the acid ceases to effervesce it should be hosed off with clear water. Do not permit the acid to dry on the surface.

After etching is complete, the surface should be scrubbed again with the TSP solution to neutralize the remaining traces of the acid.

Proper curing time is important because rubber based paint gets harder the longer it dries; the harder it becomes, the more resistant it is to chemical attack.

Please feel free to call us for technical information regarding all your pool painting needs.

Deck Coatings

OLYMPIC DECK AND COURT COATINGS

Olympic Patio Tones

Patio Tones is our nonslip deck and patio coating that is available in eight earth tone colors. This coating is especially useful for covering older decks and patios that have cracked or become stained and worn. Simply patch the cracks, clean the deck according to the label instructions, and "roll-on" the Patio Tones. The water based formula lets you clean and coat the same day! The results will be a beautiful pool deck that is cool, safe and attractive. Two coats required on original application. Coverage: 80-100 sq ft per gallon.

Olympic Super Convoy Epoxy Deck Coating

Super Convoy is an unequalled epoxy coating for shower room floors, pool decks, diving boards and wading pools. This heavy duty epoxy paint will provide excellent results even when exposed to the most severe acid, alkali or chemical conditions. Coverage: 90-110 sq ft per gallon. Cure time: touch-2 hours @ 75°F; traffic-24 hours. Colors are approximations. Contact us for a paint chip card for best color representation.

Duracourt

Duracourt outdoor court coating is designed specifically for coating asphalt or concrete recreational surfaces. Duracourt is excellent for new or previously painted all-weather recreational court surfaces. Duracourt is formulated from tough acrylic latex which is ideally suited for outdoor play. It literally stretches and breathes to accommodate changing temperature and weather conditions - which means there is no peeling or cracking of the coating. Coverage: 100-125 sq ft per gallon, depending on the porosity of the surface.

TUFFCOAT
RUBBERIZED NON-SKID COATINGS™

Tuff Coat Deck Coating

Tuff Coat coatings are an attractive, easy to use, single component, flexible, water-based non-skid coating created through a unique process of cross-linking urethanes, acrylics, co-polymers and recycled rubber granules. When used together with Tuff Coat primers and rollers, Tuff Coat non-skid coatings create a long-lasting, excellent traction finish to pool decks, splash pads, locker rooms, commercial/industrial applications and much more.

UT-100

Non-Submersible, Medium Texture

This non-submersible product is designed to provide an attractive, durable, impact-resistant, non-slip surface for pool decks, ramps, locker rooms, kitchens, foot bridges, stairs and other areas requiring slip resistance that will not be submerged.

UT-200

Submersible, Medium Texture

This fully submersible product is designed to provide an attractive, highly durable, impact-resistant, non-slip surface for splash pads, kiddie, catch, and wave pools, spray parks, restroom floors, deck surfaces and other areas requiring slip resistance that can be used in or out of water.

UT-300

Commercial Grade, Coarse Texture

This commercial grade product is designed to provide an extremely durable, impact-resistant, non-slip surface for heavy duty industrial applications such as loading docks, ramps, refineries and other areas requiring extreme slip resistance that can be used in or out of a wet environment.

Available in Black or large volume custom colors.

Dri-Dek and Slip Prevention

Dri-Dek Floor System

Dri-Dek is a multipurpose safety surfacing material that is specially formulated from flame resistant polyvinyl chloride. Contains OXY-BI, an EPA approved fungicide for fighting mold, mildew, and bacteria. UV stabilizers. Dri-Dek will not burn, rot, splinter, flake, soil, discolor, tear or unravel in hot or cold, humid or arid climates.

This modular system is comprised of 12" x 12" x 1/4" tiles or 3' x 12' rolls with anti-skid surface. The tiles lock together to form a portable surface of any length, width, or shape. The roll is a solid piece that may also be connected with other rolls or tiles. You can add, subtract, rearrange, or relocate all or part of your surface to fit anywhere, at anytime.

Dri-Dek is ideal for use around pools, walkways, locker rooms, showers, saunas, spas, weight rooms... virtually anywhere that safety is as important as comfort.

The Edge Piece is 12" x 2" and snaps to the tile to provide a smooth access ramp.

The Corner Piece is 2" x 2" and fits between the adjacent edges to complete the border.

Minimum order: 12 tiles. Typically ships within 1 business day.

Safety Track® Resilient

This rubberized, textured non-slip tape was designed for heavy shoe traffic, yet is comfortable enough for bare feet. Coated with an aggressive adhesive designed with industrial and commercial applications in mind, this product is easily cleaned and mop-friendly. The best choice for swimming pool areas.

Item Number	Color	Description	Rolls per Case
KK5100150	Black	1" x 60' roll	12
KK5100250	Black	2" x 60' roll	6
KK5100450	Black	4" x 60' roll	3
KK5162450	Black	6" x 24", 50 pieces	N/A

Safety Track®

Safety Track is a durable adhesive-backed grit surface which provides long-lasting protection even when exposed to heavy traffic, water, or grease. Safety Track can be used indoors or outdoors. It is easily installed in seconds to most clean, dry, oil-free surfaces, including metal, primed concrete, and wood. Just peel off the paper backing and press in place. Excellent for recreational areas, stairways and hazardous floor areas. Standard stock Safety Track is black and available in four convenient sizes to accommodate hundreds of applications. Contact us for a price quote on alternate sizes and colors.

Item Number	Color	Description	Rolls per Case
KK1X60B50	Black	1" x 60' roll	12
KK2X60B50	Black	2" x 60' roll	6
KK4X60B50	Black	4" x 60' roll	3

Flex Track®

Flex track is a resilient, fine-textured vinyl which provides firm traction in both wet and dry conditions. It is supplied with an aggressive pressure-sensitive adhesive system which is functional both indoors and out. Ideal for showers, bathtubs, stair treads, locker rooms, and therapy rooms.

Item Number	Color	Description	Rolls per Case
KK1X60C50	Clear	1" x 60' roll	12
KK2X60W50	White	2" x 60' roll	6
KK2X60C50	Clear	2" x 60' roll	6

Tread Spread Slip Resistant Epoxy Coating

Tread Spread is a spreadable epoxy coating that includes a slip-resistant aggregate. Simply mix and spread wherever additional traction is needed. Bonds tenaciously to concrete, wood, metal, fiberglass, and most rigid surfaces. Use on wet, dry, and underwater surfaces. High-traction and easy to apply. Much more durable and long lasting than tapes. Exceeds OSHA and ADA recommendations for slip resistance in both wet and dry conditions.

Tape off an area where additional traction is needed. Then mix and apply Tread Spread to the area. Peel up the tape while the epoxy is still wet and allow 2-3 hours for the product to dry. Coverage: 24 sq ft x 1/16" thick per gallon.

Item Number	Description
KK9920050	Tread Spread, 2-Pint Kit

PEM Aquatic Matting

PEM Aquatic Matting

Numerous Uses:

- Pool and Spa Decks
- Locker Rooms
- Restrooms
- Concession Areas
- Waterpark Bridges, Steps and Walkways

Aquatic facilities present unique challenges to facility operators. Traditional pool decks often utilize tile or concrete flooring that can withstand wet conditions and be cleaned easily. Unfortunately, when wet, these surfaces often become very slippery and dangerous. PEM slip-resistant aquatic flooring and pool deck matting addresses these concerns and provides a safe, slip-resistant surface for pools and other aquatic areas.

It is now the leading wet area flooring used by pool operators throughout the country and used extensively by USA Swimming, the National Governing Body for the sport of swimming in the United States, at its events.

PEM wet area flooring is specifically designed to combat against slips and falls around pools, decks and patios, the soft textured surface provides both stability and comfort while the permeable, vinyl mesh mat design drains quickly and eliminates puddling. PEM has been the trusted supplier of wet area flooring solutions for thousands of pool and facility operators around the country, check out what customers have to say about our wet area matting.

For aggressive applications that involve standing or flowing water or for underwater applications, Surebond 909 adhesive is recommended. One 36" x 25' piece of PEM Matting requires 6 tubes of adhesive.

Approximate Thickness:

- Lightweight – ¼"
- High Traffic – ⅜"

Plastex Matting

Heronrib

Heronrib is the ultimate sports and leisure matting system for use in wet areas where barefoot traffic is extensive. Exceptionally warm and comfortable to stand on, Heronrib has a specially embossed slip-resistant surface and contains SteriTouch additives to prevent fungal and microbial growth. Made from strong, non-porous PVC sections with channeled underbars, Heronrib will automatically self-drain even the largest amounts of water. It is therefore not only perfect for preventing a splash, but also for making a splash of color around swimming pools, saunas, and spas using one or more of Heronrib's eye-catching colors. ***Mulberry Red not colorfast in direct sunlight.**

Features

- UV Resistance
- Effective inside and out
- Barefoot comfort & safety
- Loose lay open grid vinyl construction
- Anti-bacterial and anti-fungal additives
- Certified slip resistance DIN 51097 Classification C

Item Number	Description
LLK2X3350	2' x 33'
LLK3X3350	3' x 33'
LLK4X3350	4' x 33'
LLEDGE2BK	Low Profile Edging Roll 2' x 33' (2 rolls), Black
LLEDGE2DG	Low Profile Edging Roll 2' x 33' (2 rolls), Dark Gray
LLSTLP50	Joining Strip, 2-Part Snap Track 8'-2" length
LLCCDP50	Connector Clips Dual Purpose (pack of 10)

Herontile

The Herontile system has a simple click together joining mechanism designed to cover large floor areas seamlessly and easily. Tested under DIN 51097 for slip resistance, it also contains SteriTouch additives to prevent fungal and microbial growth. Herontile is made from an Ethylene Vinyl Acetate (EVA) composition to guarantee softness and comfort. It also has a circular surface embossing for enhanced slip resistance and stands 15mm high on strong support legs so that water disperses well underneath. Four bright, stable, and appealing color options are complementary to interior schemes.

Features

- UV Resistance
- Effective inside and out
- Open grid roll format
- Cushioned surface - light weight construction
- Economical alternative
- Certified high slip resistance DIN 51130 R11

Item Number	Description
LLHRT2750	13" x 13" (27 tiles per box)
LLEDGE3BL	Snap-on Edge (ramping) 1" x 2.8", Ocean Blue
LLEDGE3GY	Snap-on Edge (ramping) 1" x 2.8", Dark Gray

Floorline

Floorline provides an economical alternative for lighter duty applications where slip resistance is required outdoors or in. The matting's slip-resistant surface allows effective safety underfoot in light-traffic changing areas and swimming pool surrounds and is resistant to UV degradation. Supplied in roll format, Floorline is loose laid and a great formula that not only enhances, but provides a safer and cooler footing. ***Red not colorfast in direct sunlight.**

Features

- UV Resistance
- Effective inside and out
- Open grid roll format
- Cushioned surface - lighterweight construction

Flexipath COVID-19 Matting

Implement social distancing measures quickly and easily with FlexiPath Covid-19, a single-tier, lightweight walkway mat with delineated stand zones in alternating color blocks. As Covid-19 lockdown restrictions begin to ease, many businesses face the challenge of continuing or restarting operations while complying with social distancing measures. Our FlexiPath Covid-19 matting has delineated stand zones that allow customers, visitors and employees to easily observe social distancing rules. The mat's alternating color blocks makes it ideal for businesses with queuing customers or workplaces with standing employees. The lightweight construction means the mat is quick to install and easy to move if needed.

Features

- Etched surface
- Open-grid construction
- Resistant to most acids, alkali, and oils
- Single-tier, lightweight construction
- Easy to clean
- Certified slip resistance (ASTM 1677: 1.0/0.9)

Chemtrol Chemical Control Systems

Chemtrol® Automatic Chemical Control Systems

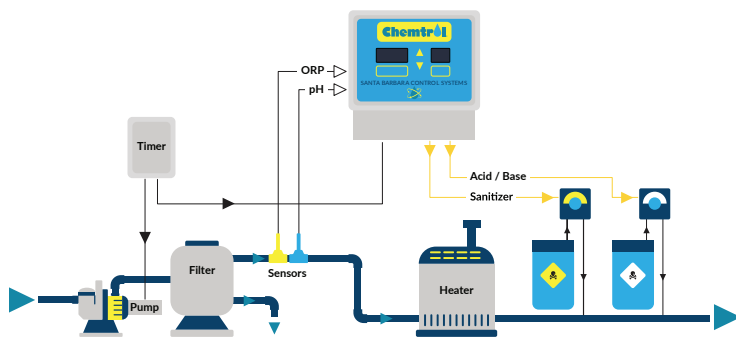

Every Chemtrol® controller is designed for easy operation by the pool or spa operator. All operating functions are accessed through direct controls on the front panel.

Today, chemical automation is recognized as a must for all commercial pools and spas. It is the only way to maintain clean and safe water and to prevent bad odors, eye irritation, infections and costly damage to equipment. At the same time, chemical automation pays for itself through savings in operating and maintenance expenses.

Besides good water chemistry and comfortable swimming, chemical automation yields substantial benefits from savings in operating costs, maintenance and major repairs. With proper selection of equipment, most installations show complete system payback in a year or two.

Chemtrol 250

1: Controller

Connect controller to Timer in parallel with Main Pump. Make sure to follow electrical codes.

2: Sensors

Install ORP and pH sensors on recirculation line after filter or bypass line*.
*recommended option

3: Controller

Connect chemical feeders to controller outputs. For chlorine or bromine erosion feeder, install solenoid valve on intake line. Compatible with most ozonators and chlorine salt generators.

Chemtrol® 250 Digital Controller

The Chemtrol® 250 ORP/pH Digital Controller makes pools and spas cleaner and safer by automatically maintaining both sanitizer ORP (Oxidation-Reduction Potential or Redox) and water pH. Ideal for hotels, motels, apartments, condos, homes and more, all operation functions are clearly labeled and accessible from the front panel, with safety and easy-reset features not found on other controllers. Each controller comes with the security of a **5-year electronics warranty**, and pays for itself in 1 to 2 years through cost savings in operation and maintenance expenses.

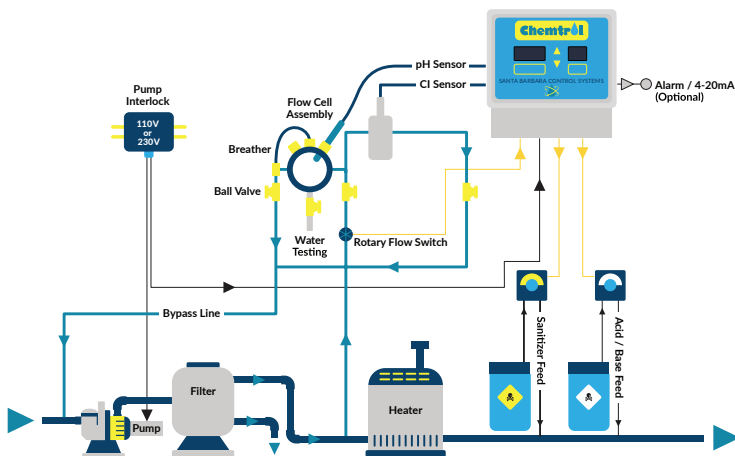

Chemtrol® 250 Features:

- Exclusive safety and easy reset features
- All functions on front panel
- Adjustable setpoints and alarms
- Acid/base selector
- Proportional feed and overfeed safety timers
- Rain- and splash-proof cabinet

Item Number	Description
I125040	Chemtrol 250 (controller & probes only)
I1FCA40	Flow cell assembly

Chemtrol 255

1: Controller

Connect controller to Timer in parallel with Main Pump. Make sure to follow electrical codes.

2: Sensors

Insert sensors in Flow Cell after filter.

3: Controller

Connect chemical feeders to controller outputs. For a chlorine erosion feeder, install solenoid valve on intake line.

Chemtrol® 255 Digital Controller

The Chemtrol® 255 PPM/pH Digital Controller helps ensure direct reliable readings of free chlorine ($\text{HOCl} + \text{OCl}^- + \text{Chlorinated Isocyanurates}$) concentration in water. Unlike conventional amperometric or colorimetric sensors, it's easy to install and operate. Not affected by cyanurates or oxidizers, it also doesn't require a pressure flow cell and/or expensive and expendable chemical reagents. It's the only easy-to-use controller offering true free chlorine and pH control for pools, spas, cooling towers and industrial water treatment and is compatible with cyanuric acid (CYA) at all concentrations. Each controller comes with a special low-pressure cell that ensures a smooth flow of water for precise and reliable control of free chlorine, the security of a **5-year warranty** and is practically maintenance free.

Chemtrol® 255 Features:

- All functions on front panel
- Acid/base selector
- Proportional feed
- Programmable 4-20 mA dual channel output to PID
- Free CL range 0-10 PPM or 0-2 PPM
- Ethernet/Internet communications

Item Number	Description
I125540	Chemtrol 255 (controller & probes only)
I1FCA40	Flow cell assembly

Chemtrol Chemical Control Systems and Accessories

Chemtrol® PC2100 Digital Controller

Whether it's a swimming pool, spa, cooling tower, or industrial water treatment facility, chemical automation is the easiest and most efficient way to ensure proper water quality. The Chemtrol® PC2100's advanced microprocessor technology gives you a new standard of sophistication in automated control of sanitizers, oxidizers, and pH. The Chemtrol® PC2100 is a user-friendly and reliable controller that is easy to install and operate, and is backed by our **5-year electronics warranty**.

Chemtrol® PC2100 Features:

- Large 8-line LCD display in U.S. or metric units for easy operation
- Full screen menu in English, French, or Spanish
- ORP control of sanitizer (chlorine or bromine and/or oxidizer activity - compatible with all common sanitizers and oxidizers)
- pH control with choice of acid or base feed
- Programmable shock treatment and chemical savings cycles
- Langelier Saturation Index for water balance
- Automatic data logging for up to 999 tests
- Micro SD card easy data log downloads
- Safety flow switch
- Flow Cell Assembly (FCA)

Item Number	Description
IIPC21040	Chemtrol PC2100
IIFCA40	Flow cell assembly
IIEHC040	Ethernet/Internet Communications Upgrade, w/ Chemcom Software

Chemtrol® PC3000 & PC5000 Programmable Controllers

The user-friendly, microprocessor-based Chemtrol® PC3000 & PC5000 Programmable Controllers introduce a new standard of sophistication and reliability in automated water treatment for applications like swimming pools, spas, waterparks and industrial settings. Easy to install and operate, each controller comes with an operation manual, on-site startup and training by a Qualified Dealer and the security of a **5-year electronics warranty**. All menus are clearly displayed in English, French or Spanish – with choice of U.S. or metric units.

Chemtrol® PC3000 & PC5000 Features:

- ORP control of oxidizer with shock & chemical-saving programs
- pH control with acid or base feed and probe rinse program
- Programmable shock treatment and chemical savings cycles
- Heater control with energy saver program
- Langelier saturation index for water balance
- Sanitizer PPM display & remote alarm
- Compatible with common sanitizers, oxidizers & ACT Program

Item Number	Description
IIPC30040	Chemtrol PC3000 (PPM Control is optional)
IIPC50040	Chemtrol PC5000 (PPM Control is standard)
IIEHC040	Ethernet/Internet Communications Upgrade, w/ Chemcom Software

Chemtrol® PC6000 & PC7000 Programmable Controllers

The Chemtrol® PC6000 & PC 7000 microprocessor-based Programmable Controllers are fully integrated command center for automated control of water chemistry and filtration. Featuring true duplex remote operation and choice of backwash programs for single or multiple filters, it introduces a new standard of sophistication in automated water treatment for applications like swimming pools, spas, waterparks and industrial water treatment. Each controller comes with an operation manual, on-site startup and training by a Qualified Dealer and the security of a **5-year electronics warranty**.

Chemtrol® PC6000 & PC7000 Features:

- ORP control of oxidizer with shock & chemical-saving programs
- pH control with acid/base feed and probe rinse program
- Ethernet/Internet network communications
- Heater control with energy saver program
- Main pump control (including VFD control) & flow rate monitoring with cumulative display
- Sensor cell assembly
- Influent/effluent pressure monitoring with safety alarms
- Automated backwash for multiple filters
- Water level control with electronic sensor and fill valve control
- Menus in English, French or Spanish (in U.S. or metric units)
- Compatible with all common sanitizers and oxidizers
- Automated Chloramine Treatment (ACT) Program

Item Number	Description
IIPC60040	Chemtrol PC6000 (PPM Control is optional)
IIPC70040	Chemtrol PC7000 (PPM Control is standard)

Chemtrol® Flow Cell Assembly Options

- Easy installation on bypass line
- pH and ORP sensor fittings
- Fitting for conductivity sensor
- Clear viewing port
- Two (2) flow control valves and sampling spigot
- Anti-air block line
- For new installations or upgrades

Flow Cell Assembly

- Includes flow cell with tap and valves ONLY

Flow Cell (Only)

- Includes sensor cell and (2) 1/2" compression fittings

High pressure versions available with pricing on request.

Item Number	Description
IIAPWFS40	Flow Cell Assembly with Flow Switch
IIFCA40	Flow Cell Assembly
IIFC40	Flow Cell (only)

Chemtrol® Sensor Cell Assembly

The Flow Cell Assembly is available pre-assembled inside a sturdy and lockable cabinet for safety and security. Assembly includes sensor cell, compression fittings, paddlewheel flow switch, sampling tap and locking cabinet.

Item Number	Description
IISCA40	Sensor Cell Assembly
IISCAHP40	Sensor Cell Assembly (High Pressure)

Chemtrol® Replacement Sensors and Accessories

Each sensor includes 10' shielded cable and BNC connector.

Item Number	Description
II12240	pH Sensor
II12340	ORP Sensor
II12440	PPM Sensor
IPMEM1B40	Blue Membrane for PPM Free Chlorine Sensor
IPMEM1O40	Orange Membrane for PPM Total Chlorine Sensor (not pictured)
IPGEL1B40	Electrolyte Gel for Free and Total Chlorine Sensors
IITEMP40	Temperature Sensor (includes PVC tee)
IPTC40	Temperature/Conductivity Sensor
IIPWFS40	Safety Flow Switch - 1/2" NPT Connections

Standard Replacement pH/ORP Sensors

Our standard replacement pH/ORP electrodes are reliable and cost-effective direct replacements for sensors used in most brands of pool controllers. Constructed with a color epoxy body that protects the platinum band and sensor tip. Color-coded for easy identification, these sensors come with a 10' cable and BNC-style connectors.

Item Number	Description
IPS01050	ORP Sensor
IPS02050	pH Sensor

Chemical Control Systems

CAT Controllers®

Thousands of commercial pools, spas, water parks and water treatment facilities worldwide rely on CAT Controllers® to provide greater control over water quality and operational costs. Every model provides unmatched control over pH and sanitation for chlorine, bromine or salt-based pools. Wireless models allow unparalleled control from remote locations, through www.poolcomm.com. Real time water quality data can be viewed, charts and graphs can be printed and settings adjusted. Alarm notifications can be sent directly to a subscriber's email account or mobile device. Successful facility managers count on CAT Controllers for years of trouble-free operation, customer service, support and technical assistance. All CAT Controllers listed are NSF/ANSI Standard 50 Certified. Five year limited warranty on controller, and two year warranty on sensors. **Contact us for pricing and selection assistance.**

CAT 2000®

Automated water quality solution for pools, spas, water parks and more, world-wide.

Constantly monitors pH and sanitizer activity (chlorine, bromine) and automatically implements chemical feeding in proportion to demand for perfect water quality at all times.

- Simple installation, setup and operation
- Compatible with all types of chemical feed equipment
- 5-year limited warranty on controller; 2-year warranty on sensors
- NSF/ANSI Standard 50 Certified
- The CAT 2000 Professional Package is a factory-assembled system that includes the controller, sensors, machined acrylic flow cell, rotary flow sensor and PVC backboard

CAT 4000®

Wireless, web-based water quality management.

Using the CAT 4000 system, you can easily log onto PoolComm® to activate your wireless account and begin monitoring your water quality. Using your personal PoolComm account, you can view water quality data, print charts, analyze graphs, customize your settings and receive alarm notifications via email or SMS.

Features:

- Wireless link to the PoolComm site with extensive North American coverage and 24/7 monitoring
- Incredibly simple to install and operate via simple menus and a bright alphanumeric display
- Compatible with existing chemical feed equipment, so initial investment is minimized
- Comes complete with CAT Professional Series pH and ORP sensors for unsurpassed performance
- Optional Wi-Fi® communications protocol provides users free PoolComm access
- 5-year limited warranty on controller; 2-year warranty on sensors
- NSF/ANSI Standard 50 Certified

Commercial Intellichem® Chemical Controller

Dual sanitization support w/standalone ScreenLogic remote PC and iOS app connectivity. Premounted and pre-wired on 2' x 2' plastic backboard. Containers ordered separately.

Features:

- Dual sanitizer support
- Programmable chemical feed cycle and mix times for precise water balance
- Assures safe water conditions by preventing excess chemical addition in a 24-hour period
- Built-in Langelier Saturation Index calculator lets you know when your water chemistry is perfectly in or out of balance
- Flow sensor ensures chemicals won't feed without system flow
- Password-protected access prevents tampering or accidental program change
- Use of ScreenLogic2® on PC and iOS offers the ability to keep track of pH and ORP levels and make adjustments locally or remotely
- Compatible with IntelliChlor® Salt Chlorine Generators, external dosing pumps, and CO2 systems
- Comes with #2 tube rated at 10gpd (larger tube sizes can be used)
- ScreenLogic for Commercial IntelliChem iOS app is available on Apple App Store
- ETL Listed to NSF 50 Standard

Chem-Tainer Double Wall Tanks

These molded double wall tanks/dual containment tanks are designed for stringent environmental concerns and codes. Seamless polyethylene construction.

Designed for both indoor and outdoor applications. Enclosed design will prevent rain and debris from collecting in containment tank. Tanks come standard with a vented manway. Non-vented and hinged manways are also available.

LMI Chemical Metering Pumps

LMI produces the advanced electromagnetic, motor driven chemical feed and diaphragm type metering pumps that have been an industry standard for over 20 years. The familiar yellow and black pumps have a rugged, totally enclosed, chemically resistant housing for protection in the harshest environments. Encapsulated electronics and a rigid housing and stroke bracket ensure years of precise, repeatable performance. LMI's quality construction ensures a tight seal at low pressures and limits o-ring compression at high pressures while forming a secondary seal, reducing output loss. The unique four function valve provides positive anti-siphon protection, back pressure, priming aid and pressure relief.

Contact us for pricing, parts and selection assistance.

Heavy-Duty Solution Tanks

Our solution tanks are rotomolded with rigid heavy-duty walls for maximum strength and durability under severe conditions. They safely handle many acids and caustic chemicals. The top flange provides extra strength and ease of handling.

- Service to 150°F/65°C
- Tough and chemical-resistant for prolonged storage and mixing of acids, caustics and many other chemicals
- Good impact and abrasion resistance
- Tanks come complete with high-strength rigid lids

Tank dimensions are approximate.

Vapor Shield

Virtually eliminates chemical vapors from chemical container while allowing it to be pumped dry. Unit ships with 15' of tubing and weighted foot-valve/strainer. Fits cap-style (5 to 10 gallon) and plug-style (15 to 52 gallon) drums. Specify ¼", ⅜", or ½" tube size.

A. Flange Mounted Mixer

Flange mounts provide a steel flange with four plated bolts for mounting the mixer directly over the shaft hole in the tank cover or other flat surface. Flange mounts optimize minimal mounting area at a reasonable price. ½ HP at 1500 rpm unit is standard with 32" shaft, neoprene impeller, and prewired with 8 feet of rubber-covered power cord.

B. Bracket Mounted Mixer

Bracket mounts are constructed from 3/8" thick steel and have four plated bolts included for mounting the mixer on a tank cover or other flat surface. For minimum mounting space, the brackets are factory installed with mounting feet inboard. They may be reversed for shelf or overhang installations if desired. ¼ HP at 1725 rpm unit is standard with 32" shaft, stainless impeller, and prewired with 8 feet of rubber-covered power cord.

Item Number	Description
I1FMTEA50	A. Flange Mounted Agitator

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Stenner Chemical Feed Pumps

Stenner Adjustable Output Metering Pumps

The Classic Series single head adjustable metering pump is built with three detachable components: the motor, feed rate control, and the pump head. The output is determined by three factors; the rpm of the motor gears, the percentage setting on the feed rate control, and the size of the pump tube. The motor shaft rotates at a fixed rpm, which drives the feed rate control to intermittently engage the roller assembly within the pump head according to the setting on the external dial ring. The dial ring is labeled L to 10 and has a 20:1 turndown.

Adjustable Rate,
Single Head

Features:

- 3-point roller design assists in anti-siphon protection
- Pump head requires no valves, allows for easy maintenance
- Self-priming against maximum working pressure, foot valve not required
- Pump does not lose prime or vapor lock
- Pumps off-gassing solutions and can run dry
- Output volume is not affected by back pressure
- Easy to change pump tube; lubrication is not required
- Pump tubes and pump heads interchange between models

Adjustable Rate, Single Head

Item Number	GPD	Tubing Size	PSI	Tube Number

Adjustable Rate, Dual Head

Item Number	GPD	Tubing Size	PSI	Tube Number
II70DM567	8.5-170	3/8"	0-25	5

Stenner Fixed Output Metering Pumps

The Classic Series single head fixed output metering pump is built with two detachable components: the motor and the pump head. The fixed rate pump does not have an output adjustment. The output is determined by the RPM of the motor gears and the size of the pump tube. The motor's output shaft rotates at a fixed rpm which drives the roller assembly within the pump head.

Fixed Rate, Single Head

Item Number	GPD	Tubing Size	PSI	Tube Number

II85MP567	85	3/8"	0-25	5

Other configurations available. Please contact us for pricing.

Stenner S Series Peristaltic Metering Pumps

The S Series Pump is a smart peristaltic metering pump designed to interface with process control systems. Prevent unauthorized access to programmed settings with the password protection. Program the transfer function to activate a relay to start a second S Series as a backup to the primary pump.

The pump can be programmed to respond based on a selected pump condition such as tube leak, tube change, standby, repeat pulse, run, mode change, low or high signal, low or high flow, drive fault, signal overrun, transfer and off.

Features:

- Leak detection
- Backup pump capacity
- Three output relays
- Tube change timer
- Enclosed housing, NEMA 4X
- Digital control panel with OLED operating display
- Tube replacement without tools

Adjustable Rate, Single Head

Item Number	GPD	Tubing Size	PSI	Tube Number

Stenner Econ T Dosing Pump

The Econ T is a compact, easy to program pump with flexibility to schedule up to 24 separate events within a 7 day period. The automatic dosing control is reliable for timed applications such as injection of enzymes, phosphate reducers and liquid solar blankets.

Features:

- Wall Mountable.
- Simple programming with LCD display.
- Control panel features a 24 hour integral clock with battery backup to maintain time of day
- Effortless tube replacement.
- Comes standard with 6' cord. 10' cord available on request for a slight additional charge

Item Number	Max GPD	Pressure

II20T4H67	21.7	26-80 psi

Stenner Flow Indicator

The flow indicator is a convenient visual reference (especially with black suction/discharge tubing) to confirm solution is pumping into the system. It also provides an indication of common issues such as plugged injection point, ruptured or worn tube or empty solution tank and assists with impeding backflow.

Other benefits include:

- Simple installation
- Weather and UV resistant body
- Field serviceable
- Economical

Pentair Commercial IntelliChlor® Salt Chlorine Generator

IntelliChlor Salt Chlorine Generator uses common table salt to produce all the chlorine a pool needs, safely, effectively, and automatically. Same sanitation performance as manual chlorine addition without the drawbacks.

An external ORP controller must be used. Pentair recommends Commercial IntelliChem or Acu-Trol® systems.

COMSYS-System includes: Primary Cell, Secondary Cells, Primary Power Center, Secondary Power Centers, and the manifold.

Features:

- Each cell produces up to 2 lbs of chlorine per day
- Color LED status displays
- Performance data captured daily
- Automatic shut-off feature helps protect and prolong cell life
- Pre-mounted multi-power center configuration
- Must be used with an external ORP/pH Controller
- Self-cleaning
- Listed to UL 1563/CSA C22.2 No. 218-1
- Certified to NSF/ANSI 50

Item Number	Description	Chlorine per 24 Hours	Pool Volume ¹
II2097003	COMSYS-2	2 lbs	6,700 Gallons
II2097103	COMSYS-4	4 lbs	13,333 Gallons
II2097203	COMSYS-6	6 lbs	29,000 Gallons
II2097303	COMSYS-8	8 lbs	26,700 Gallons
II2097403	COMSYS-10	10 lbs	33,333 Gallons
II2097503	COMSYS-12	12 lbs	40,000 Gallons
II2097603	COMSYS-14	14 lbs	46,700 Gallons
II2097703	COMSYS-16	16 lbs	53,333 Gallons

¹NSF recommendation for commercial pools typically require 3 lbs of chlorine production per every 10,000 gallons. Please consult your local codes for chlorine production requirements.

Commercial BioShield® CVP UV Disinfection Sterilizer

When operating space is restricted, our vertical BioShield UV Systems provide the small footprint you need. These vertical models feature single-end, top-loading quartz sleeve(s) to minimize space required and maximize serviceability. Each model is extremely durable and features a corrosion-resistant remote power supply enclosure and UV vessel. All models are designed to deliver optimum UV performance by utilizing the UV lamp's UV-C output to its maximum potential. BioShield UV Systems are water-tight and designed for indoor/outdoor use. Each model is equipped with a flanged base for easy installation. Unit can also be installed horizontally.

Features:

- Enhanced, state-of-the-art electronic ballast, sized precisely to the lamp's power requirement, ensures optimal UV-C output and maximum "useful lamp life"
- Small footprint: vertical operation reduces required horizontal space
- Cost-effective Schedule 80 solvent welded PVC plastic vessels stand up to corrosive Chlorine environments
- Single-End UV lamp and quartz sleeve access for easy servicing
- Watertight design protects all electrical hardware from water damage
- Quality American-made, low-pressure Amalgam UV lamps offer up to 12,000 hours of continuous operation
- Choice of inlet/outlet port styles
- Included Over-Temp System Shutdown Sensor shuts down the lamp field to avoid damage when water temperature inside the vessel exceeds 120° F
- 6' power cord and 20' lamp cables

Chemical Feeders

Blue-White Flexflo® A2A Peristaltic Pump

Designed for high volume applications for commercial aquatics and water parks, the FLEXFLO® A2A Acid and Liquid Chlorine Feeder, never loses prime and requires minimal maintenance. This self priming chemical metering pump delivers smooth chemical feed, and does not require check valves.

Additional Features:

- Peristaltic pump design does not have valves that can clog requiring maintenance
- Self priming - even against max line pressure. No bypass valves required. Cannot vapor lock or lose prime
- Output rates to: 381.6 GPD (60.2 LPH) and pressures up to 50 PSI (3.4 Bar)
- Variable speed DC motor
- Patented Tube Failure Detection (TFD) system. Senses tube failure by detecting chemical in the pump head. No false triggering
- Outputs include: one 250VAC / 3A or 30VDC / 3A
- Compatible with Blue-White's output Flow Verification Sensor (FVS) system
- Two CNC precision machined Nylon squeeze rollers and two alignment rollers for optimum squeeze, unparallel accuracy, and tube life
- Heavy duty rotor - single piece plastic rotor means no flexing and increased accuracy with no metal springs or hinges to corrode.
- Specially engineered tubing for long life at high pressures.
- 2 year warranty

Blue-White FlexFlo® A1A Digital Peristaltic Pump

Specially designed for commercial aquatics, the A1A enables users who require higher chemical feed requirements for sanitizing (sodium hypochlorite) and pH adjustment (acid) to move away from diaphragm technology and the inherent challenges experienced with these chemicals and adapt to peristaltic technology for less service, more trouble free and reliable chem feed solution.

Additional Features:

- Peristaltic pump design does not have valves that can clog requiring maintenance.
- Self priming - even against max line pressure. No bypass valves required. Cannot vapor lock or lose prime.
- Output rates to: 100 GPD (15.8 LPH) and pressures up to 40 PSI (2.76 Bar).
- Energy efficient variable speed DC motor.
- Patented Tube Failure Detection (TFD) system. Senses tube failure by detecting chemical in the pump head. No false triggering.
- Remote Start/Stop: Non-powered dry contact closure for remote start/stop.
- One 48VDC @ 80mA relay.
- Heavy duty rotor - single piece plastic rotor means no flexing and increased accuracy with no metal springs or hinges to corrode.
- Specially engineered tubing for long life.
- 3 year warranty

Pulsatron Series E Plus Feeder

Key Features:

- Automatic Control available with 4-20 mADC direct or external pacing, with stop function
- Manual Control by on-line adjustable stroke rate and stroke length
- Agency approved for demanding outdoor and indoor applications
- Auto-Off-Manual switch
- Highly Reliable timing circuit
- Circuit Protection against voltage and current upsets
- Panel Mounted Fuse
- Solenoid Protection by thermal overload with auto-reset
- Water Resistant for outdoor and indoor applications
- Indicator Lights, panel mounted.
- Guided Ball Check Valve Systems, to reduce back flow and enhance outstanding priming characteristics
- Safe and Easy Priming with durable leak-free bleed valve assembly (standard)

Sanitizers and Specialty Chemicals

SANITIZERS

1" Chlorine Tablets

GLB ½ oz tablets provide a powerful 90% available stabilized chlorine. These tablets are ideal for use in floaters, feeders and skimmers. 99% trichloro-s-triazinetrione.

Item Number	Description
AA7126205	1" Chlorine Tablets 50 lbs

3" Chlorine Tablets

Use these 8 oz slow-dissolving tablets for continuous disinfection with floaters, feeder or skimmers. With 99% trichloro-s-triazinetrione, our 3" tablets offer 90% available chlorine for effective sanitizing.

Item Number	Description
AA7123405	3" Chlorine Tablets 25 lbs

Generation2 Brominating Disinfectant

GLB® Generation2 is a form of brominating hydantoin for pools. When used as directed, GLB Generation will disinfect pool water, keeping it clean, clear and free of odor. GLB Generation gives the effectiveness of chlorine without the chlorine odor.

Item Number	Description
AA7142105	Brominating Tablets 25 lbs
AA7142305	Brominating Tablets 50 lbs

Rainbow Chlorine/ Bromine Erosion Feeders

High capacity feeders for 1" hard plumbing installations. The completely enclosed system allows no escaping gases and requires no venting. Water flows through the chamber, eroding tablets and introducing chlorine/bromine into your system.

A corrosion resistant check valve such as Rainbow's R172288 should be installed between the feeder inlet and outlet and the equipment to help prevent equipment damage. Damage to the heater or other equipment could result from a high concentration of sanitizer back flowing into it when the pump is shut off.

This feeder is designed to use only clean trichloro-s-triazinetrione or clean bromine tablets (slow dissolving type). **Calcium Hypochlorite should never be used with this feeder under any circumstances.**

Item Number	Tablet Capacity	Maximum Gallons Treated Chlorine	Treated Bromine
I17121503	15 lbs	97,600	20,200
I17123003	30 lbs	160,000	40,000
I17124003	40 lbs	332,000	61,000

Accessories

Item Number	Description
I17228804	R172288 Check Valve
I17208203	R172082 Flow Rate Indicator

Chlorine Stabilizer

(Cyanuric Acid) Maximizes available chlorine in pools. Specially designed to reduce chlorine loss from sunlight exposure.

Item Number	Description
AA7126805	Chlorine Stabilizer 10 lbs

SPA FOAM CONTROL

Leisure Time Foam Down

Concentrated foam suppressant begins working immediately to eliminate foam. Apply directly to foam and watch it disappear. Compatible with all sanitizers including bromine, chlorine, ozone, and biguanide.

Item Number	Description
AA0641105	Foam Down Quart

CLEANERS

TLC®

TLC removes oil, grime, and mineral scale from common pool surfaces such as tile, vinyl, and concrete. Its thick, concentrated formula clings to upright surfaces longer for more effective cleaning power.

Item Number	Description
AA7102805	TLC Quart
AA7102805PK12	TLC Quart – case of 12

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Shock and Balancers

SHOCK

Super Charge Chlorine Shock

Super Charge is a 68% active Calcium Hypochlorite granular product formulated especially for super chlorination shock treatments. Use 1 lb. for every 10,000 gallons.

Item Number	Description
AA7142805	Super Charge 1 lb pouch
AA7142805PK24	Super Charge 1 lb pouch – case of 24
AA7143005	Super Charge 25 lbs
AA7143205	Super Charge 100 lbs

SuperSonic

GLB® SuperSonic (73% cal hypo shock) is a highly effective multi-purpose product that sanitizes, clarifies, prevents algae and shock treats your pool. It is convenient, easy to use and won't over stabilize your pool water. The fast-dissolving formula can be used on all pool surfaces, does not contain cyanuric acid and leaves no residue.

Item Number	Description
AA7144005	SuperSonic 25 lbs
AA7144205PK24	SuperSonic 1 lb pouch – case of 24

Shoxidizer®

GLB Shoxidizer® shock oxidizer is a 4-in-1 proprietary blend of DuPont™ Oxone®, a powerful oxygen-based oxidizer, and a dry clarifier. This unique formulation provides the benefits of oxygen-based oxidation while boosting free chlorine concentrations. This one-two punch keeps water sparkling clean and clear by eliminating organic contaminants. 1 lb. treats 10,000 gallons.

Item Number	Description
AA7167505	Shoxidizer 1 lb pouch
AA7167505PK40	Shoxidizer 1 lb pouch – case of 40

Oxy-Brite® Non-Chlorine Shock

This non-chlorine shock creates sparkling water and shock treats all in one step. Oxy-Brite's unique blue water brightening crystals literally brighten water while its shock treatment oxidizes organic contaminants that cause odors, skin and eye irritation, and cloudy water. Effective in chlorine and bromine pools. Allows for swimming immediately after application.

Item Number	Description
AA7141405	Oxy-Brite 1 lb pouch
AA7141405PK40	Oxy-Brite 1 lb pouch – case of 40
AA7141605	Oxy-Brite 2.2 lbs
AA7141605PK12	Oxy-Brite 2.2 lbs – case of 12
AA7142005	Oxy-Brite 20 lbs
AA7142005PK2	Oxy-Brite 20 lbs – case of 2
AA7142205	Oxy-Brite 50 lbs

BALANCERS

pH Up and pH Down

Allows you to raise and lower pH levels as needed. Keeping proper pH levels will help ensure pool sanitizers are working at maximum efficiency and aid in preventing stain and scale formation.

Item Number	Description
AA7124905	pH Up 8 lb canister
AA7125305	pH Down 10 lb pouch

Alkalinity Up

Increases alkalinity of pool water to prevent the pH level from fluctuating.

Calcium Hardness Up

Increases water hardness to prevent equipment corrosion and scaling.

Item Number	Description
AA7120305	Alkalinity Up 25 lbs
AA7124305	Calcium Hardness Up 8 lbs
AA7121405	Calcium Hardness Up 25 lbs

De-Chlor

Chlorine neutralizer. Lower chlorine level safely with this product when chlorine concentration becomes too high.

Item Number	Description
AAMON0250	De-Chlor 10 lbs
AAMON0350	De-Chlor 30 lbs

Alkalinity Increaser - Bulk

(Sodium Bicarbonate) A safe, easy-to-use granular product that raises total alkalinity and acts as a buffer to prevent "pH bounce", staining and corrosion.

Soda Ash (pH up) - Bulk

A convenient, safe granular product for raising the pH of pool water with minimal effect on overall alkalinity.

Calcium Increaser - Bulk

83%-87% pure calcium chloride flakes. This product increases calcium hardness of swimming pool water.

Item Number	Description
AABICAR50	Alkalinity Increaser 50 lb bag
AA9030250	Soda Ash (pH Up) 50 lb bag
AAMCCAL50	Calcium Increaser 50 lb bag

STAIN CONTROL

Stain Magnet®

This granular formula quickly eliminates metallic stains from pool surfaces with no need to test the water or close the pool. Compatible with all types of pool surfaces. **Follow treatment with GLB's powerful Sequa-Sol to prevent future staining.**

Item Number	Description
AA7102005	Stain Magnet 2.5 lbs
AA7102005PK12	Stain Magnet 2.5 lbs – case of 12

Sequa-Sol®

Sequa-Sol sequestering agent holds iron, manganese, copper and calcium in solution so they do not react with other elements in the water. Prevents staining, scale, and rust on pool equipment, pipes and fittings.

Item Number	Description
AA7101605	Sequa-Sol Quart
AA7101605PK12	Sequa-Sol Quart – case of 12
AA7101805	Sequa-Sol Gallon
AA7101805PK4	Sequa-Sol Gallon – case of 4

Super Sequa-Sol®

This specially formulated concentrated granular form of Sequa-Sol protects pool against minerals in the water. Ideal when filling pool or when adding make-up water.

Item Number	Description
AA7102405	Super Sequa-Sol 2 lbs
AA7102405PK12	Super Sequa-Sol 2 lbs – case of 12

CLARIFIERS

Clear Blue®

This super-concentrated clarifier adds sparkle while removing particles that dull pool water. Clear Blue clarifier improves filter efficiency and reduces sanitizer demand by removing organic particles that clog filters without affecting pH.

Item Number	Description
AA7140405	Clear Blue Quart
AA7140405PK12	Clear Blue Quart – case of 12

Natural Clear®

Natural Clear clarifier is an enzyme-based water cleaner that quickly rids pools of organic contaminants that cause odors, scum lines, and cloudy water and helps keep filters clean.

Item Number	Description
AA7141005	Natural Clear Quart
AA7141005PK12	Natural Clear Quart – case of 12
AA7141205	Natural Clear Gallon
AA7141205PK4	Natural Clear Gallon – case of 4

Drop N' Vac

With clarifying capabilities, Drop N' Vac drops unfilterable debris, including microparticles and dead algae, to the bottom of the pool for easy vacuum removal. This formula is effective over a wider range of pH levels than comparable products.

Item Number	Description
AA7140805	Drop N' Vac Quart
AA7140805PK12	Drop N' Vac Quart – case of 12

ALGAE CONTROL

Algimycin® 2000

Algimycin 2000 algaecide kills, prevents and controls all algae types. A special wetting agent penetrates and kills algae cells. This nonmetallic, poly-complex formula gives fast and effective control with no foaming or staining. It also acts as a clarifier and filter aid by removing algae fast.

Item Number	Description
AA7110405	Algimycin 2000 Quart
AA7110405PK12	Algimycin 2000 Quart – case of 12
AA7110605	Algimycin 2000 Gallon
AA7110605PK4	Algimycin 2000 Gallon – case of 4

Algimycin® 3000

Algimycin 3000 algaecide contains two active ingredients, including zinc sulfate monohydrate, to provide long lasting protection from algae. It kills and prevents green, yellow and black algae and is stable in pool water.

Item Number	Description
AA7110505	Algimycin 3000 Quart
AA7110505PK12	Algimycin 3000 Quart – case of 12

FILTER CLEANERS

Filter Cleanse®

For sand, cartridge, and D.E. filters. This multipurpose granular formulation cleans and unclogs filters of grease, oils, and scale with a unique combination of acids and detergents. Unique chemistry will gradually change from red to yellow as it cleans.

Item Number	Description
AA7100605	Filter Cleanse 2 lbs
AA7100605PK12	Filter Cleanse 2 lbs – case of 12
AA7100805	Filter Cleanse 20 lbs
AA7100805PK2	Filter Cleanse 20 lbs – case of 2

Filter Fresh®

This specially developed, acid-based liquid cartridge cleaner removes debris with its overnight soak and rinse formula. Regular treatment with Filter Fresh helps filters operate at maximum efficiency.

Item Number	Description
AA7101005	Filter Fresh Quart
AA7101005PK12	Filter Fresh Quart – case of 12

Natural Chemistry Specialty Products

phosREMOVE

Reducing phosphate levels in swimming pools is easy with Natural Chemistry's PRO SERIES phosREMOVE. This product is a lanthanum based formulation. PRO SERIES phosREMOVE effectively and efficiently removes phosphates and reduces pool problems!

Item Number	Description
AA2050061	phosREMOVE 32 oz
AA2050061PK12	phosREMOVE 32 oz – case of 12
AA2050161	phosREMOVE Gallon
AA2050161PK4	phosREMOVE Gallon – case of 4

Pro Blend Enzyme and Phosphate Remover

Regular pool maintenance is easy with PRO SERIES Pro Blend. The outstanding benefits of our SMARTzyme™ technology are combined with our industry leading phosphate removal technology. Experience superior water quality with less work.

- SMARTzyme™ technology breaks down filter clogging grime and grunge
- Continually removes phosphates
- Reduces overall pool maintenance

Item Number	Description
AA2052061	Pro Blend Gallon
AA2052061PK4	Pro Blend Gallon – case of 4

ProZyme Pool

50% stronger than Pool Perfect, this concentrated formula (formerly known as Pool Perfect Commercial AF), is specifically for commercial and institutional pool water environments.

Item Number	Description
AA2030161	ProZyme Pool Gallon
AA2030161PK4	ProZyme Pool Gallon – case of 4
AA2030561	ProZyme Pool Five Gallon

ProZyme Spa

This concentrated formula, formerly known as Spa Perfect Commercial AF, is designed specifically for commercial and institutional pool hot water environments with high bather loads.

Item Number	Description
AA2040161	ProZyme Spa Gallon
AA2040161PK4	ProZyme Spa Gallon – case of 4
AA2040561	ProZyme Spa Five Gallon

PHOSfree® MAX

PHOSfree Max is a powerful and reliable phosphate remover designed for both residential and commercial pool use. It removes high levels of problem-causing phosphates from swimming pool water. Keeping phosphate levels low will help reduce pool problems, including calcium phosphate scale as well as time and effort spent to maintain perfect water. Pour it in and watch it work! PHOSfree Max reduces phosphate levels to near zero in just 24 hours.

Item Number	Description
AA1530361	PHOSfree MAX Quart
AA1530361PK6	PHOSfree MAX Quart – case of 6

Pool Perfect

Pool Perfect's enzymes break down suntan oils, sunscreens, cosmetics, body oils and other forms of waste that contaminate pool water. As a result, pool water stays crystal clear, sweet smelling and silky soft. Pool surfaces such as walls and waterlines never need scrubbing and skin and eye irritations are eliminated.

Item Number	Description
AA0312161	Pool Perfect 3 Liter
AA0312161PK4	Pool Perfect 3 Liter – case of 4

Pool Perfect® MAX with PHOSfree®

Take pool maintenance to the next level! Pool Perfect Max is Natural Chemistry's premier maintenance formulation. Added weekly, this product reduces the amount of time and effort you have to spend on pool care. Its key benefits include: working as a continuous filter cleaner, removing maintenance levels of problem-causing phosphates, reducing scrubbing of scum lines and waterline ring-polishing water to sparkle like never before. Simply add one capful per 10,000 gallons of pool water each week so you can sit back and relax poolside!

Item Number	Description
AA1530161	Pool Perfect MAX with PHOSfree 3 Liter
AA1530161PK4	Pool Perfect MAX with PHOSfree 3 Liter – case of 4

Spa Perfect

Special hot-water enzyme formula breaks down organic contaminants commonly found in spas including lotions, soaps, body oils and cosmetics.

Item Number	Description
AA0413161	Spa Perfect 1 Liter
AA0413161PK12	Spa Perfect 1 Liter – case of 12

Pro Series® Stain and Scale Control

PRO SERIES Stain & Scale Control protects pools from the damaging effects of scale buildup and staining due to excessive calcium, iron, copper and other minerals. It works without the use of phosphates or harsh acids. This product also works very well at preventing/reducing scale from forming on chlorine generator cells and UV crystal lens in order to help maintain optimum performance. PRO SERIES Stain & Scale Control can be used with most sanitizing systems (do not use with biguanides) and is compatible with all pool surfaces.

Item Number	Description
AA2070161	Pro Series Stain and Scale Control Gallon
AA2070161PK4	Pro Series Stain and Scale Control Gallon – case of 4

Natural Chemistry and SeaKlear Specialty Products

Extra Strength Clarifier

This concentrated formula is more highly concentrated than most available clarifiers on the market today. The product can be applied directly to the pool or by an automatic feed pump. Easy to use and cannot be overdosed. It is an environmentally friendly product that is safe to use.

Item Number	Description
AA2031161	Extra Strength Clarifier Gallon
AA2031161PK4	Extra Strength Clarifier Gallon – case of 4

Phosphate Remover Commercial Strength

SeaKlear's most powerful phosphate removal treatment. Removes 9,000 pb pH in a single dose in 10,000 gallons, making it the optimal solution for commercial pools, for service professionals, and to combat extreme phosphate problems.

Item Number	Description
AA4010176	Commercial Strength Phosphate Remover Gallon
AA4010176PK4	Commercial Strength Phosphate Remover Gallon – case of 4

Algae Break 90®

To control algae in your swimming pool, simply add Algae Break 90 every three months. Your pool will sparkle like never before. Keep algae at bay with Algae Break 90.

Item Number	Description
AA2076061	Algae Break 90 Gallon
AA2076061PK4	Algae Break 90 Gallon - case of 4

Chitosan Clarifier

SeaKlear Chitosan Clarifier is ideal for preventing common cloudiness. It effectively clears away dirt and oil with a simple dose, and leaves your pool water clean, clear and sparkling.

Item Number	Description
AA1012276	Chitosan Clarifier Gallon
AA1012276PK4	Chitosan Clarifier Gallon – case of 4

Instant Conditioner Liquid Cyanuric

Natural Chemistry's Instant Conditioner is a unique technology that dissolves instantly and starts working immediately to protect chlorine from sunlight. It is pH friendly due to being a salt, not an acid. It reduces pool down-time and will not damage pool surfaces or equipment. No more waiting for dry cyanuric acid to dissolve! One gallon of Natural Chemistry's Instant Conditioner adds 3.5 ppm of conditioner per 10,000 gallons. It is compatible with all pool types and sanitizing systems.

Item Number	Description
AA0740161	Instant Conditioner Gallon
AA0740161PK4	Instant Conditioner Gallon – case of 4

Rescue Klear

SeaKlear's flagship Natural Clarifier is blended with scum-fighting enzymes to tackle the most serious cloudy water emergencies. SeaKlear Rescue Klear is the ideal solution for cleanup after pool parties, vandalism, and weather-related disasters. And, best of all, it's made from environmentally friendly ingredients.

Item Number	Description
AA1030176	Rescue Klear Gallon
AA1030176PK4	Rescue Klear Gallon – case of 4

Pool First Aid

Pool First Aid contains powerful and concentrated enzymes and an organic clarifier that is ideal for cleaning up problems in pools such as dead algae, high organics due to high bather load, oil leaks and spills, and vandalism. The organic clarifier in Pool First Aid clears cloudy water quickly.

Item Number	Description
AA0312261	Pool First Aid 2 Liter
AA0312261PK6	Pool First Aid 2 Liter – case of 6

Free & Klear

SeaKlear's three-in-one formula makes weekly pool maintenance simple by combining three key ingredients: best-in-class clarifier, phosphate remover, and enzyme cleaner.

Item Number	Description
AA4040176	Free & Klear Gallon
AA4040176PK4	Free & Klear Gallon – case of 4

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Lo-Chlor Specialty Chemicals and More

90-Day Algicide

This unique organo-copper complex is effective against most common algae and safe for all pool surfaces. One application of 90-Day Algicide lasts three full months, an entire swimming season in some parts of the country. 90-Day Algicide has a slow-release property that kills active algae and prevents outbreaks. That same special formulation prevents copper from dropping out of solution, so it is guaranteed to be non-staining in a properly balanced pool. 90-Day Algicide helps chlorine work better and is safe for use with most sanitizers and salt chlorine generators.

Features:

- Kills and prevents all types of algae
- Lasts 90 days/only 4 treatments per year
- Guaranteed non-staining formula
- Money-saving reduction in chlorine & shock usage
- Enhances performance of salt chlorine generators
- Best value of all algicide formulations
- 16 o. treats 10,000 gallons

Item Number	Description
AA8003237	90-Day Pool Algicide Quart
AA8002837	90-Day Pool Algicide Gallon

Lo-Phos® Max

Lo-Phos Max effectively eliminates phosphates from pool water and minimizes pool maintenance, reducing the use of other chemicals, and saving you money!

Features:

- Concentrated formula removes phosphates quickly
- Reduces chlorine demand and costs
- Increases efficiency of salt chlorine generators
- Compatible with all pool chemicals and pool surfaces
- One quart can remove up to 7,500 ppb phosphates from water

Item Number	Description
AA8013237	Lo-Phos® Max Phosphate Remover Quart
AA8012837	Lo-Phos® Max Phosphate Remover Gallon

Miraclear® Blue

The concentrated deep blue liquid formula of Miraclear Blue is a full 20% stronger than other major brands comparable products. This easy-to-use formula carries the microscopic particles that cause cloudy water to the filter for removal.

Features:

- Polymer-based clarifier
- Boosts filter efficiency
- Excellent weekly treatment
- More concentrated than competitive products
- Combines suspended particles for improved filtration
- 1 oz treats 6,000 gallons

Item Number	Description
AA8023237	Miraclear® Blue Clarifier Quart
AA8022837	Miraclear® Blue Clarifier Gallon

Metal Gone

Metal Gone sequesters and removes excessive metals from pool water. Great for pool start-ups, it will prevent new stains on pool surfaces with regular use.

Features:

- Prevents staining and scaling in pools and spas
- Keeps metals in solution and off the pool surface
- Use weekly as "insurance" against staining & scaling
- Works with all pool finishes and surfaces
- Compatible with salt chlorine generators
- Initial treatment: 16 oz per 7,500 gallons
- Maintenance treatment: 2 oz per 7,500 gallons

Item Number	Description
AA8033237	Metal Gone Quart

Ultra Zyme Pro®

Ultra Zyme Pro is a non-toxic, biodegradable concentrated liquid for use in commercial and institutional pools. This powerful, broad spectrum formulation decreases chlorine demand by up to 30% and reduces maintenance.

Features:

- Reduces maintenance time
- Reduces chlorine demand
- Eliminates scum lines
- Improves water clarity
- Extends filter cycles
- Reduces acid demand
- Improves water balance
- Safe, non-toxic, biodegradable
- Compatible with chlorine generators

Item Number	Description
AA8053237	Ultra Zyme Pro® Commercial Strength Enzyme Quart
AA8052837	Ultra Zyme Pro® Commercial Strength Enzyme Gallon

Chlor-Nix® Chlorine Reducer

Chlor-Nix was created to quickly reduce chlorine levels into a desired range. Use to avoid the problems that high chlorine levels create and allow metal stain removers to do their job.

Features:

- Lowers chlorine and bromine levels
- Fast acting
- Perfect for reducing chlorine shock
- Ideal for use with Multi-Stain Remover
- Works with salt systems

Item Number	Description
AA8042837	Chlor-Nix® Chlorine Reducer Gallon

LIQUID POOL COVERS

Heatsavr Liquid Pool Cover

Heatsavr liquid solar pool cover is completely safe for swimmers and pool equipment. Using a continuous dosing system ensures the best results. Use the US115 seven-day programmable metering system to dispense Heatsavr to your pool. Recommended dosage: 1 oz/day for every 400 sq ft of pool surface area or 15,000 gallons.

Item Number	Description
AAHS56050	Heatsavr™ – Case of 4 Gallons
IIHS11550	Automatic Metering System

INSECT CONTROL

Phoenix De-Bug

De-Bug prevents unwanted floating and diving insects from gathering on swimming pool water surface. This special formula reduces water surface tension allowing bugs and other debris to drip to the pool bottom. Materials on the pool bottom can then be easily vacuumed away. Quart bottle.

Item Number	Description
AADEBUG50	De-Bug Quart

Palintest

Water Analysis Technologies

Pooltest 25

The complete photometer, designed for the pool professional and offering a comprehensive range of test parameters.

The Pooltest 25 direct-reading photometer is a fully featured, waterproof, precision pool photometer for the most demanding professional. This instrument features a complete range of swimming pool water tests, including the more specialized tests such as phosphate and nitrate, as well as the usual free and total chlorine, pH and alkalinity. There are over 25 tests in all on this instrument.

Pooltest 25 connects via USB. Pooltest 25 stores up to 1000 results in its on-board memory and can transfer them to a PC database, spreadsheet, or pool chemistry software. Pooltest 25 is supplied in a hard plastic carry case with space to store reagents and uses three AA batteries.

Pooltest 25 comes with a **two year warranty**.

Item Number	Description
BBSP02574	Pooltest 25 Bluetooth® Standard Kit

Pooltest 10

Including the ten most important pool and spa parameters, water quality testing has never been so simple or connected.

The Pooltest 10 Professional Plus direct-reading photometer has built its reputation on reliability and ease of use. The Pooltest 10 has a large backlit screen and is fully waterproof. Pooltest 10 tests for Free and Total Chlorine, pH (phenol red), Cyanuric Acid, Alkalinity, Ozone, Calcium Hardness, Copper, Bromine, Iron and Phosphate. The Pooltest 10 stores up to 500 data sets for full traceability of results. The kit also includes 8 glass cuvettes, dilution tube, USB cable for PC connection, 10 crushing rods, cuvette brush, 10 mL syringe, and a starter supply of reagents. Pooltest 10 is supplied in a hard plastic carry case.

Item Number	Description
BBSP01074	Pooltest 10 Bluetooth® Standard Kit

Lumiso Pooltest 6

The brand new Lumiso Pooltest 6 enables a complete water balance calculation, with tests for alkalinity, bromine, calcium hardness, chlorine, cyanuric acid and pH.

The Lumiso Pooltest Series is packaged in a custom case, inclusive of all necessary reagents and accessories. With space for additional items including spare test tubes and check standards, there is no need to carry additional equipment. NSF Certified.

Test Ranges:

- Free/Total Chlorine: 0 to 10 ppm
- Bromine: 0 to 20 ppm
- Alkalinity: 10 to 500 ppm
- Calcium Hardness: 10 - 500 ppm
- Cyanuric Acid: 2 - 150 ppm
- pH: 6.5 to 8.4

Includes hard case

Item Number	Description
BBLM10674	Lumiso Pooltest 6
Kit includes hard case, 5 test tubes, 500 reagents, 4 crushing rods, test tube brush, lint-free cloth, 10 mL syringe, and USB lead	

Includes hard case

Lumiso Pooltest 3

Lumiso Pooltest 3 is ideal for monitoring of outdoor pools, covering the three main tests chlorine, pH and cyanuric acid.

The Lumiso Pooltest Series is packaged in a custom case, inclusive of all necessary reagents and accessories. With space for additional items including spare test tubes and check standards, there is no need to carry additional equipment. NSF Certified.

Test Ranges:

- Free/Total Chlorine: 0 to 10 ppm
- Cyanuric Acid: 2 - 150 ppm
- pH: 6.5 to 8.4

Item Number	Description
BBLM10374	Lumiso Pooltest 3
Kit includes hard case, 5 test tubes, 350 reagents, 4 crushing rods, test tube brush, lint-free cloth, 10 mL syringe, and USB lead	

Palintest Reagents

50 count tablet packs include a tablet crusher and test instructions sheet.

250 count tablet packs include tablets only.

Item Number	Reagent	Number of Tests

Taylor Test Kits

Taylor 2000 Series™

Maintaining safe pool/spa water for the public is an important responsibility. Therefore, precise test results are essential when checking the water quality of commercial pools and spas. Taylor's 2000 Series™ is designed for the kind of comprehensive, routine testing performed by service technicians, public and semi-public pool operators, and other professionals. Taylor's 2000 Series™ uses printed color standards to achieve a reliable and accurate color match, making frequent test comparisons even easier.

† NSF Certified

2000 Series™ kits in this column feature six different chlorine (High Range: 1-10 ppm, Low Range: 0.25-2.5 ppm), bromine (HR: 2-20 ppm, LR: .5-5 ppm) and pH (7.0 to 8.0) standards.

Some kits are now available with an optional salt test (1 drop = 200 ppm)

Complete™ Test Kit

The Complete™ kit includes nine tests for thorough testing: Total Chlorine, Free Chlorine, Bromine, pH, Acid Demand, Base Demand, Total Alkalinity, Calcium Hardness, and Cyanuric Acid. Includes ¾ oz reagent bottles.

Item Number	Refill Kit	Description
BB200501	BB200501RD	K-2005 High Range†
BB2005SP		K-2005 High Range, Spanish†
BB2005SA		K-2005 High Range, plus salt test†
BB210501	BB210501R	K-2105 Low Range

Service Complete™ Test Kit

This kit includes the same tests as the Taylor Complete Test Kit, but with 2 oz reagent bottles, providing 150% more tests than the Taylor Complete.

Item Number	Refill Kit	Description
BB2005C01	BB2005C01RD	K-2005C High Range†
BB2005CSP		K-2005C High Range, Spanish†
BB2005CSA		K-2005C High Range, plus salt test†
BB2105C01	BB2105C01R	K-2105C Low Range

Complete FAS-DPD™ Test Kit

Same as BB200501 except: uses BP905801 comparator, the sanitizer tests are titrations to eliminate color matching problems, and Free & Combined Chlorine 1 drop = 0.2 or 0.5 ppm/Bromine 1 drop = 0.5 or 1.25 ppm.

Taylor Complete comes with ¾ oz reagents. Taylor Service Complete is furnished with 2 oz reagent bottles and comes with a larger carrying case.

Item Number	Refill Kit	Description	Kit Type
BB200601	BB200601RD	K-2006 Complete FAS-DPD Kit†	Chlorine
BB2006SP		K-2006 Complete FAS-DPD Kit, Spanish†	Chlorine
BB2006SA		K-2006 Complete FAS-DPD Kit + salt test†	Chlorine
BB210601	BB210601R	K-2106 Complete FAS-DPD Kit	Bromine
BB2006C01	BB2006C01RD	K-2006C Service Complete FAS-DPD Kit†	Chlorine
BB2006CSA		K-2006C Service Complete FAS-DPD Kit + salt test†	Chlorine

Starter™ Test Kit (DPD)

The Starter™ kit features six tests: Total Chlorine, Free Chlorine, Bromine, pH, Acid Demand and Base Demand. It may be upgraded to include all tests in the Complete™ kits by adding replacement packs. Please call for details. Starter™ kits include ¾ oz reagent bottles.

Item Number	Refill Kit	Description
BB200001	BB200001RD	K-2000 High Range†
BB210001	BB210001R	K-2100 Low Range

Taylor Professional Series™

Taylor's Professional Complete™ kits provide the pool professional a portable lab which can be used any time. Slide comparator with liquid color standards allow precise determinations of pH and sanitizer levels, while simple drop titrations are used for acid and base demand, total alkalinity and calcium hardness analyses. K-1741C Complete Kit also includes tests for copper, iron, and total hardness. Kits include the booklet "Pool & Spa Chemistry, a Testing & Treatment Guide with Tables" and the Watergram, a slide wheel which correlates pH, temperature, calcium hardness and total alkalinity for balanced water. Kits include 2 oz reagent bottles.

Item Number	Description
BB174101	K-1741 Taylor Professional Series Kit
BB1741C01	K-1741C Taylor Professional Series Complete Kit

Taylor Specialty Kits

Taylor Technologies has a test kit for just about any aquatic application. Some are listed below, but many more are available. If you don't see the kit you need here, contact us with your unique requirements.

K-1106 Commercial Phosphate Kit

Phosphates are nutrients for algae. This phosphate kit helps you control algae by identifying the phosphate level in your pool so you can adequately treat or prevent algae problems. Includes 2 color card comparators for measuring phosphates, High Range (0–6000 ppb) and Low Range (0–1000 ppb).

Item Number	Description
BB110601	K-1106 Phosphate Test Kit

K-1766 Salt Water Kit

For use with salt water chlorine generators.

Item Number	Description
BB176601	K-1766 Salt Water Kit

Deox Reagent Pack

If you use monopersulfate shock, then you should use this add-on with your Taylor 2000 Series test kit to help obtain accurate chlorine readings. Pack includes R-0867 Deox reagent, a #4030 dropper, and an instruction card.

Item Number	Description
BB204101	Deox Reagent Pack with 3/4 oz Deox Reagent
BB204201	Deox Reagent Pack with 2 oz Deox Reagent

Taylor Test Kit Parts

Replacement Comparators for Taylor 2000 Series

Item Number	Description
BP905601	High Range (Chlorine 1 to 10, Bromine 2 to 20, pH 7.0 to 8.0)
BP905701	Low Range (Chlorine 0.25 to 2.5, Bromine .5 to 5, pH 7.0 to 8.0)
BP905801	FAS-DPD
BP303001	Dual Cap for Comparator

Taylor Test Kit Accessories

#6190 SampleSizer®

#6191 SampleSizer®

Taylor SampleSizer®

Using Taylor's SampleSizer®, you won't need to flick off the excess water to get the meniscus to rest precisely on the fill line. Simply lower a SampleSizer® into the water to be tested. It will displace exactly the right amount to leave the correct volume to perform the test. Use [BP619001](#) with Taylor's #9198 sample tube or Taylor 2000 Series comparators for 10 mL or 25 mL measurements. Use [BP619101](#) with Taylor's 2000 Series™ comparators for 44 mL measurements.

Item Number	Description
BP619001	#6190 SampleSizer™ 10 mL/25 mL
BP619101	#6191 SampleSizer™ 44 mL

Taylor SpeedStir®

Taylor's #9265 SpeedStir® makes quick work of drop tests performed in Taylor's #9198 sample tube. This palm size, portable magnetic stirrer will thoroughly incorporate each addition of reagent in a fraction of a second. Includes sample tube, magnetic stirring bar, and four AA batteries.

Item Number	Description
BP926501	#9265 SpeedStir® Start-Up Pack

Circular Watergram

CYA Dispensing Bottle

DPD Powder Unit Dose Dispenser

Item Number	Description
BP602601	Watergram Water Balance Calculator – Circular
BP919101	CYA Dispensing Bottle
BB925001	Unit Dose Dispenser for DPD Powder

TTi 2000 Colorimeter

The TTI® 2000 Colorimeter from Taylor Technologies offers water analysts reliable results plus a variety of features to maximize productivity. This handheld, multi-wavelength, microprocessor-controlled, menu-driven, direct-readout instrument employs LED light sources. Its portability and data-logging capabilities make it well suited for use at regulated pools and by service technicians. Includes AC power adapter, USB cable, four AA batteries, two 25 mm sample cells, two 15 mm sample cells, one 50 mL dilution vial, one foam cleaning brush, and Quick-Start Guide. Five year warranty.

Item Number	Description
BBM200001	TTi 2000 Colorimeter Kit
BBK800001	Accuracy Check Kit
BB714601	Soft Carrying Case
BB950401	Hard Carrying Case

Reagent Packs for TTI 2000 Colorimeter

Item Number	Description
BBK800101	Chlorine (free/total), DPD
BBK800201	Bromine (total), DPD
BBK802401	Total Alkalinity
BBK802901	Total Hardness
BBK802701	pH 6.50-8.50
BBK803201	Cyanuric Acid
BBK803001	Calcium Hardness

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

ColorQ 2x PRO 7 Test Kits

No color matching, no look up charts, no guessing! The unique, multi-test ColorQ 2x pool and spa hand-held photometer reads SEVEN primary test factors (Free Chlorine, Total Chlorine, Bromine, pH, Alkalinity, Calcium Hardness, and Cyanuric Acid) directly on a digital display. Featuring an innovative dual-optic design with wider path-length, the ColorQ provides reliable field results, eliminating the need to visually determine slight color variations.

The **ColorQ 2x PRO 7** kit uses TesTabs tablet reagents for both the Calcium Hardness and Cyanuric Acid tests. All other tests are performed using liquid reagents.

The **ColorQ 2x TesTabs PRO 7** uses no liquid reagents. It uses LaMotte TesTabs for all tests.

Reagent refill packs also include 6 fresh test tubes.

Test results are sent directly to phone app.

Item Number	Description
BB208602	ColorQ 2x PRO 7
BB208702	ColorQ 2x TesTabs PRO 7

ColorQ 2x Pool 4 Test Kit

This unique, multi-test pool and spa hand-held photometer has the same features as the ColorQ 2x PRO 7 except it reads four test factors directly on a digital display - **Free Chlorine, Total Chlorine, Bromine, pH**. If desired, instrument grade reagents (sold separately) may be added to the kit to measure other total alkalinity, hardness and cyanuric acid. The **ColorQ Pool 4** kit uses liquid reagents

The **ColorQ TesTabs PRO 4** kit uses TesTabs tablet reagents.

Reagent refill pack also includes 4 fresh test tubes.

Test results are sent directly to phone app.

Item Number	Description
BB208502	ColorQ 2x PRO 4
BB208202	ColorQ 2x TesTabs PRO 4

Please contact us for unlisted Kits, Reagents and Parts!

Pool Manager Test Kit

The popular all-tablet combination kit with the Octa-Slide color bars, which feature 8 translucent color standards for chlorine and pH. Public pool service personnel can test for these key factors of pool water chemistry: free chlorine, total chlorine, pH, total alkalinity, calcium hardness, acid demand, and cyanuric acid.

Item Number	Range
BB336802	Chlorine 0.2-3.0
BB3368N02	Chlorine 0.5-10.0

PRO-250 Series Test Kit

PRO250 Series professional water analysis kits are supplied in durable, blow-molded cases for years of dependable service. Each unit features liquid reagent systems for chlorine and pH. Total Alkalinity, Calcium Hardness, Acid Demand and Base Demand are analyzed with drop count titrations. Cyanuric Acid is measured by turbidity.

The PRO250 PLUS kit includes all of the above plus Copper and Iron tests. pH test range is 6.8-8.2 Free and Total Chlorine ranges are as follows:

- High Range: 0.5-10.0 ppm
- Low Range: 0.2-3.0 ppm

Item Number	Description
BB7001N02	PRO250 Test Kit
BB7002N02	PRO250 PLUS Test Kit

ColorQ 2x PRO 7-PLUS

The ColorQ 2x PRO 7-PLUS handheld professional pool photometer directly measures the seven primary tests of Free Chlorine (DPD), Total Chlorine (DPD), Bromine (DPD), pH, Alkalinity, Calcium Hardness, and Cyanuric Acid directly on a digital display. The Cyanuric Acid test is measured by using one TestTabs® tablet per test with 100 tablets included with the kit. The ColorQ 2x PRO 7-PLUS, Pool Manager Handbook, Saturation Index Calculator, testing reagents, and trilingual instructions are packaged in a rugged carrying.

Reagent refill pack also includes 6 fresh test tubes.

Item Number	Description
BB209402	ColorQ 2x PRO 7-PLUS

ColorQ 2x PRO 9-PLUS

The photometer directly measures nine tests on a digital display: Free Chlorine (DPD), Total Chlorine (DPD), Bromine (DPD), pH, Alkalinity, Calcium Hardness, Cyanuric Acid, Copper and Iron. The Cyanuric Acid, Copper and Iron test are measured by using one TestTabs® tablet per test with 100 tablets included with the kit. As a bonus, the photometer included with the ColorQ 2x PRO 9-PLUS can also test Biguanide and Biguanide Shock with optional reagents (sold separately).

The ColorQ 2x PRO 9-PLUS photometer, Pool Manager Handbook, Saturation Index Calculator, trilingual instructions (English, Spanish, French) and reagents are packaged in a rugged carrying case. Reagent refill pack also includes 10 fresh test tubes.

LaMotte Mobile

WaterLink® Spin Touch™

Certified to NSF/ANSI Standard 50.

The innovative WaterLink® Spin Touch™ photometer does all your pool and spa water testing for you. Each sealed reagent disk contains the precise amount of reagent needed to run a complete series of tests. Just fill one unique Spin reagent disk with less than 3 mL of water and all your vital tests are done automatically. In just 30 or 60 seconds all the test results are transferred into the DataMate® software and analyzed to display results and recommend precise treatment instructions. Stand-alone or cloud ready. No computer, smartphone or tablet necessary. Can communicate through Bluetooth® or USB. Rugged and portable with an innovative water-resistant housing and internal, rechargeable batteries. Fully compatible with DataMate® 10 and DataMate® Web (software purchased separately).

WaterLink Spin Touch includes photometer, instruction manual, quick-start instructions, 3 syringes, calibration check disk, troubleshooting disk, and USB cable/wall adapter. **Mobile WaterLink Spin Touch** also includes a durable, waterproof carrying case with foam inserts that holds the meter, disks and accessories.

Mobile Commercial Water Link Spin Touch includes an upright waterproof carrying case with foam inserts that is ideal for 3-use disk users.

Disks are compatible with Spin Touch and Spin Lab.

LaMotte Insta-Test 5 Strips

Insta-Test strips provide the complete picture of a pool or spa's water quality faster than ever before. Insta-Test Strips test for:

- Free Chlorine: 0-10 ppm
- Bromine: 0-20 ppm
- Total Chlorine: 0-10 ppm
- Alkalinity: 0-240 ppm
- pH: 6.2-9.0
- Total Hardness: 50-800 ppm
- Cyanuric Acid: 0-250 ppm (Insta-Test 6 Plus only)

Simply dip the strip, swirl three times and the results from all five tests are ready instantly! Insta-Test Strips are designed for use by pool and spa operators who wish to assess their total water quality. One bottle contains 50 strips.

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Digital Testing Equipment

HM Digital pH Meter

- Measures pH and Temperature
- Waterproof housing
- Automatic Temperature Compensation (ATC)
- One-touch automatic digital calibration: auto ranging to 4, 7 or 10 pH
- Glass encased reference electrode – helps retain moisture
- Sensors can be re-saturated to work again if dried.
- Auto-off function, data-hold function and low-battery indicator
- Large and easy-to-read LCD screen
- Includes a cap, batteries, lanyard, storage solution and pH 7.0 buffer

pH Range: 0.00 to 14.00, Accuracy: ± 0.02 pH

Temperature Range: 0.0 to 80.0°C/32.0 to 176.0°F, Accuracy $\pm 2\%$

Item Number	Description
BBHM12050	PH-200 pH/Temperature Meter
BBHM12550	pH Electrode Storage Solution, 60 cc

HM Digital ORP Meter

- Measures Oxidation Reduction Potential (Redox) and Temperature
- Auto-ranging calibration with digital fine tuning.
- Waterproof housing
- Replaceable probe
- Auto-off function, data-hold function and low-battery indicator
- Large and easy-to-read LCD screen.
- Includes a cap, batteries, and lanyard.

ORP Range: -999 to 1000 mV, Accuracy: ± 2 mV

Temperature Range: 0.0 to 80.0°C/32.0 to 176.0°F, Accuracy $\pm 2\%$

Item Number	Description
BBHM14050	ORP-200 ORP/Temperature Meter
BBHM14550	ORP Electrode Storage Solution, 60 cc

HM Digital EC/TDS Meter

- Measures electrical conductivity (EC), total dissolved solids (TDS), salinity and temperature
- Automatic Temperature Compensation (ATC) using three temperature coefficients
- Three non-linear EC-to-TDS conversion factors.
- Four scales: μ S, mS, ppm, ppt
- Waterproof housing
- Detachable replaceable platinum sensor
- Auto-off function, data-hold function and low-battery indicator
- Large and easy-to-read LCD screen
- Includes a cap, batteries and lanyard

Measurement Range: 0-9990 μ S; 0-8560 ppm; 0-9.99 mS; 0-8.56 ppt

Temperature Range: 0.0 to 80.0°C/32.0 to 176.0°F, Accuracy $\pm 2\%$

Item Number	Description
BBHM10050	COM-100 EC/TDS/Temperature Meter
BBHM10750	TDS 342 ppm NaCl Calibration Solution, 3 oz
BBHM10850	TDS 1000 ppm NaCl Calibration Solution, 3 oz

BB1740K02

LaMotte TRACER PockeTesters™

This TRACER PockeTester allows users to add a TCI (Total Chlorine), pH, or ORP sensor to test three factors. Just add a tablet to a sample cup to test Total Chlorine. A memory feature saves calibrations between sensor changes and stores up to 15 readings. Kits include rugged carrying case.

- Total Chlorine: 0-10 ppm
- pH: 0.00 - 14.00
- ORP: -999 to 999 mV

Item Number	Description
BB1740K02	TCI (Total Chlorine) TRACER Kit with pH, & ORP Sensor
BB174002	TCI (Total Chlorine) TRACER PockeTester
BB173202	TCI (Total Chlorine) Sensor Only

Spineboards

Iron Duck Base Board

- Offers the leading strength and safety in its weight class
- Rated for the lowest amount of deflection in the 400 to 500 lbs weight class
- X-Ray and CT scan translucent, MRI Scan compatible
- Flat surface patient area won't compromise CPR efforts or aggravate cervical spine injuries
- Made of a roto-molded HDPE (high-density polyethylene) shell over non-toxic, eco-friendly foam for durability and easy cleaning
- 14 oversized hand holds can accommodate gloved hands
- 12 optional offset composite pins can be located in the lower third of the handholds to keep pins out of the way while lifting patients
- Capacity: 500 lbs Float capacity: 250 lbs
- Also available with 12 board pins at an additional charge

Dimensions: 72" x 16" x 1 3/4"

Weight: 16 lbs

Color: Yellow.

Item Number	Description
DD3585050	Base Board
DD3585P50	Base Board with 12 board pins

Iron Duck Pedi Air Complete Spineboard

- This pediatric sized board is especially designed for children infant to 5 years old
- The board's patented Dual Plane Head Drop System supports the larger occipital area of a child's head and allows you to immobilize a patient, establish neutral spine alignment and maintain their airway all at the same time
- The only pediatric immobilization board that is rotomolded from high-density polyethylene (HDPE) to create a one piece seamless product, eliminating cross contamination
- X-Ray and CT Scan translucent, MRI compatible

Dimensions: 48" x 12" x 1 1/2"

Weight: 7 1/2 lbs.

Select color: Yellow, Teal.

Kit contains one Pedi Board, one set of restraint straps (pedi), one shoulder strap, one chest strap, four body straps, two wrist restraints, and six disposable head blocks.

Item Number	Description
DD3584050	Pedi Air Complete Spineboard Kit
DD3584350	Pack of 3 Pedi Replacement Head Block Sets

Iron Duck Body Loc

Includes carrying case and the following 3" wide straps:

- One black/orange pelvis strap (78" L)
- One black/yellow femur strap (73" L)
- One black/red chest strap (68" L)
- One black/green upper tibia strap (63" L)
- One black/blue lower tibia strap (58" L)

Our Body-Loc strapping system is perfect for first responders. The original design provides extremely efficient immobilization using color coded straps with reflective anatomical positioning labels for fast, foolproof assembly. Hook and loop closures allow quick, secure connections while allowing adjustment to accommodate patient of any size.

Iron Duck Board Loc

- Fully adjustable
- Hook and loop closures
- Includes a nylon pouch (color may vary)

Board Loc is fully adjustable to fit patients in a wide range of sizes. Hook and loop closures provide secure connection while allowing infinite adjustment. A reflective center stripe aids in foolproof assembly.

Kemp Complete CPR Mask

This bestselling CPR mask comes complete with head strap and O₂ inlet. It is packaged in a compact, hard-shell, pocket-sized carrying case and features a one-way valve with filter. This mask prevents mouth-to-mouth contact with the victim's face. It has a contoured soft vinyl cuff that shapes easily to adult, child and infant facial contours. Its transparent dome allows the rescuer to check the victim's mouth for lip color and secretions. The mask is ready to use with no need to assemble valve and filter, which saves valuable time in emergencies. Includes gloves and a wipe.

Item Number	Description
DD1050150	Kemp Complete Rescue Mask

Kemp Combo Adult/Child CPR Mask

Same contents as the Kemp Complete CPR Mask, but also includes a child adapter which provides a better fit for smaller faces.

Item Number	Description
DD1052550	Kemp Combo Adult/Child CPR Mask

Ambu Pocket Rescue Mask

Diverts patient's exhaled air away from the rescuer and prevents mouth to mouth contact. Its clear design allows visibility to check victim's mouth for lip color and secretions. Made of durable plastics. **Basic Rescue Mask** includes reusable mask, replacement one-way valve and filter, one set of vinyl gloves, two alcohol wipes and a hard carry case.

Complete Rescue Mask has all the same features of the Basic Rescue Mask, but also includes oxygen inlet and head strap.

Item Number	Description
DD2521350	Basic Rescue Mask
DD2521250	Complete Rescue Mask

First Aid and Rescue Products

Ambu Spur II Bag Valve Mask

Ambu SPUR II is the only single use resuscitator that is made from a SEBS polymer instead of PVC. This classifies Ambu SPUR II as environmentally safe and fully disposable, thus eliminating all risk of cross contamination.

Ambu SPUR II resuscitators come in individual, resealable carrying bags, complete with mask and any special accessories. Color-coded for fast size identification.

Item Number	Size

Snyder's Lifeguard Training Manikin™

The original Snyder's Lifeguard Training Manikin is an indispensable tool for training and testing of lifeguards. It is scientifically designed to:

- Approximate towing an average size person in water
- Provide valuable endurance conditioning for in-service training
- Be used for personal pre-test preparation.
- Provide the same degree of difficulty for all students in testing situations
- Have many applications in lifesaving courses
- Help establish minimum standards for pre-employment tests
- Be virtually indestructible
- Be lightweight and portable with no maintenance required

Item Number	Description
DDSAM0150	Lifeguard Training Manikin

Tarpaulin Fluid-Resistant Large Trauma Bag

Dimensions: 18" x 12" x 12"

The Tarpaulin Fluid-Resistant Large Trauma Bag is the same premium quality and design as the Premium Large Trauma Bag but constructed using a heavy-duty water-resistant Tarpaulin material. This is extremely helpful to keep the bag clean from the elements, as well as from patient's bodily fluids.

Item Number	Color

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Ring Buoys and More

Rope molded into core

With white webbing straps

Jim-Buoy USCG Approved Ring Buoys

Solid, closed-cell plastic throughout. Soft and resilient to the touch. The fine Sof-Tex surface resists weather and temperature extremes, is easily cleaned with soap and water, and will not rot or mildew. Double UV inhibitor prevents deterioration.

With Rope Molded Into Core

The rope is looped and securely bonded inside the molded core—practically impossible to tear out! No straps to wear or deteriorate. Its unique design allows the rope to stand out in the ready position to be more easily grasped in the water. This design also offers more space for custom lettering, if desired.

Rescue Tubes and Accessories

ExoTube™ Rescue Tube

Reduce costly rescue tube replacement by purchasing the most durable rescue tube available...the ExoTube.

The ExoTube features:

- Strong nylon mesh that completely encases the tube, eliminating cracking and splitting
- Rescue tube and nylon mesh are totally bonded into one piece for superior strength
- The nylon mesh creates a textured surface for superior grip
- Nylon mesh is sewn to all exiting straps so foam and straps cannot separate at the ends of the tube

Close-up of mesh

50" ExoTube includes 6 foot towline, adjustable 2" shoulder harness with extra length for head clearance, Velcro towline tie down and reach assist loop.

Each ExoTube comes with a **one year full warranty**.

Swim ID Neck Bands

SwimID neck bands offer a simple and highly visible way for lifeguards and monitors to know who belongs in the deep end at a glance. SwimID uses a simple stoplight system:

- Green - no restrictions
- Yellow - some restrictions
- Red - shallow pool only
- Blue - use for your custom purpose

Based on tested swimming competence, swimmers wear the assigned color breakaway band around the neck. This allows for easily determining any swimmer's skill level while in the pool.

StrikeAlert Lightning Detector

StrikeAlert is a small and affordable lightning detector that provides an early warning of approaching lightning strikes from as far away as 40 miles and lets you know if the storm is coming your way.

An audible alarm sounds when there's a strike and a corresponding LED light illuminates accordingly at lightning distances of 20-40 miles, 12-24 miles, 6-12 miles and within 6 miles.

The detector is housed in a small pager-like casing that can be clipped on a belt loop and runs on two AAA batteries. It's perfect for outdoor sporting events and activities.

Item Number	Description
DDSA50	StrikeAlert

StrikeAlert HD Lightning Detector

The next generation of personal lightning detection is here. Built on the trusted StrikeAlert technology, StrikeAlert HD is the first personal lightning detector with a graphical display that shows you the lightning strike distance (from 0 - 40 miles away) as well as a 1-hour storm trend and intensity. Most other personal lightning detectors offer only 180° tracking, but StrikeAlert HD offers complete 360° tracking - in all directions, so there are no blind spots.

You can set the unit to alert you to danger with both an audible and vibrate warning. StrikeAlert HD achieves up to 80 hours of operation from two AA batteries.

H2O Innovations Portable Guard Station

H2O Innovations Portable Guard Station is the most convenient portable chair available. Transport wheels allow any guard to relocate the chair with ease. The unique chair is designed and intended to supplement larger permanent guard stations and helps promote the "5 Minute Scanning Strategy". Comes with standard red upholstery with embroidered "Guard" emblem and Guard Symbol in the chair back. The "standing" option on the H2O Innovations Portable Guard Station is a feature found only on much higher priced and bulkier alternatives.

Fluted PVC/aluminum reinforced frame is extremely durable, yet light. Standard wheel kit ensures that any guard can relocate the unit easily. All exposed surfaces are corrosion resistant. Exposed PVC surfaces are manufactured with UV protection for outdoor use. Canvas upholstery and 1" thick high density foam seat cushion keep guards comfortable, yet in an alert position. Nonskid surfaces on foot stool area.

One year warranty.

Paragon Guard Chairs

Paragon Lifeguard Chairs

Paragon Aquatics offers a wide selection of fixed, movable and portable chairs for every need. Designed to harmonize with the ParaFlyte Diving Towers, the ParaFlyte fixed series chairs feature both sloping pedestal and access ladder. The movable, portable and semipermanent chairs can be moved about as needed or to avoid the sun. All fixed or semipermanent chairs have a rugged platform extending to the pool edge, permitting a safe, fast takeoff by a lifeguard. All chairs feature a colorful molded plastic chair.

Chairs supported on seat pedestals have a 360° swivel. Anchors and escutcheons are included except with the movable and portable models. All chairs (except 'Portable' models) have holders for life rings and umbrellas. Life rings and umbrellas must be ordered separately.

Portable

Weighing under 100 lbs, this chair can be easily lifted by one person. Sloping front ladder allows easy access to molded contour seat. Angled legs give extra stability. Seat is six feet above deck (4-step unit); 4 feet 6 inches (3-step unit); and 3 feet 10 inches (2-step unit).

Item Number	Description	Ship Weight
HH2040110	4-Step	95 lbs
HH2046010	3-Step	89 lbs
HH2045010	2-Step	85 lbs
HH4410410	Replacement 19" Sloping Ladder Treads	

Item Number	Description
HH2040410	Wheel Kit for 4-Step Chairs
HH2040310	Wheel Kit for 3-Step Chairs
HH2040210	Wheel Kit for 2-Step Chairs

Rover

Designed for pools where the guard chair must be anchored, but still capable of being moved easily to another location on the deck (for instance, to keep direct sun out of lifeguards' eyes). Rear legs are anchored to sockets set in the deck. Front wheels allow for easy movement. Comes with two pairs of anchors. Additional sets must be ordered separately.

Item Number	Description	Ship Weight
HH2030310	Rover	185 lbs
HH2810210	Additional Anchor, each	
HH2830110	Paragon Deluxe Escutcheon	
HH4410410	Replacement 19" Sloping Ladder Tread	

Wheel-A-Round Movable

An ideal solution for a chair that is needed at different locations at different times. Both rugged and stable, yet can be easily moved by one person. The semi-pneumatic wheels roll easily on deck or lawn. The perfect chair for supervision, instruction, and judging. The wide ladder at front leads directly to platform. Available with seat at eight-feet, six-feet or four-feet above deck. Not suitable for diving.

Item Number	Description	Ship Weight
HH2030110	20301 8' Movable	235 lbs
HH2030210	20302 6' Movable	225 lbs
HH2030510	20305 4' Movable	215 lbs
HP2071910	Replacement Footboard for 20301, 20302, and 20305	
HH4410410	Replacement 19" Sloping Ladder Tread	

ParaFlyte Series

All Paragon ParaFlyte lifeguard chairs have a platform height of 4'6", a seat height of 6'0" above the deck, and are supported by a stainless steel flanged pedestal which is set back 3'0" from the pool wall. The ladder at side is set back 3' 1 1/8" from the pool wall. Combination ladder risers and guard rails are .065" wall x 1.90" diameter, Type 304 stainless steel, polished to a 320 grit finish. All platforms (footboards) are constructed of laminated wood, coated with fiberglass and polyester resin and have a non-skid surface.

All permanent ParaFlyte lifeguard chairs are furnished with pedestal, pedestal anchor, rear anchors, (where required) and escutcheon plates. All are furnished with holders for rescue tube and umbrella.

ParaFlyte Club

Acclaimed ParaFlyte styling and quality. A single anchor at pedestal base supports the entire chair. The vertical access ladder requires less deck space and does not need separate anchors. Platform is laminated wood coated with fiberglass and polyester resin.

Item Number	Description	Ship Weight
HH2100110	ParaFlyte Club	175 lbs
HH2100510	Additional Pedestal Anchor	
HH4410110	Replacement 19" Vertical Ladder Tread	

ParaFlyte Ladder at Rear

Recommended for general use. Ladder at rear with flared guard rails provides easy access to the platform. The horizontal rails provide protection and serve as arm rests.

ParaFlyte Ladder at Sides

Two access ladders, one at each side, allow the lifeguard to dismount quickly and safely—from either side—when unable to plunge directly into the pool. Two guards can each stand in an elevated position for unbroken surveillance during guard change and relay of instructions.

Item Number	Description	Ship Weight
HH2000110	Ultraflyte	187 lbs
HH2000210	Superflyte	157 lbs
HH2100510	Additional Pedestal Anchor

Paragon Seat Upgrade

Upgrade the seat on your new Paragon lifeguard chair to the improved folding, cushioned seat.

Item Number	Description
HP2070310	Upgrade to New Cushioned Seat

Paragon Guard Chairs

Griff's VISION Guard Station®

The lifeguard station has a patent-pending design that minimizes the footprint on the pool deck while maximizing the frontal edge. Side to side access will facilitate uninterrupted coverage of the pool during shift changes.

- Available in 3 models: (1-step, 2-step and 3-step)
- Accommodates most pool gutter profiles, including zero-depth entry
- Fold down cushioned seat provided
- Ships flat and assembles in minutes
- Provided with wheels and can be moved from the front or the rear

Item Number	Description
HH2034010	1-Step
HH2034110	2-Step
HH2034210	3-Step
HH4410710	Replacement 26" Vertical Ladder Tread

All Terrain Griff's Guard Station®

The All Terrain Griff's Guard Station® is super portable, easily tipped and rolled to a different location.

- Designed to work on most terrains to easily adapt to indoor and outdoor pools, waterparks, or beaches
- Large pneumatic wheels can be locked or are easily removable within seconds to help prevent vandalism loss.
- Front and rear chair access allows for uninterrupted coverage of water by lifeguard during shift change
- Fold down cushioned seat provided
- Nonskid, vented decking surface
- Includes umbrella ring guide, umbrella/life ring holder, and appropriate warning labels

Item Number	Seat Height
HH2033010	4"
HH2033110	5"
HH2033210	6"
HH4410710	Replacement 26" Vertical Ladder Tread
HH4410910	Replacement 26" Sloping Ladder Tread

Griff's Guard Station®

Griff's Guard Station helps to increase lifeguard effectiveness. Griff's Guard Station feature front entry, elevated viewing station, easy access, and non-skid surface. A wide front step provides additional station and brings the guard closer to the pool edge. Heavy duty wheels allow convenient, easy portability. Stainless steel and fiberglass construction assures long lasting and trouble-free service.

Advantages:

- Proven to decrease boredom while increasing attention and concentration, necessary for the safety of both swimmers and lifeguards
- Allows quicker, safer responses to emergencies.
- Promotes alertness without diverting attention from water
- Reduces chance of shoulder strap harness on the rescue tube "hanging" the lifeguard from a height
- Increases patrolling and communication with guests
- Encourages standing to add height to surveillance angle

Item Number	Description
HH2038510	Flat Station
HH2038610	Step Station
HH2038710	Full Height Station

Sun Shade Color Options:

Sun Shade for Griff's Guard Stations

Item Number	Sun Shade Option
HH2039510	For Flat Station
HH2039610	For Step Station
HH2039710	For Full Height Station

Lookout Lifeguard Chair

The Lookout Lifeguard Chair is designed for pools that do not require a full height chair. The Lookout Chair offers an elevated station with plentiful room for two lifeguards during shift change. Two- and three-step models are furnished with 19" cyclac tread(s) and four-inch wheels for increased portability. The frame is 1.90" O.D. x .065" wall type 304 polished stainless steel. All structural components are stainless steel. The seat is capable of a 360° swivel and has a stainless steel sloping support mounted on a fiberglass platform.

Item Number	Seat Height	Platform Height	Ship Weight
HH2035010	30"	12" 1-step	115 lbs
HH2036010	42"	24" 2-step	135 lbs
HH2036510	54"	36" 3-step	140 lbs
HH2037710	Optional wheel kit for 1-step		
HH4410410	Replacement 19" Sloping Ladder Tread		

Lookout Dual Side Mount Chair

This guard chair features easy access onto and off of the chair from both sides. This model is ideal for pool decks with limited space or if lifeguard shifts require simultaneous change. The seat is 54" above the pool deck and features full 360° rotation with a stainless steel sloping support pedestal. The 4' square platform is 36" above the deck surface. Wheels are provided for easy mobility to various locations on the pool deck. Includes life ring holder.

Item Number	Ship Weight

Lifeguard Umbrellas and Buoys

Perfect for use with
Life Guard Chairs!

6½' Printed Life Guard Umbrella

Features the same superior construction as our vinyl umbrellas, but with your choice of vinyl or acrylic material imprinted with the words "LIFE GUARD."

Great for lifeguard chairs and other poolside uses. Umbrella is 6½' in diameter with six ribs. Aluminum center pole. Manual lift and tilt feature.

Colors: Red or Royal Blue.

Item Number	Diameter	Material	Color
HH639ATLR	6-1/2'	Acrylic	Red
HH639ATLB	6-1/2'	Acrylic	Royal Blue
HH639ATLRV	6-1/2'	Vinyl	Red

Royal Blue/White

Premium Vinyl Guard Umbrella

Constructed of tough, durable vinyl laminate material and 1½" x 7½' heavy duty aluminum pole. Umbrella is 6½ ft. in diameter with six ribs of alternating panels. Features commercial quality, heavy gauge automatic tilt.

Listed in the pricing table are our stocked colors. Other colors also available at the same price include:

Solid: Royal Blue, Forest Green, Navy Blue, Red, Yellow, Turquoise, Teal, White.

Alternating: Yellow/White, Turquoise/White, Teal/White, Red/Yellow, Forest Green/Yellow.

Premium Vinyl Guard Umbrella Colors

Barrier Float

For use in assembling barrier/swim area systems. Continuous rope passes through buoy, no need for shackles. Solid high density polystyrene body coated with white marine enamel. Available with orange vinyl bands and "SWIM AREA" decal only. Dimensions: 12" x 36"

Utility Buoy

Designed to float upright with 35-40 lbs. of chain or equivalent weight. If more internal ballast is required, please advise. Full 12" diameter cylinder rises 40" plus above the water line for excellent visibility. The 13" diameter base assures complete stability. Closed-cell polyurethane foam extends 8" above the water line. Seamless outer shell. Features a 5/8" eye bolt at extreme bottom of the buoy. Specify vinyl daymark from list below.

Regulatory Buoy

Provides outstanding visibility with large 10" diameter cylinder rising 40" above the water line. The huge 19" diameter base assures maximum stability in the most turbulent waters. Built with rock hard outer shell for years of rugged service. Designed to float upright with 35-40 lbs of chain or equivalent weight. If more internal ballast is required please advise. Specify vinyl daymark from list below.

Vinyl Daymarks for DD425R08 and DD427R08

Guaranteed for 5 years against fading and weathering. Two (2) daymark sheets required per buoy.

Tailwind Ultra Heavy Duty Signs

- Durable 3/4" thick plastic.
- Signs are made by engraving through outer layer of 1/4" HDPE sheet plastic to expose contrasting color core, making these signs bright and highly visible.

- Hardware for mounting is not included. Holes are not drilled for mounting. This allows you to place the sign in its appropriate place as you see fit.
- Signs are available in all color options. Please select color when ordering.
- Custom signs are available - contact us today to request a customized sign mock-up.

Depth Marking and Messaging

Our informative tile series offers you an attractive and safe alternative for descriptive marking. Smooth tiles are for waterline applications. Skid-resistant tiles are for deck or gutter applications. These frost-resistant tiles are printed with ceramic glazed inks and kiln fired, making these the finest, most durable markers. For permanent deck markings, embed tiles directly in concrete. **Many more tiles and options are available.**

Please contact us to discuss your custom message tile needs.

3^{FT} 6^{IN} 2½

Depth
Markers

Depth Markings

Depth markers are 6" x 6" or 8" x 8" frostproof ceramic tiles or vinyl stick-ons. White with black lettering. Digits are 4" tall. Specify smooth or nonskid tile. Vinyl stick-ons are nonskid and require installation kit (above). Our new 4¼" x 5½" plastic stick-ons adhere to stainless steel, vinyl and fiberglass. Simply peel and stick – no installation kit needed! Depth marker available with 0-14 FT and ½ increments. Metric tiles and tiles specifying inches are also available. Contact us if you need any assistance selecting the right tiles or stick-ons for the job.

Single Tile Messages

Single message tiles are 6" x 6" smooth or nonskid frostproof ceramic tiles or nonskid vinyl stick-ons. 8" x 8" nonskid ceramic tiles and vinyl stick-ons are also available. Tile is white with black message with the exception of the additional red circle with slash on symbols. Vinyl stick-ons require installation kit (above).

****Please specify:**

6" x 6" smooth tile (S6)

8" x 8" nonskid tile (N8)

Tip N' Roll Bleacher

National Recreation Systems "Tip N' Roll" bleachers tip and roll away for easy storage and are the ideal solution to your auxiliary seating needs. This bleacher is easily tipped up onto its swivel casters for movement, and caster brakes keep the bleacher from rolling when stored. All "Tip N' Roll" bleachers include non-marring rubber foot pads to protect wood floors. The aluminum understructure (frame) reduces weight for easier lifting.

Standard Tip N' Roll bleachers include one 2" x 10' foot plank, while Preferred Tip N' Roll bleachers include two 2" x 10' foot planks.

Color Options: Tip N' Roll Bleachers are available with powder coated seats at an additional charge. Contact us for color availability and pricing.

Note: Buyer is responsible for compliance with local regulations.

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Premier Polysteel Outdoor Furniture

Outdoor Furniture by Premier Polysteel

Premier Polysteel is committed to customer satisfaction, quality, and safety! Recognizing the importance of having the best quality outdoor furniture, Premier Polysteel builds products that last a lifetime. Emphasis is put on the importance of careful and safe design. Only first-rate materials are used. You are sure to enjoy these products for years to come, and because these products are built to last, they come with a **20 year limited warranty**.

Premier Polysteel products are offered in twelve standard colors with custom colors available for larger orders.

Premier Polysteel's **Quick Ship** program means that certain products are eligible to ship within 10 business days if ordered in **Blue, Hunter Green, Brown or Black**. Quick Ship items ordered in other colors can ship in 15 business days.

All Premier Polysteel steel products are 100% plastisol (PVC) coated – including the bench and picnic table legs! Powder coated frames tend to scratch, chip, and then rust easily after short exposure to the elements. This weakens the product and can stain the concrete or stone that it sits on. With totally plastic coated legs, this will not happen. The manufacturing process begins by using commercial-duty steel for each product built. Next, a thick 1/8-inch protective coating of PVC is added. The resulting product is unequalled in strength and durability. Experience the difference a completely PVC coating will make on the longevity of your outdoor furniture. Wind, rain, salt, and snow are no match for Premier Polysteel. Rust and corrosion are never an issue because there is no exposed metal. In compliance with worldwide regulations, our PVC protective coating is UV stable, mold resistant, and can withstand direct heat up to 300 degrees.

Premier Polysteel Colors

Please specify color when ordering.

Premier Polysteel Surface Styles

Note: All listed prices reflect Expanded Metal surface style. Some products may not be available in all styles. Contact us for more information.

Surface Mount Kits

Small surface mount kits are for use with free-standing square and round tables. Large surface mount kits are for use with all free-standing benches and rectangular tables.

Item Number	Description
TTKITSMSM	Surface Mount Kit, Small (specify color)
TTKITSMLG	Surface Mount Kit, Large (specify color)

Benches

From parks to playgrounds, a Premier Polysteel maintenance free bench is the perfect addition to any landscape! The entire bench has a thick coating of UV stable, mold resistant plastisol compliant with worldwide standards. This means no rust and no painting! Ever! Choose from a variety of models that will beautifully transform your area into a place of enjoyment. Most expanded metal benches are eligible for the Quick Ship program.

Champion Park Benches

The Champion Park benches are available with a standard diamond shaped design in expanded metal and in perforated steel with a punched-hole design. This bench is available in 4 foot, 6 foot, 8 foot, and 10 foot lengths. The bench without back also can be ordered with a wall mount and additionally comes in a 15 foot length. The seat and back each have a depth of 10 inches.

Premier Polysteel Outdoor Furniture

Picnic Tables

Premier Polysteel Champion picnic tables are second-to-none in durability and strength. From the completely PVC coated steel to the wide base design for optimum stability, they exceed all performance requirements. The commercial quality picnic tables are coated from top to bottom with a 1/8-inch layer of PVC, providing a longlasting, attractive addition to any location. Not only are they comfortable and easy to clean, but they are built to endure all climates. From desert sun to salty ocean air, your picnic table is built to last!

Champion Rectangle Tables

The design of the Champion rectangle style results in comfort which is partly due to the secure overall stability of the picnic table. Is everyone seated on the same side? No problem! These tables do not tip! The wide frame base makes this impossible. **Specify Top & Seats and Legs color.**

Texacraft Vinyl Colors

Texacraft Frame Finishes

The Vinyl Straps

The vinyl straps are 100% UV-stabilized virgin vinyl, .110" thick by 2" wide.

The Finishing Process

The finish begins as a very fine, electrostatic polyester powder that is sprayed onto the frame. The powder is "charged" so that the powder attaches to the frame much like metal to a magnet. This provides complete and even coverage of the powder. Once covered with the powder, the frames enter a large oven area where the frames are heated to a very high temperature that melts the powder. The process results in a durable, baked-on finish. Some of the finishes are textured, while others are smooth or hammered.

Texacraft Poolside Furniture

Oasis Crossweave Collection

Oasis Crossweave Outdoor Furniture Collection

The Oasis Crossweave Outdoor Furniture Collection promotes a transitional design with heavy-walled tubular aluminum extrusion for added durability and are available in all frame finishes. All items in this collection are available in either a sling or vinyl strap seat and are stackable (bar stools not stackable).

Westport Adirondack Chair

Proudly crafted in Pennsylvania, USA, the Westport combines the easy-care, zero maintenance benefits of resin with the durability and comfort found in more expensive materials. We do this by using MPC (Mineral Polymer Composite) -- a high grade polymer formula allowing us to make a superior product with a dramatic wood-like finish.

Weighing in at a substantial 22 lbs., the Westport arrives completely assembled, stacks for off-season storage, and is tested to ASTM 1561B. Black Stainless Steel hardware.

Tenjam Pool Furniture

Splash Series Pool Furniture by Tenjam

All products in this Splash Series are suitable for use on the shallow water shelf of a swimming pool. They can be easily placed in the pool and then easily removed and used on the pool deck. Suitable for chlorinated and saltwater pools and for use on all pool materials like concrete, vinyl liners, and gunite.

Tenjam Splash Series products are manufactured to optimize durability, impact resistance and weight-bearing capacity for indoor and outdoor settings. Fully UV color stabilized, rustproof and weather-resistant, Splash products provide lasting durability in even the harshest environments. Bring on the salt water, sun, rain and snow—these products can take it!

All Tenjam Splash Series products include a percentage of Recovered Coastal Plastic (RCP) material in their construction. RCP is plastic debris recovered from shorelines, waterways, and coastal communities where it's intercepted before entering the ocean.

Splash Series Features:

- Easy in and out of the pool
- Safe on all pool surfaces
- Chemical resistant
- Easy clean with soap and water.
- UV resistant
- Durable strength
- Recyclable
- Rust proof
- 5-year warranty
- Safe for use in chlorine or saltwater

Tenjam Splash Series Colors

When ordering Tenjam products featuring cup holders, please specify product color and cup holder color (Black or White).

Rad Pad Floating Cushion

Tenjam's SPLASH Rad Pad Poolside Seat Cushion helps keep the heat out! No more swimsuit sticking to hot plastic coatings! The Rad Pad is pure soft foam, the same material used in the best athletic shoes. Dimensions: 15.5" Dia. x 1.5" H

Features:

- Stackable
- Washable
- Waterproof and weatherproof
- Lightweight: easy to carry
- Air Flow Design: eliminates moisture trapping against flooring and seating surfaces.
- Safe: free of phthalates, heavy metals, and latex
- Rugged: holds up to years of use in high-traffic spaces.
- Optional carry caddy available: easily transport up to 10 pads.

Item Number	Description
TTRADP150	Rad Pad Floating Cushion
TTRADP450	Rad Pad Floating Cushion, 4-Pack
TTRADP050	Rad Pad Floating Cushion, 10-Pack
TTRPCAD50	Caddy for Rad Pad (Holds up to 10 pads)

Twisted Hex Stool/Table

This stacking seat has a twist and it's more than just the cool looks. Use it inside, outside, or anywhere. The Twisted Hex features a waterproof cushion top that is weather and chemical resistant. Stackable. Available in 13", 15.5", and 18" seat heights.

Features:

- Waterproof Cushion: similar flexible foam commonly used in durable shoe soles.
- Weatherproof: indoor and outdoor performance.
- Stacking: efficient storage and all three height units can stack together.
- Integrated Handles: easy to pick up and move around.
- Wide Base: great seating stability.
- Stay Dry Top: slightly crowned cushion designed for water runoff and quick drying.
- Easy to sanitize and clean.
- Base dimensions: 21.85" L x 19.25" W
- Weight: 5 lbs
- Maximum water depth: 7"
- Holds up to 350 lbs

Item Number	Dimensions
TT417AX50	21.85" L x 19.25" W x 13" H

TT417BX50	21.85" L x 19.25" W x 18" H

Drift Stool/Table

The fluid design of the Drift has no sharp corners or edges. The design looks light and airy, with construction that is very stable and robust. This product can take on the toughest indoor and outdoor environments.

Features:

- Active: promotes upright seating posture and keeps the legs lightly engaged for active seating.
- Quick Dry: the Drift will completely shed water from the surface and dry quickly after a rainfall or washing.
- Nesting for compact storage
- Dimensions: 22.25" L x 19.25" W x 17" H
- Weight: 16 lbs
- Maximum water depth: 7"
- Holds up to 300 lbs.

Item Number	Description
TT1150150	Splash Series Drift 17" Stool/Table

Amped Stool/Table

The Amped Stool/Table design offers great flexibility in your space when you would like furniture to be multi-functional. The designs have beautiful visual appeal. The flowing curves also make these products exceptionally strong.

Features:

- Round Edges: increased safety by eliminating sharp edges and corners.
- Two removable cup holders
- Dimensions: 22" L x 17" W x 16.5" H
- Weight: 18 lbs
- Maximum water depth: 10"
- Holds up to 500 lbs

Standard Base Colors

Item Number	Description
TT2289950	Session Series Woosah Stacking Lounge Chair

Woosah Stacking Chair

Take a seat in Woosah chair and let your shoulder and arms relax. Now take a deep breath and sway "Wooooo-saaaaah" while slowly exhaling. Repeat until you feel the tension wash away.

The combination of the ergonomic contouring of the seat and the slight bounce designed into the frame make for a very comfortable chair. The seat is made of rotomolded hard polyethylene material for supreme impact strength and low maintenance. The frame is made with heavy gauge stainless steel with an outdoor rated powder coat finish.

Features:

- Stackable up to 4 units
- Easy to clean and sanitize
- Ultra-low VOC emissions to promote healthy indoor air quality
- Seat sheds liquids and dries fast
- 100% recyclable
- Dimensions: 33" L x 34.75" W x 41.5" H
- Seat height: 15.75"
- Weight: 27 lbs
- Holds up to 500 lbs

Lockers

Single Tier Locker

The single tier locker is practical and widely used because it provides ample storage height for full-length garments. Each opening has a shelf 9" from top, one double-prong and three single-prong coat hooks. There are six 6" louvers on the top and bottom for ventilation. The padlock attachment is an integral part of the handle.

Listed below is one section, three frames wide, (three locker openings).

Available colors are Dove Gray and Putty. Built-in keys or combination locks, padlocks and/or number plates are available for an additional charge

Item Number	W	D	H*	Openings
LL5002350	12"	12"	60"	3
LL5112350	12"	12"	72"	3
LL5032350	12"	15"	72"	3

*Add 6" to overall height for legs if desired.

Remcon Plastic Lockers

The smart choice with a smart look!

Why Remcon Plastic Lockers are the smart choice:

- Easy to install - units come fully assembled
- Easy to clean - simply hose down with soap and water
- Easy to maintain - there is never a need to paint or rust proof, making them maintenance free
- Durable - double wall constructed lockers will never dent, nor scratch, unlike metal
- Quiet - no loud banging like metal lockers.
- Space maximizing - coordinate various sizes to maximize space
- Colors - a variety of colors are available, **Gray** is the standard stocked color. Other colors subject to color setup fee. Contact us for details

Drain holes are standard. Typical installations are in 72" stacks. **Priced per single locker.**

LL1236250	Sloped	12"	15"	47"

Double Tier Locker

Double tier lockers save valuable floor space and money. They are specifically designed for short period occupancy or where short coats and jackets are worn. The double tier lockers have the same quality heavy duty construction as the single tier lockers. Features of the double tier include one double-prong and three single-prong coat hooks, six 6" louvers on the top and bottom for ventilation. The padlock attachment is an integral part of the handle.

Listed below is one double tier locker section, three frames wide (six locker openings).

Available colors are Dove Grey and Putty. Built-in keys or combination locks, padlocks and/or number plates are available for an additional charge.

Remcon XL Plastic Lockers

- Wider, deeper cabinet with 50% more volume than standard Remcon plastic lockers
- Seamless, rotationally molded, double walled units for dent resistance and durability
- Reinforced interior hinged door with four vents to maximize fresh air flow through
- New, huskier latch molded right in for improved security and more accurate tab alignment
- Tighter tolerances for smoother installation and trouble free operation
- Maintenance free materials and washable design with drain holes for easy sanitation
- Aluminum ID door plate for engraving
- An especially smart choice for damp areas like athletic facilities
- Colors - a variety of colors are available. **Gray** is the standard stocked color. Other colors subject to color setup fee. Contact us for details.

Priced per single locker.

AquaMax™ Solid Plastic Lockers

AquaMax Solid Plastic Lockers are Ideal for applications where high humidity, moisture and water are present. Plastic lockers are fabricated from solid high density polyethylene panels (HDPE) for maximum strength and durability while providing corrosion resistance to most common chemicals.

Advantages:

- Scratch resistant
- Corrosion resistant
- Impact and dent resistant
- Easy to clean
- Mildew and odor resistant
- Graffiti resistant (pencil, pen, paint and most common markers)
- Chemical resistant

Features:

- **BODY CONSTRUCTION:** Corrosion-Proof High Density Polyethylene (HDPE), with 3/8" thick body panels
- **BODY STYLES:** Single, double, triple, six tier and z-tier
- **HINGES:** heavy-duty continuous full height extruded aluminum with a powder-coat finish to match color of door
- **HANDLE (Wardrobe):** Projecting solid plastic handle with lift-type latching
- **HANDLE (Box):** Single-point thru-the-door projecting friction catch door pull with padlock hasp
- **SHELVES:** Hat shelf is included in single tier lockers.
- **HOOKS:** 2 single-prong hooks in single and double tier lockers.

Lockers are 12" wide and 18" deep. Available opening height options are 12", 24", 36" and 72". Lockers are also available in a Figure-Z configuration creating two lockers with each having a 48"-height side and a 24" height side.

VersaMax™ Phenolic Lockers

VersaMax Phenolic Lockers are the most durable lockers available. The unique non-porous surface of phenolic material eliminates the ability for mold, mildew and bacteria to grow making these lockers ideal for wet or damp areas. In addition to this primary benefit, the surface of VersaMax Phenolic Lockers is also waterproof and graffiti and scratch resistant.

Features:

- Phenolic construction
- Sides and backs are 5/16" thick. Tops, bottoms and shelves are 3/8" thick
- Doors are 1/2" thick
- Frameless design maximizes clear opening
- Phenolic's unique non-porous surface eliminates the ability for mold, bacteria and mildew to grow making it ideal for wet areas
- Graffiti resistant, water resistant and easy to clean. Prepared for padlock (not included), electronic lock, or key lock (included)
- Color: Figured Annigre
- **20-year warranty**

Available with three different lock choices: Padlock Ready, Electronic Lock, and Key Cam Lock. Lockers are 12" wide and 18" deep. Available opening height options are 12", 36" and 72". Lockers are also available in a Figure-Z configuration creating two lockers with each having a 42"-height side and a 30" height side.

SUITMATE® Swimsuit Water Extractor

Nearly 40 years ago, Extractor Corporation introduced the revolutionary SUITMATE Swimsuit Water Extractor, designed to efficiently remove 95 percent of water from wet swimsuits in just eight seconds. Today, the SUITMATE unit serves a diverse range of aquatic facilities, from high-end spas and hotels, to fitness clubs and public pools. Constructed from 304-series, medical-grade stainless steel, the unit is durable and performs well in high moisture environments. Each unit is manufactured in the USA by Extractor Corporation and includes a high-speed spin process with manual self-start and stop features, allowing for safe operation without heat.

Specifications:

- Dimensions: 15" × 15" × 23"
- Ship Weight: 65 lbs
- 115 V/ 60Hz Unit

Features:

- Removes 95% of water from a wet suit in 8 seconds
- Improved guest experience
- Minimal power consumption
- Dedicated technical support
- Reduces slip hazards
- Easy installation
- UL, CUL, and SASA safety certifications

SUITMATE® Select Custom Case Wrap

Whether you want your SUITMATE unit to blend in or stand out - we've got you covered. Show your team spirit by wrapping your SUITMATE unit in your team logo or school colors. Or seamlessly blend your SUITMATE Swimsuit Water Extractor into your environment by selecting a solid color or designer pattern of your choosing. Let your creativity flow - your custom wrapped SUITMATE unit can promote your brand, reinforce your company's message, or it can even inspire your team or patrons.

Each SUITMATE Select custom unit is wrapped with a double layer premium vinyl. The digitally printed design is protected with a transparent overlamine. The combination of these two materials provides long-lasting durability.

Additional benefits:

- Each wrap is applied in one seamless piece, protecting against peeling or tears
- The overlamine layer gives your design a glossy finish and excellent clarity
- The colors, patterns and designs are endless

Your Brand. Your Team. Your Colors. Your Design. It's Your SUITMATE!

Koala Kare KB300 Baby Changing Stations

A new standard for restroom design has emerged — one that demands visually pleasing design, a variety of colors and finishes, and the durability to withstand commercial use. The KB300 platform of baby changing stations doesn't just meet today's standard — it exceeds it. Whether your project specifies a high-end, aesthetically impressive restroom or demands versatility in color without compromising on overall style, the Koala Kare KB300 platform has a baby changing station for your business that will provide for the needs of your customers with children.

All KB300 platform products are designed to withstand frequent use thanks to an enhanced integral steel frame and have been tested to have minimal deflection with 200 lbs of center-loaded static weight.

KB300 platform baby changing stations are shipped with an external stainless steel bag hook that arrives ready to be installed on your restroom wall. Koala Kare's external bag hook satisfies patrons by offering a secure, hygienic place to store belongings instead of on the restroom floor.

S.R. Smith Pool Access Lifts

Splash! Aquatic Lift System

The Splash! Aquatic Lift is a semi-portable lifting system designed for swimming facilities seeking to provide user-friendly access to their swimming pools. The Splash! is battery powered and operated by a screw driven actuator. The design and durability of the system ensures consistent operation and minimizes service problems. The Splash! lift is attached to the pool deck using a provided square anchor socket.

The Splash! is virtually maintenance free. The components are made from corrosion-resistant materials, including powder-coated aluminum (arms), and powder-coated stainless steel (base, mast, and seat frame). The hand control is completely waterproof, and allows either the user or the attendant to control its operation with ease. The control box and battery are water resistant. If the lift is used outdoors, an optional full cover is available for purchase and is recommended to protect the system. Pricing includes integrated armrests and footrest.

The optional Activation Key prevents unauthorized use and is ideal for unattended pool environments.

Lifts ship via motor freight.

The Splash! lift is available in the following models:

Splash! – Standard Splash! lifts provide 400 lb lifting capacity. Mounted to deck with company supplied square anchor socket.

Splash! Hi/Lo – The perfect lift for facilities that have an above ground spa and an in-ground pool. The dual position chair allows a single lift to be used in both locations.

Splash! Spa – Designed for use with spas up to 52" (132 cm) above the deck.

Splash! Extended Reach – For use with pools with unusual gutter configurations requiring a longer reach to the water line. *Splash! Extended Reach has a weight capacity of only 300 lbs.*

HH3000R12	Splash! Round Post Lift

Order options separately from the table of Options and Accessories.

PAL Portable Aquatic Lift

The PAL is a completely portable aquatic lift, requiring no mounting to the pool deck. It contains over seven hundred pounds of counter weight to support a lifting capacity of 300 lbs. Its padded handle and ball bearing casters make the PAL easy to move, making it the perfect fit for facilities requiring accessibility to more than one water location, as well as for those who wish to store the unit away when it is not needed.

The unique design of the PAL allows it to be adapted to virtually all swimming pool configurations. Its arms reach over the pool edge and can vary in length depending upon the amount of required clearance. The PAL works well with edgeless designs, as well as with pools with curbs, gutters and skimmers. Either the user or attendant can operate the PAL easily with the LiftOperator Intelligent Control. The seat is deep enough to provide stability and has no edge to facilitate transfers. Set-up consists of rolling the lift into place along the edge of the pool and locking the wheels. Includes a battery, charger, battery console cover, waterproof control, rotomolded seat with integrated armrests, footrest, seat belt assembly and Secure-It Kit so the lift can be fixed to the deck.

The optional Activation Key prevents unauthorized use and is ideal for unattended pool environments.

Arm rest option sold separately. Lifts ship via motor freight.

The PAL Portable Aquatic Lift is available in the following models:

PAL – Standard portable aquatic lift is the perfect lift solution for facilities wishing to service more than one pool

Pal Hi/Lo – A variation of the PAL designed for in facilities that have both in-ground pools and above ground spas

PAL Spa – Designed for above ground pools and for above ground spas up to 52" above the deck

One year parts and lifetime labor warranty.

PAL2 Portable Aquatic Lift

The PAL2 includes all the great features of our original PAL pool lift, with a modernized look and durable matte finish. It is a portable, free-standing pool lift that comes with the PAL Secure-It Kit so that it can be fixed to the deck. Standard features include the LiftOperator Intelligent Control (mounted on the mast), a 24-volt rechargeable battery, waterproof hand control, rotomolded seat with integrated armrests, footrest, seatbelt assembly and Secure-It Kit so the lift can be fixed to the deck.

The optional Activation Key prevents unauthorized use and is ideal for unattended pool environments.

Third party tested and verified ADA compliant. Powder coated stainless steel and aluminum construction. 300 pound lifting capacity. Arm rest is optional. Lift ships via motor freight.

LiftOperator Intelligent Control by S.R. Smith

The LiftOperator Intelligent Control is the most technologically advanced pool lift control on the market. With an emergency stop button that can stop the lift mid-cycle and an audible safety alert that can bring a stranded user to the attention of your facility personnel, the LiftOperator ensures user safety. The control's internal memory stores information about pool lift usage that can be pulled onto a standard USB drive, and uploaded onto your computer for analysis. The optional Activation Key prevents unauthorized use – ideal for unattended pool environments. LiftOperator is now included as standard equipment with the following lift models: PAL/PAL2 Series, aXs2 Lift, multiLift (2-button control), Splash! Series.

S.R. Smith Lifts and Accessories

multiLift2™ Lift

The multiLift2 with its field reversible seating design brings increased performance and flexibility to S.R. Smith's best-selling flange mount series. The updated design adds significant increases to deck to water level capacity and both minimum and maximum setback clearances. The multiLift2 comes standard with the LiftOperator® Intelligent Control System and now comes in three color options: **Gray Mist, Slate and Taupe.**

- Integrated armrests
- 350 lb/159kg lifting capacity
- Retrofit anchor jig is standard
- LiftOperator® Intelligent Controller with 24V battery
- Powder-coated stainless steel and aluminum construction
- State of California CEC Compliant
- Third-party tested and verified ADA compliant
- Made in the USA

Admiral Lift

his ADA compliant lift maintains many of the same benefits of the Pro Pool lift, along with new features. Its field-reversible feature allows you to change the direction of the seat on site, allowing for left or right entry into the pool. It comes standard with the new adjustable base plate, therefore providing additional flexibility in pools with clearance issues. This lift is available with the same color options, solar charging station, anchoring systems, and accessories as the Pro Series lifts.

- Setback range 14.5" to 19"
- 450 lb weight capacity
- Anchor purchased separately, if required
- Battery operated
- UL Certified to meet pool lift standard 60335-2-1000
- **Five year structural warranty**
- **Five year prorated electronics warranty**

HHADML76	Admiral Pool Lift, without Anchor
HH46QAB50	Quick Set Anchor Kit
HH428HT50	Transport Cart for Admiral/Ranger Pool Lift

Seat and Footrest are now available in either Blue, Tan, Gray or White!

Ranger 2 Lift

The Ranger 2 Lift is an economical ADA compliant lift that maintains Aqua Creek's standards for durability and reliability. It's an ideal solution for use on smaller hotel and motel pools as well as for backyard enthusiasts who enjoy their independence. It is designed to be independently operated by the user, allowing the individual full control of the lift with an easy 2 button handset.

- Setback range 14.5" to 19"
- 350 lb weight capacity
- Field reversible design
- Anchor purchased separately, if required
- UL Certified to meet pool lift standard 60335-2-1000
- **Five year structural warranty**
- **Five year prorated electronics warranty**

Does your swimming pool comply with ADA requirements for accessibility?

If you are a Title II (Public Industry - School District, Municipality, City, County) or Title III (Private Industry - Lodging, Recreation, Education, etc.) entity with a pool, you are required to provide "accessible means of entry for pools."

- Any pool with under 300 linear feet of pool wall must provide one means of access, and that means must be either a pool lift or a sloped entry.
- Any pool with over 300 linear feet of pool wall must provide two means of access, one of which must be either a pool lift or sloped entry. The second means of access for large pools can be any of the five designated means of access, which are: pool lifts, sloped entries, transfer walls, transfer systems, or accessible pool stairs.
- Wave action, leisure river, and other pools where user entry is limited to one area require either a sloped entry, lift, or transfer system.
- Wading pools require a sloped entry.
- Spas require either a lift, transfer wall or transfer system.

Compliance with ADA standards became a requirement on January 31, 2013. Please contact us to discuss what the ADA requirements mean for your facility. We can help you select the best products for your unique set of circumstances.

Ambassador Lift

Developed from Aqua Creek's original Pro Pool Lift, the Ambassador features an additional reach allowing clearance for wide gutters and spa benches. This extended reach can also clear a curb or pool wall, making this lift ideal for raised perimeter pools and spas.

- 300 lb weight capacity
- Higher seat for easier wheelchair transfers
- Includes pull out leg rest, flip-up armrests and a water resistant handset
- Rechargeable battery operation (charger included)
- Setback range 22.5" to 38"
- **Five year structural warranty**
- **Five year prorated electronics warranty**

Item Number	Description

Seat is now available in either Blue, Tan, Gray or White!

Mighty Voyager Lift

The Mighty Voyager Lift provides a whole new perspective on pool access. An ADA Compliant and UL Certified Pool Lift that is also portable allow the user to move the lift away from the side of the pool in certain cases to allow for facility events or to simply store the lift. A robust 325 pound weight capacity is provided by separately purchasing sand that is readily available at your local pool supply or home improvement supply store. The 15" opening on the ballast housing allows for easy filling and removal of the sand if necessary.

Features:

- Includes ADA fixing kit, which allows lift to be fastened to deck

- 325 lb weight capacity
- **Five year structural warranty**
- **Five year prorated electronics warranty**

Item Number	Description

- Adjustable height range of 32" to 45"
- Tool-free conversion from armrest walker to standard walker
- Solid rubber wheels

Item Number	Description
HH605UW50	Aqua Walker™

Aquatic Access IGAT Deluxe Lift

The Aquatic Access Pool Lift Model IGAT-180 is a user- or attendant-operated, **water powered** unit which meets the pending ADA requirements for swimming pool lifts. It can lift a 400 lb. person at 55 PSI operating pressure (while lifting). The standard unit includes an adjustable height 19" wide seat with an inside arm rest, full 180° automatic seat rotation, 42" vertical seat travel, upper and lower controls easily reached from deck or pool, an adjustable footrest, and a built-in wheel for easy transport. The lift mounts in a single socket in the pool deck, and gains additional stability by contacting the deck and the pool wall, but is easily removed without tools. Structural components are 304 and 316 stainless steel.

Available options include a flip-up outer arm, adjustable headrest, seat belts for chest and lap, and a rescue board (which must be originally ordered with the lift). Addition of some accessories will increase pressure requirements. Custom modifications can be ordered to accommodate various water levels and wheelchair heights, opposite or reduced seat rotation, and adaptations to accommodate in-ground spa with bench seats.

Specify seat color: **White** or **Blue**

ADA-Compliant Models

IGAT-180 – Our standard model. Automatic 180° seat turns forward into water.

SpectraForce Pressure Booster Pump

Swim-Lift® Gallatin WP 400

The Gallatin WP 400 is one of our stainless steel water powered assisted access lifts. It is designed to accommodate both in-ground pools and spas without customization. The Gallatin requires no more than 12" of total depth (deck to floor/bench) for proper installation. The standard unit will accommodate anchor locations of 18" to 30" from the pool wall.

- 400 pound operating load capacity
- **ADA/ABA compliant** and Title 24: California Code of Regulations
- Passivated stainless steel construction
- Dual lift operating controls, allowing operation from the deck and/or the pool
- New seat design for greater ease of transfer, excellent lumbar support and greater durability
- Upgraded foot rest and arm rest
- Standard adjustable padded headrest

The Spectra-Force Pressure Booster System option may be added to generate water pressure for the operation of the Gallatin WP400. The system consists of a ½ HP stainless steel centrifugal pump, hydro-pneumatic pressure sustaining tank, adjustable pressure switch, liquid filled pressure gauge, bronze check valve, fittings and connectors.

New construction requires preset anchor and water box. Installation into existing deck requires retrofit anchor.

Anchor sold separately.

Field measurements required. Download production worksheet on this item's page at RecSupply.com.

Motion Trek Series

The Motion Trek BP 350 is an ADA compliant **battery powered** lift that is self operable from the deck and water with a robust operating system. The Motion Trek 350 is designed for in-ground pools and spas.

Includes anchor.

Field measurements required. Download production worksheet on this item's page at RecSupply.com.

Features:

- Fully ADA Compliant
- 350 pound operating load capacity
- Self operable from the deck and water
- 90 lifts per battery charge
- All stainless steel construction (electropolished 304L grade)
- Coated with Spectra Shield® for maximum corrosion protection
- Stabilizer bar significantly improves lift stability during transfer
- Spacious seat with excellent lumbar support designed for ease of transfer
- Rotationally and vertically powered with 360 degree continuous powered rotation
- Proprietary Robust Operating System and Actuator outperforms the competition
- Accommodates pool wall setback of 6" to 22" and water draft up to 12"
- Easy to install, even into existing concrete decks
- Improved rotation system for a smooth ride

Swim-Lift® Lolo WP 400

The Lolo WP 400 is one of our stainless steel **water powered** assisted access lifts. It is designed to accommodate in-ground pools with a minimum deck-to-pool-bottom dimension of 42" (typically 36" water depth). The standard unit will accommodate various anchor distances from the pool wall.

- 400 pound operating load capacity
- **ADA/ABA compliant** and Title 24: California Code of Regulations
- Dual lift operating controls, allowing operation from the deck and/or the pool
- Dual anchor points for added stability—easy to install, even in existing facilities
- New seat design for greater ease of transfer, excellent lumbar support and greater durability
- Two armrests—outer armrest flips up allowing for horizontal transfer from a wheelchair
- Upgraded foot rest
- Standard adjustable padded headrest

The Spectra-Force Pressure Booster System option may be added to generate water pressure for the operation of the Lolo WP400. The system consists of a ½ HP stainless steel centrifugal pump, hydro-pneumatic pressure sustaining tank, adjustable pressure switch, liquid filled pressure gauge, bronze check valve, fittings and connectors.

New construction requires preset anchor and water box. Installation into existing deck requires retrofit anchor.

Anchor sold separately.

Field measurements required. Download production worksheet on this item's page at RecSupply.com.

Pool Access Equipment

6-Step Aqua Step ADA

Aqua Step ADA

The Aqua Step ADA meets or exceeds all ADA requirements. Like the Aqua Step HD the ADA model is designed for the harshest conditions. The treads are constructed of coated stainless steel and will withstand 600+ pounds. Some of the Aqua Step ADA features:

- **Warranty - Lifetime Structural Warranty, 1 year coatings and adhesives warranty**
- Deck Anchoring - No tools necessary once initially installed
- Lightweight - A single pool attendant can typically install and remove an Aqua Step ADA quickly when necessary
- Safety Side Guards - Optional safety side guards are available to prevent swimming under the stairs
- Special Features - The Aqua Step ADA is equipped with all of the specifications recommended by the ADA guidelines from both 1991 and 2010. 24" wide railings, 11" of exposed tread, shielding between the steps, railing extensions, etc., are all included in the Aqua Step ADA standard feature list
- Width: 24"

4-Step Aqua Step

Aqua Step

H2O Innovations Aqua Step is an incredibly lightweight and durable portable access system. The Aqua Step is more reliable and far easier to handle than any competitive product. The Aqua Step incorporates light weight molded plastic treads and can accommodate up to 300 lb individuals. The access system carries a 2 Year Structural Warranty. The Aqua Step is 100% rebuildable. The Aqua Step can be easily put in and taken out of the pool by a single pool attendant.

The Aqua Step can be ordered with step riser heights of 5", 6½", 7", 7½", 8" and 8½". Customers with special needs may require a smaller riser height to accommodate safe, easy pool entry. The price of the unit is dependent on the number of steps.

Where a pool gutter provides an installation challenge, a separate custom approach platform may be ordered.

Warranty: two year structural and one year coatings and adhesives.

5-Step ADA Easy Stair

EasyRec ADA Easy Stair

Fully compliant with ADA Guidelines for Accessible Design and NEC Bonding Codes, the ADA Easy Stair offers a proven and economical solution for pools that require a secondary means of pool access. The ADA Easy Stair serves the needs of a wide range of pool users including those with limited mobility, the elderly, expecting mothers, pre-teens and first-time recreational swimmers.

Lightweight fiberglass construction features quick and easy removal using the included dolly. The ADA Easy Stair is custom made to fit your pool and does not require mounting to the pool or pool deck. It ships assembled.

Specify color: **Light Blue, Blue or Gold.**

AquaTrek2 Pool Access Equipment

AquaTrek2 SADA Step System

The AquaTrek2 SADA Step System has the same quality of the standard AquaTrek2 step system with specific modifications to meet the ADA standards for 2nd entry method requirements.

The ADA Step System has no open risers, uniform riser height, 12" minimum tread depth, and maximum 24" width between handrails.

The ADA Step system comes with one "Tip-Away" side skirt for safety and ranges from a 5-tread to a 9-tread option for those deeper pools. The step system is ideal for frequent removal as it is easier to remove and install than other ADA Systems.

AquaTrek2 Ladder

Dignified, forward-walking access to your pool is accommodated with ease using the AquaTrek2 Ladder.

Wide treads and strong, metal-reinforced handrails provide stability and comfort. The AquaTrek2 Ladder is built of a noncorrosive metal skeleton encased in a rigid PVC skin.

Additional features include nonslip safety surfaces on step treads and built-in wheels for portability. Rated for 600 lb user weight capacity. **One year warranty.**

The ADA Compliant version of the AquaTrek2 Ladder is 24" wide and specifically modified to comply with current ADA regulations. Unique stepped handrail design offers unlimited hand positions for maximum user stability.

AquaTrek2 Ramp/Step

These removable units provide swimmers of all ages an easy way to enter and exit your pool. The AquaTrek2 Ramp allows individuals to either walk down a gentle slope or be wheeled into the pool. The AquaTrek2 Ramp is available in two configurations, Standard (for pools 48" and under from pool floor to deck surface) and Long (for pools over 48" from pool floor to deck surface).

The AquaTrek2 Step is available in 6, 7 or 8 tread models. Each model features nonslip safety treads and built-in wheels for easy portability.

Construction of AquaTrek2 Ramps and Steps is primarily of durable UV-stabilized PVC, encasing a noncorrosive metal skeleton.

AquaTrek2 ADA

Compliant Transfer System

The AquaTrek2 ADA Transfer System can be used as a primary ADA access point for leisure rivers, wave action pools, therapy pools, sand bottom pools, spas and other pools where access to the water is limited to one area. For use where every one gets in and out at the same place. The ADA Transfer System can also be used as a secondary means of ADA Access for large pools.

The AquaTrek2 Wheel Chair (shown, sold separately) makes a great accompaniment.

Item Number	Description
HHADAT550	ADA Compliant Transfer System

AquaTrek2

Wading Pool Ramp

Save the cost of rebuilding your wading pool by installing an AquaTrek2 ramp instead!

The AquaTrek2 WP-1500 wading pool ramp can help solve the sloped access ADA requirement for wading pools with either a flat bottom or linear slope. With handrails 30" apart at two separate heights, one for adults and one for children, a slip resistant surface and one tip-away side skirt for safety. The wading pool ramp will have a slope ratio that is technically feasible, readily achievable and is based on the ADA maximum extent feasibility requirement for your wading pool. Contact us for a pool and gutter profile form so we can help you see if your wading pool qualifies.

Item Number	Description
HHP150050	AquaTrek2 WP-1500 Wading Pool Ramp, 30" Width

Aquatic Wheel Chairs, Safttron Rails, and Handrail Covers

Aqua Creek Pool Access Chairs

Pool Access Chairs are an ideal solution for swimming pools with ramps or zero depth entries. These access chairs are constructed from medical grade PVC and feature an anti-tip design with non-rusting parts. Made to withstand harsh environments, they are great for use in showers, locker rooms and pool environments.

- EZ clean twin wheel casters
- Anti-tip design
- Non-rusting design for pool and shower environments
- Medical grade PVC construction
- Swing-out armrests

HP310XW76	Seat Belt Option		
HP426CS76	Chest Strap Option		

AquaTrek2 Wheel Chair

This totally submersible wheel chair helps provide independent accessibility for disabled people in and around your aquatic facility.

Features

- Retractable foot rest
- 7 and 24" mag wheels
- Vent holes for submersibility

Reduced seat depth version has a 17" seat depth which creates proper bent knee position for average height adults. Built from PVC with stainless steel fasteners, hand rims and swing arms. Also includes comfortable padded cushion seat. Reclining high-back models are also available with pricing on request. **One year warranty.**

Item Number	Description	Capacity
HHAQ25050	AquaTrek2 Reduced Seat Depth Wheel Chair	350 lbs

AquaTrek2 Beach Wheelchair

The AQ-1000 Beach Wheelchair has a weight capacity of 350 pounds. The rear proprietary aluminum forks and proprietary bushings are bearing free and turn easily on sand and many other terrains. The frame is constructed of UV rated furniture grade PVC with internal virgin aluminum pipe to maintain integrity strength on rough terrains like sand and parks or at the park with a beach.

Features

- Durable and lightweight
- Stainless steel axles and stainless steel fasteners
- No bearings, oil free
- Safe and comfortable
- Footrest, brake, seat cushion all included

Mobile Aquatic Chair

Mobile Aquatic Chairs (MAC) are essential for facilities utilizing a ramp, zero-depth entry or moveable floor. The MAC is built specifically for use in aquatic environments, with a powder coated stainless steel frame to resist corrosion and a swing-away arm for easy transfer.

The rigid rotomolded plastic seat aids in user transfer by providing a stable platform that can be used for transfer support. Rear stabilizer wheels eliminate the tendency of a chair to pitch forward or back while going down the ramp. 300 pound weight capacity. Powder coated stainless steel. Seat is 18" wide.

Item Number	Description
HHAC00012	Mobile Aquatic Chair

SAFTRON

Safttron Vinyl Rails and Ladders

Features:

- **New fully reinforced construction** provides for a more rigid and stronger feel while maintaining Safttron's signature durability
- Industry standard designs and sizes
- No rusting, pitting, or scaling
- Never gets hot
- Solid color throughout. Will not fade
- Impervious to pool chemicals
- Available in five standard colors (Black, Graphite Gray, Gray, Beige, Taupe and White)
- Custom designs and colors are available
- Fully encapsulated steel reinforcement
- Non-conductive
- NSF Approved material
- Easy to clean
- **5 year warranty**

S.R. Smith Commercial Grade Stainless Steel Anchors

- Marine grade 316 stainless steel provides high corrosion resistance for harsh pool environments
- Helps extend the life of pool deck equipment and keeps it looking newer
- Stainless steel products placed in stainless steel anchors resist the galvanic corrosion that can cause discoloration when dissimilar metals are placed together
- Ideal for commercial stanchion posts, games, ladders and rails
- Anchors include bonding screw and mounting holes for deck anchor channels

AUTHORIZED DEALER

Paragon Commercial Swimming Pool Ladders

Swimming pool ladders offer the most convenient method of pool entry wherever stairs cannot be used. Each ladder consists of two frames with treads bolted between them. All frames are made of corrosion resistant stainless steel and the heads of the bolts have flat rounded heads curved to fit the tubing of the frames. Ladders are fabricated from sturdy stainless steel tubing 1.900" O.D. in .065", .109" or .145" wall tubing thickness. Heavy duty ladders are for commercial and institutional use to withstand heavier usage.

Ladders are also available with cross braces for extra rigidity and strength.

All ladder styles which have the frames resting against the pool wall include rubber bumpers to prevent damage to the wall.

Anchor sockets and escutcheon plates are not included with ladders and must be ordered separately.

Paragon Grab Rails

Competition pools require unobstructed racing lines and steps built into the wall. Grab rails are necessary in order to use these steps safely. All grab rails are made of one continuous length of smooth, corrosion resistant, stainless steel pipe, 1.900" diameter, with wrinkle-free bends. The heavier the traffic, the heavier the tubing that you should select. Custom designs available upon request. Specification sheets also available on request. Priced per pair.

Order separately: 4 anchor sockets and escutcheon plates for each pair of grab rails.

AUTHORIZED DEALER

General Purpose "Figure 4"

Use this style if the deck is flat and without unusual curbs or coping.

Item Number	Wall Thickness
HH3010110	.145"
HH3010210	.109"
HH3010310	.065"

Adjustable

Front leg is adjustable in field so it can be set atop curbs or into gutters. Choose this model when unusual conditions will not permit use of other styles of grab rails.

Item Number	Wall Thickness
HH3030110	.145"
HH3030210	.109"
HH3030310	.065"

California

For use on pools with wide gutters or where the distance from the deck to the water is greater than usual.

Item Number	Wall Thickness
HH3040110	.145"
HH3040210	.109"
HH3040310	.065"

Pretzel Bend

Requires the least amount of deck width. Can usually be mounted on the pool wall rather than the deck slab. Has the most narrow profile as the legs are offset laterally instead of front to back.

Item Number	Wall Thickness
HH3020110	.145"
HH3020210	.109"
HH3020310	.065"

Ladder Treads and Accessories

Ladder Bumpers are sold per individual bumper.

Replacement Ladder Treads and Hardware

When ordering ladder treads, determine the part number by the following information:

- a. Exact dimension of ladder rails center to center
- b. Dimension inside to inside of ladder rail
- c. Tread material - Stainless Steel or Cyclac

#	Item Number	Dimension 'a'	Dimension 'b'	Brand	Material
A	HH4410410	18-1/8"	17-1/4"	Paragon 19" Sloping	White Cyclac
A	HH4410110	18-1/4"	17-1/8"	Paragon 19" Vertical	White Cyclac
B	HH4410910	25-5/16"	24"	Paragon 26" Sloping	White Cyclac
B	HH4410710	25-1/4"	24"	Paragon 26" Vertical	White Cyclac
C	HH4410210	18-7/8"	17-5/8"	Paragon 19" Vertical	Stainless Steel
D	HHDF10312	19-1/4"	18-3/16"	S. R. Smith 20" Vertical	S/S Tread with Plastic Endcaps
D	HHDF10512	19-1/4"	18-3/16"	S. R. Smith 20" Sloping	S/S Tread with Plastic Endcaps
E	HHDF11112	20"	18"	S. R. Smith 20" Vertical	White Blow-Molded Plastic
F	HH4207709	20"	18"	Generic 20" Vertical	White Blow-Molded Plastic
G	HP4167709	5/16" Curved Head Bolt/Nut/Washer set for plastic tread (F). 2 nuts, 2 bolts, 2 washers.			
H	HP6070212	Nut/Bolt set for S. R. Smith Elite Treads (D). Includes 6 nuts and 6 bolts.			

S/S = Stainless Steel. Paragon treads come complete with nuts/bolts/washers. S.R. Smith Treads require that nuts/bolts/washers are purchased separately if needed.

Ladder Bumpers

J. Nev-Off Ladder Bumper—The Nev-Off rubber overhang ladder bumper is a expansion wedge system that locks the male style bumper in place with the tightening of a screw. Nev-Off prevents pool ladders from making gouges in concrete and fiberglass, rips in vinyl, or holes in plaster. Tighten the wedge and it is practically impossible to remove. Fits 1.9" OD ladders. **Color: White**

J. Expand-N-Lok Bumper—Prevents pool ladder from making holes in plaster, rips in vinyl, or gouges in fiberglass walls. Expand-N-Lok locks in place and is practically impossible to remove once the ladder is installed. **Color: Blue**

K. & L. Rubber Ladder Bumpers—Prevent ladder end gouging into wall. **Color: Natural**

#	Item Number	Description
J	HPN000150	Nev-Off Ladder Bumper (each)
K	HP100EX12	Expand-N-Lok Bumper (each)
L	HPB100A12	Rubber Ladder Bumper—Male (each)
M	HP4420110	Rubber Ladder Bumper—Female (each)

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Rails, Steps and Anchors

Paragon Heavy Duty Stair Rails

Stair rails should be used at all entry steps. They are a necessary safety feature to allow safe entry and exit from the pool. Two bend rails should be used if the upper anchor can be located 12" or less from the vertical wall of the pool. Three bend rails should be used if the anchor is located more than 12" from the pool wall.

Two and Three Bend Rails

Item Number	Wall Thickness	Bends	Dimension A
HH3410110	.065"	2	48"
HH3410210	.065"	2	60"
HH3410310	.065"	2	72"
HH3420110	.065"	3	48"
HH3420210	.065"	3	60"
HH3420310	.065"	3	72"

Paragon Sloping Stair Rails

Provides a handhold for in-pool stairs without the need for an underwater anchor socket. Stainless steel rail is .065" x 1.9" OD. Horizontal width is 4 1/2'.

Item Number	Description
HH3430110	Sloping Stair Rail
HH3430710	Welded Sloping Stair Rail

Recessed Steps

Stainless Steel – 14 gauge type 304 stainless steel, all welded construction. Inside is sandblasted for a slip-resistant surface. Dimensions: 15" W x 5" H x 6" D

Cyclac – Injection molded plastic. Furnished white with pebble texture 1/4" nominal thickness. Dimensions: 15 1/2" W x 5 3/4" H x 5 3/4" D

Item Number	Description
HHRS175	RSC Stainless Steel
HH9400112	S.R.Smith Cyclac

Manhole Steps

- Molded hand grips and bright red reflectors
- Injection molded of Polypropylene
- Quick and easy drive-in installation
- Pullout force in excess of 1500 lbs.
- Leg centers: 13"

Item Number	Description
HHP485050	15-1/4" Manhole Step - Polypropylene

4" Anchor Sockets

4" cast bronze with locking bronze wedges and stainless steel bolt. For 1.9" OD ladders and rails.

Item Number	Description

Slides and Climbing Walls

SR Smith™

Vortex® Slide

- 10' 7" height (7' 6" to seat)
- 19' corkscrew runway
- Available with ladder or spiral staircase
- Accommodates sliders up to 325 lbs/147kg
- Sturdy rotomolded construction for strength and durability
- 30 gpm max. water delivery system can be plumbed through the pool's return line
- Intended for use on in-ground swimming pools only

Big Time, fun slide! The Vortex slide from S. R. Smith has a high-volume water delivery system. This heavy-duty slide will accommodate up to 325 pounds. The flume is available in **Blue and Gray Granite**, with a primed base. Choose closed or open flume and ladder or staircase designs to customize to fit your application.

The Vortex fully conforms to the Consumer Product Safety Commission Safety Standard for Swimming Pool Slides (Part 16 CFR 1207).

SPECTRUM®
Aquatics
A PLAYCORE Company

Kersplash™ Climbing Walls

Add adventure to your aquatic area with a poolside climbing wall. Kersplash™ is suited for indoor or outdoor use and is available in two panel styles. Kersplash™ Crystal Clear™ complements any aquatic center and offers visibility to areas behind the wall. Kersplash™ climbing walls are made from UV- and chlorine-resistant materials and feature red, yellow and orange Groperz™ Hand Holds. The Kersplash™ frame is constructed of high-quality, 100% passivated stainless steel to withstand harsh pool environments.

Climbing increases fitness levels through development of strength, coordination, cardiovascular endurance and muscle endurance. It also provides participants with positive risk taking and creative problem solving.

Kersplash™ package includes:

- Kersplash™ panels
- Top guard panel
- Stainless steel structure
- Groperz™ hand holds with stainless steel mounting hardware
- Kersplash Rules & Guidelines sign
- Safety, care and maintenance instructions

Facility Requirements:

- 35" of deck space
- 4' of clearance behind the wall for a walkway
- 5' to either side of your wall
- 10' drop zone*
- Pool depth determines the height of the wall

*Note: A designated "drop zone" is recommended at the base of Kersplash™ to keep swimmers out of this area.

Item Number	Panel Style	Section Heights

HH607050	4' x 6'	Truck

Available in custom sizes. Call for a price quote.

SlideRenu®

SlidePad Chlorine-Resistant Aquatic Landing Pad

Commonly used landing pads cannot compare to the safety, durability and slip-resistant properties of SlidePad®. Unlike traditional landing pads made of PVC pool liner, SlidePad® does not require metal fasteners, bolts or screws to install, making it a safer solution for your water park guests.

VERSATILE: Indoor or outdoor use. Install at the end of slides, pool bottoms or any area requiring slip-resistant, safe landings.

WATERPROOF, DURABLE CONSTRUCTION: No moving parts! SlidePad® is a single unit comprised of a high density closed cell EVA foam that will not float, crack or discolor above or below the water line.

SlidePad® white foam rubber edges will not crack at the seams or corners. Installed WITHOUT external fasteners, screws or anchor bolts that compromise the safety of your guests or create holes in the bottom of your pool which can cause leaks and cracks in the pool surface. **Standard Life Floor® color: Bluebird.**

SlidePad® has an unlimited number of color combinations to match the theme of your water park or create a design of your own. Custom color schemes, shapes, designs and pad sizes are also available. Contact us for more information.

Features:

- Life Floor® slip-resistant ripple texture landing surface is extremely soft and meets NSF/ANSI 50 critical fall height requirements
- Standard border color is white, but may be customized to any Pantone color shade
- No bolts, screws or external fasteners provide a safer landing experience
- Easily adheres to any surface
- Resilient to impact, Life Floor® landing surface retains slip-resistant texture
- Fade-resistant, low maintenance, and waterproof
- Hygienic, fungi-static and algae resistant
- DIY installation using the strongest glue on the planet from Nordot® Adhesives
- Includes installation kit: Nordot® adhesive, trowel, and waterproof edge seal

Commonly used landing pads cannot compare to the safety, durability and slip-resistant properties of SlidePad®. Unlike traditional landing pads made of PVC pool liner, SlidePad® does not require metal fasteners, bolts or screws to install, making it a safer solution for your water park guests.

Viro-Shield™

- Made from pure Hydrogen Peroxide (H2O2)
- Effective natural oxidizer, cleaner, deodorizer and anti-microbial solution
- Cleans and disinfects hard, non-porous surfaces to destroy essential components of germ cells and deactivate a wide range of micro-organisms

Item Number	Size
CCSR62850	Gallon

SlideRenu Water Slide Maintenance Products

Scale Removers and Cleaners

Calcitrol™

- Low-PH concentrated ready-to-use formula removes calcium and hard water mineral deposits (white haze)
- Prepares your slide for waxing, joint repairs or resurfacing
- Environmental and worker safe organic salt formula that is stronger than most surface damaging acids

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR33150	Gallon	1,000	Monthly

SlideDetergent™

- High-pH water-based technology that dissolves hard-to-remove surface contaminant
- Extremely effective in dissolving dirt, leaf stains, body-grime, water shoe marks and other unwanted surface residue
- Biodegradable - no VOC's, petroleum solvents, bleach or ammonia

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR22150	Gallon	1,500	Monthly

SlideSoap™

- Removes dirt, grime and stains from any slide surface
- Used regularly, prevents build-up of surface contaminants and soluble salts
- Biodegradable, worker safe, no VOC's - does not change the pH of pool water

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR11150	Gallon	10,000	Weekly

SlideArmor™

- Synthetic film-forming protective sealant that bonds to the slide's surface
- A single application is guaranteed to last an entire season
- Use to winterize slide to protect from harsh elements

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR77150	Gallon	1,000	Semi Annually

SlidePrep™

SlideWax Remover

For use on fiberglass, metal, plastic and concrete surfaces such as, but not limited to, water slides, aquatic and soft play features and water slide towers.

Item Number	Size
CCSR67150	Gallon

StairBrite™ Stair Brightener

- Brightens aluminum stair treads without tedious scrubbing
- Easy to use spray-on/rinse-off mild etching cleaner
- Deep penetrating foaming formula removes oxidation, dirt, grime and hard-to-remove surface contaminants
- Keeps stair treads looking like new the entire season

Item Number	Size
CCSR71150	Gallon

Slide Waxes

SlideCompound™

- Water-based polishing oxidation remover/polishing compound
- One gallon will typically polish 2,000 sq ft
- Should be used prior to opening day and immediately after the water slide is shut down for the season
- For maximum protection, apply SlideWax™ on top of SlideCompound

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR44150	Gallon	2,000	Quarterly

SlideWax™

- Unique nanotechnology polymer wax sealant that revives dull slide surfaces
- One application lasts the whole season
- Outperforms carnauba, car and marine waxes
- Reconditions dry oxidized surfaces

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR66150	Gallon	2,000	Quarterly

SlideGloss™

- Easy to apply sprayable wax requires no buffing; wipe on and wipe off
- Unique wetting agents produce a bright wet-look shine that lasts
- Can be applied anytime your slides are in need of a quick "face lift"
- Improves "slip-n-shine"

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR55150	Gallon	4,000	Weekly/As Needed

Repair Products

SlideCaulk™

Water Resistant Sealer

SlideCaulk™ Water Resistant Sealer is a fast curing, one-part polyurethane that chemically reacts with moisture to deliver strong, flexible bonds with excellent adhesion to wood and fiberglass. Forms watertight, weather-resistant seals on joints and hardware above and below the waterline. In addition, its flexibility allows for dissipation of stress caused by shock, vibration, swelling or shrinking.

Item Number	Size
CCSR01150	10 oz

SlidePutty™

Polyester Glazing Putty

Polyester glazing putty fills minor surface imperfections on fiberglass water slides. Use to repair gouges, scratches, spider-cracks and surface blemishes without the use of a mesh cloth. No shrinkage, fast drying and may be sanded/painted after one hour.

Item Number	Size
CCSR11050	Quart

Paragon Diving Stands

AUTHORIZED DEALER

Paragon Diving Towers

Paraflyte diving towers are a family grouping closely related in styling and detail. Each is available in One Meter and Three Meter models, and upon request, ½ and ¾ Meter.

Each of the three Paraflyte towers is also available in several different grades. The variation among the grades applies only to materials. There are three different grades—Ultraflyte, Superflyte and Topflyte. **Ultraflyte** is the top grade and all tube is 1.90" O.D. x 0.145" wall T304 stainless steel. **Superflyte** is a general-purpose middle grade and all tube is T304 stainless 1.90" O.D. with a wall thickness range of 0.145", 0.109" or 0.065". The wall thickness of each member is dependent on structural requirements. **Topflyte** is the economy grade and all tube (with the exception of the flexural members) is T304 stainless steel tube 1.90" O.D. x 0.065" wall. The members requiring additional strength are T304 stainless steel tube 1.9" O.D. x .145" wall.

Each tower is designed for diving boards 14 or 16 feet long and is furnished complete with pedestal, front anchor, rear anchors, fulcrum and railings. These can be varied to suit specific job requirements or specifications. Individual specification sheets are available for all models on request.

Diving equipment shown here should be used only on pools that conform to state or local codes, FINA, NCAA, NFSA and US Diving standards. These specify minimum dimensions for depth of water, length and shape of diving hopper, location of diving boards with respect to side and vertical clearances, and any other requirements.

Diving boards sold separately.

Paraflyte Ladder at Rear

Our best selling, general purpose model, suitable for competition and larger commercial or institutional pools. May be installed indoors or outdoors. Available in One Meter or Three Meter height with flanged pedestal. Includes rails, geared adjustable fulcrum and rear swivel. Optional anchors available.

Sportflyte

An economy model designed for wood diving boards and recreational pools only. (Not suitable for competition). Fulcrum is adjustable (but not geared). Side frames are welded and extend to pool face. Available in ½ Meter, ¾ Meter, One Meter, or Three Meter with flanged pedestal.

Item Number	Height	For Diving Board Length
HH1350110	3 Meter	For 16' Diving Board
HH1350210	3 Meter	For 14' Diving Board
HH1351110	1 Meter	For 16' Diving Board
HH1351210	1 Meter	For 14' Diving Board
HH1351710	¾ Meter	For 12' Diving Board
HH1350710	½ Meter	For 10' Diving Board

Paraflyte Ladder at Side

Recommended whenever deck space is limited and particularly for natatoriums. Requires 3' less deck space than towers with ladder at rear. Access ladder can be mounted on either side. Available in One Meter or Three Meter height with flanged pedestal. Includes geared adjustable fulcrum and rear swivel.

Ultraflyte

HH3203R12	Right Mount

Frontier III Commercial Fiberglass Diving Board

These boards are the safest you can use...no twist or torque, faster recovery and a permanent nonslip tread means a safe, fun dive every time. Here is how it is done:

- The full width core of select, laminated Douglas Fir eliminates any torque or twist problems
- A molded fiberglass covering completely encases the core providing strength with maximum flexibility
- Heavy reinforcement with additional fiberglass, molded to the core at the fulcrum area, makes this a board that will give you trouble-free service under heavy continuous use
- A mirror smooth finish of colored resins gives this board a lasting beauty that will not fade or deteriorate
- **SANITREAD** non-slip top surface that resists wear. The safest diving surface ever devised

All boards ship complete with mounting kit.

Color: Radiant White (stock color), Marine Blue.

Item Number	Length	Width	Ship Wt.
HH0961012	10'	20"	88 lbs
HH0961212	12'	20"	110 lbs
HH0961412	14'	20"	190 lbs
HH0961612	16'	20"	230 lbs

Swim Club Commercial Fiberglass Diving Board

The Swim Club board is the ideal mid-range board for commercial pools. It has a durable acrylic outer body and a slip-resistant tread. Boards ship complete with mounting kit.

Color: Radiant White (stock color), Marine Blue.

Item Number	Length	Width	Ship Wt.
HH0922012	10'	20"	100 lbs
HH0922212	12'	20"	125 lbs
HH0922412	14'	20"	200 lbs
HH0922612	16'	20"	230 lbs

Olympian™ Commercial Aluminum Diving Board

Exceptional durability, outstanding action. Proven "1" Beam extrusions are epoxy glued with welded end construction.

Available in beautiful tile blue or white long lasting finishes. Safe, nonslip surface that resists wear. All boards ship complete with mounting kit. **Specify color when ordering: Radiant White (stock color) or Marine Blue.**

Item Number	Length	Width	Ship Wt.
HH0931012	10'	20"	78 lbs
HH0931212	12'	20"	98 lbs
HH0931412	14'	20"	190 lb
HH0931612	16'	20"	206 lbs.

Split Fulcrum Cover Pad

The 18" fulcrum cover is extruded of 60 durometer white rubber. The top is flat with a grooved surface to control vibration of the diving board. Accepts 1.90" O.D. tubing.

Item Number	Ship Weight
HHC100A12	2-1/2 lbs

Diving Board Mounting Kit

Stainless Steel tie-down plates and neoprene gaskets have two square 3/8" x 3/8" holes on 12" centers. Complete with carriage bolt, hex nut and lock washers.

Item Number	Width	Compatible With
HH0990312	18"	10' and 12' boards
HH0990412	20"	14' and 16' boards

Diving Board Repair Kit

The diving board repair kit is for refinishing worn diving board surfaces. Each kit contains one quart of Convoy epoxy nonslip coating, one textured roller cover, one pint of solvent and an instruction sheet. One kit contains material sufficient for 25 sq. ft. **Not for use on Duraflex boards.**

Item Number	Color
KKU10018	White
KKU10118	Blue Ice
KKU10218	Bikini Blue

Note: Only one person on diving board at a time, with a maximum weight limit of 250 pounds. Fiberglass boards must be tightened between 20 and 25 ft. lbs.; Aluminum boards, 35 to 40 ft. lbs.

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Duraflex Diving Boards and Stands

Duraform Stands

Duraform diving board stands are the result of design and engineering focused on stability, low noise level, safety and ease of installation on new or existing decks.

- Duraform's "Eiffel Tower" non-cantilevered design provides a more stable base for the fulcrum than most other diving platform structures
- The patented Duraform fulcrum replaces the conventional rack and gear type fulcrum with precision tracks and slide bearings that reduce hardware "clatter" as much as 80%
- Hinged board anchors allow easy tilting of the board up to 180°
- All structural members are heavy aluminum castings. All working parts are heat-treated high strength anodized aluminum forgings or extrusions. Roller, slide and hinge bearings are field replaceable nylon, adjustable for wear. Duraform fulcrum and anchor units have been chosen by serious competitors world wide for years

Three Meter Stand

Many new features enhance the usability and appearance of the Duraform 3M Stand. The ladder is thicker and 50% heavier, providing a more stable base for the diving board. The shape of this new ladder is designed to put more support directly under the mounting location of the diving board, which further enhances the stability. Divers will immediately notice the improved feel of this ladder.

The ladder has built-in handrails that provide a comfortable grip as the diver ascends the ladder. The steps are a new, wider, more comfortable design, featuring a replaceable slip-resistant slotted tread that matches the Duraflex competition diving board. The addition of one step, the decreased step angle, and the consistent spacing of the steps make this ladder very easy and comfortable to use.

Deck area used: 72" x 155".

Item Number	Guard Rails	Ship Wt.
HH3130042	Double on 2 sides	740 lbs

One Meter Stands

The One-Meter structures are manufactured in five different heights to accommodate from -1" to 13" (within US Diving tolerance: 1M +/- 2"). The deck elevation above water-level dimension of the pool and deck slope must be indicated when ordering.

Deck area used: 30" x 135".

Item Number	Guard Rails	Ship Wt.
HH3140042	Double on 2 sides	445 lbs

Short Stand

Duraform Short Stands have fulcrum units identical to the One and Three Meter Stands and identical guard rails and anchoring units. They are designed for use on concrete supports or platforms at either One or Three Meter level.

Item Number	Guard Rails	Ship Wt.
HH3152042	Double on 2 sides	320 lbs
HH3152442	No guard rails	140 lbs

Anchor Kit

6 anchors are required for the Short Stand; 8 anchors are required for the One and Three Meter Stands.

Hilti Anchor Kit

For use with existing decks. Kit includes dispenser, 2 foil packs of adhesive, 2 mixing nozzles, 2 nozzle extensions, 8 stainless steel threaded inserts, hole cleaning brush, and instructions. May also be purchased without dispenser. A questionnaire must be filled out for each kit purchased.

Ships Hazardous.

Item Number	Description
HP3190042	Anchor for Duraflex Stand
HP90642	Hilti Anchor Kit with Dispenser
HP90742	Hilti Anchor Kit without Dispenser

Duraflex Diving Board

Acknowledged as one of the finest aluminum boards, the Duraflex is found at the leading competitive pools. It tapers from tip to fulcrum and then maintains the thicker section from fulcrum to butt. Width: 19%".

Maxiflex Model B Diving Board

An improved version of the double tapered Maxiflex. The top surface is perforated to reduce aerodynamic drag during flexing and rebound. There are approximately 200 perforations measuring approximately 1 1/2" long and 1/4" wide, extending 25" back from the tip end of the board. Available in 16' length only. Width: 19%".

Item Number	Description	Ship Wt.
HH3132442	14' Duraflex Board	145 lbs
HH3132642	16' Duraflex Board	165 lbs
HH3133042	16' Maxiflex B	160 lbs

Item Number	Length	A"	Thickness	Bolt Size	Ship Wt.

HH3132642	16'	78"	2-1/16"	5/8" Dia.	165 lbs
HH3133042	16'	73"	2"	5/8" Dia.	160 lbs

Duraflex Diving Board Refinishing Services

Replace the slip-resistant surface on your diving board before a slipping accident occurs. The length of time before refinishing becomes necessary depends on the amount and kind of traffic, care in handling and storage, environmental conditions and following the maintenance instructions. If the diving board is slippery, take it out of service immediately and contact a Duraflex dealer for refinishing.

Examine your board carefully for gouges and cracks. Duraflex will not refinish any board with the following issues:

- Any cracks in the ribs, surface, slots, or torsion box
- Excessive corrosion anywhere on the board
- Structural damage due to improper installations, handling or any other reason
- Excessive material applied to the board including paint of any kind
- Excessive droop. Excessive droop happens when a board takes a permanent downward bend largely due to trampolining the board. Because FINA no longer allows a minus dimension in board-to-water height, anything over one-inch droop will be considered excessive

Charges for Refinishing include a Board bolt kit & new Rubber Channels. Photos may be required prior to shipping to Duraflex for refinishing. Duraflex will require the board in their factory for approximately 4-6 weeks.

Item Number	Description
HHREFIN42	Diving Board Refinishing Service

Duraflex Step

The Duraflex Step features a two-piece design that allows replacement of the slip-resistant tread without the need to disassemble the ladder. The aqua-colored tread features the same high-quality slip-resistant surface as Duraflex springboards. With a nearly two-fold increase in surface area, divers will immediately notice the increase in comfort when using this new step. This step is now standard equipment on all Duraflex ladders and can be installed as a replacement on 1-meter ladders.

Item Number	Description
HHC21142	Step Assembly
HPC21142	Insert and Fasteners only

Duraflex Parts

We stock a broad selection of Duraflex parts. Please visit RecSupply.com to shop for common Duraflex parts and accessories. Contact us for any unlisted items.

NOTICE

Duraflex diving equipment should be installed only in facilities whose diving wells comply with all aspects of either the FINA, USA Diving, or NCAA diving well standards or whose dryland space complies with the FINA dryland diving standards. Copies of the FINA, USA Diving, and NCAA standards are available at no charge at www.fina.org, www.usadiving.org and www.ncaapublications.com, respectively.

Installing diving equipment in any facility that does not meet FINA, USA Diving or NCAA facility standards significantly increases the risks of catastrophic personal injury or death due to the increased likelihood of a diver making contact with the facility or pool ceiling, walls, or floor, or other equipment in the facility. The risk of personal injury includes the risk of death, paralysis, brain damage, and other significant injuries.

When ordering Duraform Stands, indicate deck-to-water dimension, length, and type of board to be used. Questionnaire may be downloaded from www.recsupply.com. Order anchor set separately.

Stainless Steel Moveable Pool Divider Bulkhead

Are you getting the most from your pool?

Successful aquatic facilities are those that appeal to a wide variety of patrons. The addition of a Eureka moveable swimming pool divider bulkhead can maximize your programming options. A single pool can serve your community for swimming instruction, competition, diving, water polo and even canoeing, scuba or fly-fishing instruction!

Boost your income and improve your programming variety with our swimming pool bulkhead. Please contact us for specifications or a prompt quotation on our made-to-order bulkheads.

Solid and Reliable

This on-demand innovation greatly increases the stability of our bulkheads, in contrast to bulkheads that use closed-cell foam type flotation devices which can be less predictable. For strict quality control purposes, the entire bulkhead is produced in one piece in our own manufacturing facility and shipped complete directly to the project.

For complete specifications, or to receive a prompt quotation, please contact our sales engineers at 1-800-437-8072.

Easy Maneuverability

Unique design factors combine to make our bulkheads extremely easy to move with a minimum of personnel. The bulkhead's vertical surfaces feature a flow through design which allows for easy maneuverability with a minimum of resistance in full pools.

Wave bounce-back and turbulence is virtually eliminated when our bulkhead is used to determine race lanes, and the bulkhead will not impede uniform water filtration. Another convenient feature of our bulkhead is the variable air injection/purge buoyancy chambers that reduce the effective weight of the bulkhead when repositioning within the pool. Our bulkheads are readily maneuvered into position without special equipment.

Options

Eureka movable swimming pool bulkheads are custom designed and fabricated to meet the needs of your facility. Many options, such as high load capacities, starting platforms, and benches are available in accordance with your specific needs.

Conquest Mid Profile

Universal Anchor System

Quikblox Conquest Starting Platform

New style Conquest Starting Platform. Platform top (24" x 32") and pedestal are constructed from non-corrosive fiberglass. Contoured pedestal base mounts flush to the pool deck or to the top of your bulkhead, to prevent rocking. Patented rotational anchoring system will adapt into any existing starting platform anchors currently available, making installation less expensive than cutting an existing deck to install new anchors. Quikblox platform anchors are available for new deck installations or retrofits. Platforms are available in 3 heights – Low Profile, Mid Profile, and High Profile, which are based on your pool deck-to-water level dimensions. Includes: powder-coated aircraft aluminum backstroke bar and fiberglass rear step. Available options include: Quikblox Anchor, Side Handles, Multi-Adjustable Rear Foot Fin System, integrated speaker, and integrated deck plate. Custom colors and custom vinyl graphics also available. Deck anchor and side handles sold separately. **Please contact us for pricing.**

Features:

- Innovative multi-adjustable rear foot fin design
- 3 profile options. Choose from low, mid or high profile models for adherence with FINA standards
- Angled or H-style backstroke bars. Faster starts mean more personal bests and team records
- Universal anchor system fits any existing starting platform anchor
- Logo/Branding opportunities. High-visibility signage opportunities for team pride and/or corporate sponsorships
- Meets FINA, NCAA, and USA Swimming regulations

Item Number	Description

HPMAREFS50	Optional Multi Adjustable Rear Foot Fin System

Paragon Starting Platforms

AUTHORIZED DEALER

Paragon Starting Platforms

Each Paragon starting platform frame is a single weldment manufactured of high-grade stainless steel, polished and buffed to a 320 grit finish. All welds are electrochemically passivated for maximum corrosion resistance. Each top is a solid sheet of 1.25" high density, UV-inhibited polypropylene with a patent-pending, cross-grooved, non-skid white sand finish.

When choosing a starting platform, your first consideration should be (1) the size of the platform top. Depending on the size (2), you have a choice of single (Paraflyte or Quickset Anchor) or dual legs. (3) Select the anchor style (Paraflyte, Quickset or Competitor). (4) Then select color and graphics (standard sand finish is white). (5) Finally, select the specific model.

All Paragon platforms are furnished with anchors and a 10 degree tilt top unless specified when ordering.

Please browse product pages on RecSupply.com or contact us by phone for the Paragon Starting Platform Worksheet which must be filled out for each platform order.

"B" dimension = distance from the inside pool wall to the centerline of the anchor.

24" x 32" Track Start Tops

Track Start Model (Full Height)

The 24" x 32" top supports the track type start now used by many competitive swimmers. Competitor models include the same features as our Competitor and Long Reach Competitor Models to offer greater stability and to accommodate a variety of gutter configurations.

Item Number	Description
HH245XX10	Competitor, Side mount, B=18" or 24"
HH245LR10	Competitor, Rear mount, B=36" to 40"
HH245QQ10	Quickset, B=21" to 26"

20" x 24" Standard Tops, Full Height, Single Leg

Standard Full-Height Model

Fits most pools except those with unusual features.

Item Number	Description
HH221PP10	for Paraflyte Anchor
HH232QQ10	for Quickset Anchor

Long Reach Full-Height Model

For deck level pools with wide overflow gutter systems.

Item Number	Description
HH224PP10	for Long Reach Paraflyte Anchor
HH234QQ10	for Quickset Anchor

20" x 24" Standard Tops, Competitor Dual Leg

Varsity Competitor Model (Low Height)

Accommodates NFSA 18" ruling. Dual legs give greater stability. Furnished with tilted top only. Ship with new Dual-Wedge Competitor Anchor.

Item Number	Description
HH240XX10	with anchor
HH240LL10	without anchor

Competitor Full-Height Model

Dual legs give greater stability. Ship with new Dual-Wedge Competitor Anchor.

Item Number	Description
HH230XX10	with anchor

Long Reach Competitor Model (Full Height)

For pools with wide overflow gutter systems. Dual legs with stiffeners and a special deep anchor system offers greater stability. "B" is the horizontal distance from vertical pool wall to the intended position (center line) of the anchor. Ship with new Dual-Wedge Competitor Anchor.

Item Number	Description
HH244XX10	B measurement under 30"
HH243XX10	B measurement 30" or over

Paragon Starting Platforms

Track Start Plus+™ for Track Start Platforms

Enhancement kits for Track Start platforms. Adding these components to your existing Paragon Aquatics Track Start Platform is a seamless upgrade. The adjustable backplate can be used with or without a Relay Judges Platform.

Item Number	Description
HH2750010	Adjustable Backplate Kit (White footrest)
HH3994C10	Color Option for Backplate Footrest
HH2750110	Side Hand Grip Kit (White grips)
HH2399510	Color Option for Side Hand Grip Kit

Track Start Plus+™ for Standard Platform Tops

This backplate can be adapted to new or existing Quickset/Paraflyte and Competitor style platforms seamlessly. The side-to-side adjustment allows for unimpeded rear access and gives the swimmer flexibility for a better take-off.

- Adaptable frame and track constructed of black powder coated T304 stainless steel.
- Non-skid, white sand finish.
- UV inhibited polypropylene construction.
- Color options available for frame and sand-finish kick plate.

Item Number	Fits these platform styles:	Shipping Weight
HH2751010	Quickset/Paraflyte	20 lbs
HH2751210	Competitor	20 lbs

Colorado Blocks

These starting blocks are modified for use with Colorado Timing Systems' Relay Judging Platforms (RJPs) and timing equipment. To create your Colorado Block, add an Adapter Kit and a Colorado Time Systems Equipment package to each starting block.

Colorado Block Platform Adapter Kits

Sponsor's panel of plastic or stainless steel fits on platform's slide brackets to display sponsor info or school logo. Also includes horn and deck plate mounting brackets. Panel slides open for easy access to horn and deck plate. It is removable from the starting platform without tools.

Includes: hardware, quick connectors, instructions, drill bit for retrofits and sponsor's panel slide brackets. These can be factory installed on new starting platform orders or easily retrofit for field upgrades.

Item Number	For These Block Models
HH2670D10	Track Start Competitor (Side Mount)
HH2671D10	Track Start Long Reach (Rear Mount)
HH2672D10	Track Start Quickset
HH2673D10	Long Reach Competitor
HH2674D10	Standard Paraflyte/Quickset
HH2675D10	Standard Competitor

Colorado Time Systems Equipment

The Colorado Time Systems kit includes a Relay Judging Platform (RJP), horn, and connector plate for Paragon starting platforms.

Item Number	For These Block Models
HH2670E10	Track Start 24" x 32" top
HH2673E10	Standard/Competitor 24" x 20" top

Paragon Platform Anchors

Paragon starting platforms are internationally acclaimed by coaches and competitive swimmers alike. They have a variety of different models and anchoring systems available to meet your every need. Paragon starting platforms are widely used on FINA, NCAA, NFSHA, USMS, USS and competition pools.

Dual-Wedge Quickset Anchor – The Quickset Anchor has been improved and now features a combination of a patented taper-lock base and dual-acting wedge that eliminates front-to-back and side-to-side movement. An integral adjusting knob is easily turned by hand to install or remove the platform without tools. Anchor body is constructed of heavy duty T304 stainless steel and includes cover.

Dual Wedge Competitor Anchor – Paragon's two-leg model anchor has been redesigned for greater support and improved operation. It now has the same locking features as the Dual Wedge Quickset Anchor with the advantage of two legs. The heavy duty cast stainless body features the patented taper lock in combination with the wedge/knob assembly. (B = Horizontal distance from vertical pool wall to the intended position (center line) of the anchor.)

Paraflyte Anchor – Single-legged starting platform is bolted to this deck anchor. Requires a wrench for installation and removal of the starting platform.

Long Reach Paraflyte Anchor – Single-legged platforms are bolted with four bolts to this heavy duty anchor. Tools are required for installation and removal of the starting platform.

Item Number	Description
HH2330210	Dual-Wedge Quickset Anchor
HH23103DW	Dual-Wedge Competitor Anchor B<30"
HH23140DW	Dual-Wedge Competitor Anchor B>29-1/2"
HH2220110	Paraflyte Anchor
HH2250110	Long Reach Paraflyte Anchor

HH2396710

HH2396010

Platform Safety Cover

Keeps unwanted users off starting platforms. The cover is constructed of tough, lightweight plastic making it easy to put on and take off. Starting platform sold separately.

Color: Safety Orange (per ANSI standards)

Item Number	Description
HH2396010	24" x 20" Standard
HH2396710	24" x 32" Track Start
HH2396910	24" x 32" Track Start Plus+

Colors and Custom Logos

All Paragon starting platforms are available in any color in the Pantone Matching System (standard sand finish is white). Pedestals may be powder coated upon request. Please contact us for available color selection.

There is an additional charge for custom color matching if PMS color number is not available. All prices are per starting platform.

Item Number	Description
HP2399010	PMS Color upgrade for platform top
HP2399110	Custom Logo Upgrade
HP2399210	Powder coated pedestal upgrade

Platform Top Refinishing

Refinish your existing Paragon starting platform tops with the new sand/groove configuration.

Item Number	Description

S. R. Smith Starting Platforms

Velocity Side Mount with Track Start

Velocity Side Mount without Track Start

Velocity Dual Post Side Mount with Track Start

Velocity Dual Post Long Reach Side Mount with Track Start

S.R. Smith Velocity Series Starting Platforms

Engineered with RTM technology, the footboard has outstanding strength as well as a sleek, uniform, hi-tech appearance. Compatible with Colorado & Daktronics timing systems. The powder-coated, stainless steel frame is secured to the pool deck with the patented RockSolid® anchor to eliminate platform movement.

- Available with TrueTread™ or sand tread
- Optional 5-position Track Start wedge tucks under footboard when not in use
- Optional side handles offer an additional starting technique for advanced swimmers
- Patented RockSolid® anchoring system
- Retrofits onto existing S.R. Smith Legacy frames
- Custom colors and logos available on sand treaded footboards for an additional charge. Standard sand tread color is white
- Meets FINA, NCAA, NFSHSA, USMS, USAS competition pool rules and guidelines
- Anchor sold separately

Velocity Advantage Series Starting Platforms

Designed for fast, solid starts, the Velocity Advantage Starting Platform is the next generation of starting blocks. The fiberglass footboard has outstanding strength and is mounted to a marine grade HDPE composite base. Custom color treads and team logos available on sand tread footboard models. Compatible with Colorado & Daktronics timing systems. Meets FINA, NCAA, NFSHSA*, USMS, USAS competition pool rules and regulations.

- Well suited for bulkheads and end walls with 8" to 13 1/2" (20cm to 42cm) deck to water heights
- 5-position Track Start wedge tucks under footboard when not in use
- *NFSHSA rules do not allow use of backstroke ledge
- Patent pending integral backstroke start ledge is adjustable to five positions
- Three built in backstroke handholds – two center positions and one on each side
- The marine grade HDPE composite base easily mounts to pool decks or bulkheads with minimal drilling
- Platform surface is 28" x 32"
- Anchor sold separately

RockSolid® Anchor

RockSolid® adjustable single post anchor has an innovative wedge design that ensures stability. When the anchor is tightened, the internal wedge system will expand and exert continuous, even pressure on the platform post to prevent movement. The new anchor allows the platform to be easily removed and stored.

Features:

- Heavy duty welded stainless steel construction
- Durable polyurethane liner
- Fully adjustable integral wedge assembly
- Anchor cap (used when starting platform is removed)
- Anchor cap removal tool
- Grounding lug

Otter Swimming Scoreboards

OTTER electronic scoreboards for track and swimming feature integrated 2.4GHz wireless technology and are about half the width of standard LED-R electronic scoreboards, making them an ideal solution for tight spaces or as an auxiliary electronic scoreboard within your facility.

This sleek design offers wired or wireless communication with your CTS timing console, and wireless communication with your Dolphin and RoadRunner Track Wireless Timing Systems. Otter electronic scoreboards can be used as a permanent or portable solution depending on your needs. Weather-proof digits and electronics are housed in a powder-coated aluminum chassis, which provides excellent corrosion resistance. Each scoreboard is shipped as one piece for ease of handling and installation.

Features:

- 2.4GHz wireless scoring for 6-, 8-, or 10-lanes
- Indoor or outdoor use
- High visibility 5" LED digits
- Conformal coated digits and circuit board to protect against corrosion
- Brightness adjusts automatically to ambient light
- Integrated internal antennas for reliable communication with System 6 wireless adapter and Dolphin
- Permanent wall mount or caddy

Enclosure Colors:

Item Number	Description	Dimensions (H x W x D)
MMS014950	Swimming Scoreboard, 6-Lane	4'-8" x 4'-0" x 4'-1/4"
MMS015050	Swimming Scoreboard, 8-Lane	5'-10" x 4'-0" x 4'-1/4"
MMS015150	Swimming Scoreboard, 10-Lane	7'-0" x 4'-0" x 4'-1/4"
MMM02150	Wall Mount for Scoreboard	
MMM02350	Corner Mount for Scoreboard	

Mini LED Scoreboards

Mini scoreboards are an ideal solution for facilities requiring portability, or that are tight on space. The mini LED scoreboard line provides the best of both worlds. It provides the same information as two lines of LED-R at one quarter of the size.

- Lightweight and portable
- Includes legs and handle for easy portability
- Tripod mount
- Optional battery operation

Item Number	Description
MM010150	Mini Scoreboard, 2-Line w/ Event/Heat & Lane/Place/Time
MM010250	Mini Scoreboard, 2-Line w/ Lane/Place/Time
MMK05050	Wireless Scoreboard Adapter for Dolphin Stopwatches

Pro Pace Clock

Colorado Pace Clock

Features:

- Can be run as a stand-alone pace clock or set to run in a series of pace clocks with or without a timer or controller
- Large 10" LED digits can be adjusted for indoor or outdoor brightness
- When used with a System 6 controller, Colorado Pace Clocks can operate in a variety of modes to aid with swim training and water polo timing
- All pace clocks are now available with the ability to transmit data wirelessly

Standard: Basic Pace Clock with red LED digits, handle and legs. Two intensity settings. No battery; A/C only.

Pro (pictured): Pro Pace Clock with red LED digits, internal horn and battery, handle and legs. Fifteen training modes (most require additional equipment for timing input). Fifteen levels of intensity settings.

Dimensions: 13 1/2" x 3 1/4" x 4 3/4"

Type	Wired Item Number	Wireless Item Number
Standard	MMPCSTD50	MMPCSTDWL
Pro	MMPCPRO50	MMPCPROWL

AquaGrip® Touchpads

Colorado Timing Systems' AquaGrip touchpads feature the patented AquaGrip texture over the foundation of a tough plastic backbone. AquaGrip combines the best starting and turning surface available with the proven design that all CTS touchpads have used for over thirty years.

Additional models and accessories are available. Please contact us for more information.

Item Number	Size	Weight
MMTP60G50	60" x 22"	28 lbs
MMTP78G50	78" x 22"	35 lbs
MMCADTP50	Touchpad Caddy (holds up to 10)	

Relay Judging Platform

The most accurate way to judge relay exchanges! Electronic relay judging is required at all Division I NCAA Championship meets. Relay Judging Platforms (RJP) from Colorado Timing Systems exceed NCAA standards. LEDs across the front of the RJP flash simultaneously with the start tone and strobe light. Attach to existing starting platforms or purchase with the Colorado starting platform.

Item Number	Description
MML243250	24" x 32"
MML242050	24" x 20"
MML202050	20" x 20"
MMLCAD50	Caddy for up to 10 RJP's (20" width)
MMLCAD250	Caddy for up to 10 RJP's (24" width)

Backstroke Start Device

Train with the patented Colorado Time backstroke start device to get the edge on your competition. The backstroke start device adapts to most starting blocks and is FINA, USA Swimming, and U.S. Masters Swimming compliant.

- Anti-slip foot wedge
- Easy to set up
- Automatically retracts up and out of the water

Item Number	Description
MM3081C50	Backstroke Start Device w/ Short Bracket, 5-3/4"
MM3081L50	Backstroke Start Device w/ Long Bracket, 9-1/4"

System 6 Sports Timer

The System 6 is your main timing system component, coordinating information from start systems, touchpads, relay judging platforms, backup buttons and remote judging terminals for diving and synchronized swimming. The System 6 sends information to scoreboards, meet management software, printer, water polo horns and shot clocks. A wireless adapter is available to control wireless pace clocks.

- 8.4" x 6.3" full color screen
- Internet upgrade capability
- Handles up to 12 lanes
- Stores and posts unlimited splits
- AC power with rechargeable battery backup
- USB port for data transfer, data storage, software upgrades, and printing
- Multi sport options—works with swimming, diving, water polo, synchronized swimming, and as a pace clock

Item Number	Description
MMSYS650	System 6 Sports Timer
MMS6WP50	Water Polo Software/Insert
MMHW11050	Water Polo Horn
MMS6PC50	Pace Clock Software/Insert
MMWA150	Wireless Adapter 900 MHz
MMWA350	Wireless Adapter 2.4 GHz

Championship Start System

The Championship Start System delivers rugged durability and long lasting performance. This high-powered, easy to set up system is an excellent choice for larger aquatic facilities.

- Includes two wired microphone inputs
- Independent volume control for each input
- Includes one wired microphone
- Speedlights—Properly installed, LEDs across the front of a Colorado Time Systems Relay Judging Platform will flash simultaneously with the Championship Start speaker tone and strobe light, offering the athlete a visual cue
- 360 degree strobe light flashes with start signal
- Flexibility to be used in a fixed location with 110V power or as a portable system running on battery power
- Limited public address capabilities allow announcements during practice and competitions
- Optional underwater speaker can be added for underwater recall of false starts
- Weight: 20 lbs

Item Number	Description
MMSS50	Champion Start System
MMTR350	Tripod
MMRSJ2550	Champion Start Jumper Cable - 25'
MMM2550	Extra Wired Microphone w/ 25' Cable*
MMRP12550	40W Speaker w/ 125' Cable*
MMSP64550	Lane Speaker - 6W, 45 ohm
MMSPUND50	Underwater Speaker
MMLS40650	Loud Speaker Cable Harness, specify Lane Count
MMLS40850	Loud Speaker Cable Harness, specify Lane Count

MMCMPES50	External Strobe w/ 125' Cable
MMPCWK50	Wall Mounting Kit
MMSMK150	Speaker Mounting Kit

*Other cable lengths available. Contact us for more information.

Infinity Start System

The Infinity Start System makes an excellent entry-level start system, and its lower cost makes it a great choice for smaller pools and recreation centers. It is an easy-to-use portable start system and limited public address system.

- Includes a wired microphone and built-in 360° strobe
- Can sit on tabletop or mount on a tripod
- Runs on an internal rechargeable gel-cell battery. Additional battery and charger are available
- Weight: 12 lbs

Item Number	Description
MMNFSSM50	Infinity Start System
MMTR350	Tripod
MMFSJ2550	Infinity Start Jumper Cable - 25'
MMM2550	Extra Wired Microphone w/ 25' Cable*
MMSP12550	40W Speaker w/ 125' Cable

*Other cable lengths available. Contact us for more information.

Colorado Time Dolphin Stopwatch Timing System

The perfect system for limited budgets! The Dolphin by Colorado Timing Systems is a breakthrough **wireless** timing system with a fully integrated Hy-Tek Meet Management interface. Dolphin provides wireless, synchronized stopwatch-style timing for swimming competitions. It significantly reduces the amount of effort required to run a meet and manage data.

The customizable Dolphin System includes:

- Handheld wireless stopwatches for each lane (supports up to 3 lane timers per lane and up to 10 lanes)
- One Starter Unit
- One Base Unit, which connects via USB cable to your laptop running Hy-Tek Meet Manager with the Dolphin add-on module

Item Number	Configuration
MMD106150	6-lane w/1 watch per lane
MMD106250	6-lane w/2 watches per lane
MMD106350	6-lane w/3 watches per lane
MMD108150	8-lane w/1 watch per lane
MMD108250	8-lane w/2 watches per lane
MMD108350	8-lane w/3 watches per lane
MM4050650	Spare Watch

Colorado Blocks

These starting blocks are modified for use with Colorado Timing Systems' Relay Judging Platforms (RJPs) and timing equipment. To create your Colorado Block, add an Adapter Kit and a Colorado Time Systems Equipment package to each starting block. See page 107 for more details.

Timing and Stopwatches

Pro Survivor Stopwatch

Pro Survivor functions:

- Cumulative split
- 1,2 fast finish
- Split release action
- Event timeout
- 24 hour time range
- 12/24 time of day
- Date and day of week

Features:

- Million-cycle, no fail buttons
- Ergonomically designed, heavy duty case
- **5 year NPOP warranty**
- **5 years battery life**
- Magnum XL display
- Water resistant up to 100 feet

Item Number	Color

Accusplit 15" Pace Clock

ACCUSPLIT's revised design is now a Larger Index Face Lane Timer in a smaller compact design.

- With a 12" Index Face, this clock-style timer is easier to see than our old 9½" Index Face on our 15" dial
- Simple to operate
- Powered by one AA battery
- Rugged, bright blue ABS plastic housing
- Counts up with 1 second resolution to 60 minutes, then repeats
- Push button start/stop
- Features Detachable Feet to help keep the unit upright in windy conditions, better than the previous design
- **5 year warranty**

Item Number	Description	Color
MMAX80550	15" Pace Clock	Blue

IST Swimclock

SWIMCLOCK with Bluetooth® Wireless Technology provides unparalleled flexibility and control over workouts. SWIMCLOCK uses dependable, super-bright LEDs that are visible indoors or out. The four 6.5 inch digits are enclosed in a rugged aluminum case with Plexiglas lens. Available with or without battery. Wall-mount bracket included.

Create unlimited workouts with unlimited sets in each. Save in memory to reuse, edit, or delete and replace. While running a workout, the coach can start, stop and restart, or reset the whole workout at any time, or move to any set in the workout. You also have the option to pause the clock between sets, or run the workout from beginning to end without stopping.

Use E-Z Workout to program a single interval and the number of repeats. Also includes Game Clock and Stopwatch modes. Multiple SWIMCLOCK's can be run synchronously from one cell phone.

Item Number	Description
MMSCBH150	Swimclock Bluetooth without battery
MMSCBH50	Swimclock Bluetooth with battery

IST Swimstart

The Swimstart Electronic Start includes portable PA, 360° strobe and tone start signals, and recall tone in a compact case. May be used stand-alone or interfaced to IST's Swimware Timing System or other timing systems with optional 25' cable. Includes 40 Watt speaker and a jack for auxiliary speakers. No-tip feet allow unit to be placed directly on the deck, or it may be attached to backstroke pole with latching straps. Comes with **5 year limited warranty**.

Item Number	Description
MMSSSTR50	Swimstart
MMSCB2550	25' Cable

Backstroke Flags, Stanchion Posts, and More

Backstroke Flags

Designed using a new cross-blended nylon material in a range of colors that meet all FINA, NCAA, USA and NFHS regulations. Mounting is easy using nylon braided cord and swivel hooks. Limited replacement guarantee. Silkscreening available for individual flags. Custom logos will require a setup charge. Call for details. **Specify flag color: Black, Blue, Burgundy, Gold, Gray, Green, Navy, Orange, Purple, Red, White, or Yellow.**

Item Number	Description
MM2082614	Individual Backstroke Flag 11" x 14-1/2"
MM2094814	Individual Backstroke Flag 12" x 18"
MM26ZZZ14	Individual Flag Silkscreen Charge
MM2082714	3/16" Nylon Braided Cord per ft
MM2082814	Zinc Coated Swivel Hook
Two hooks required per string of backstroke flags	

Standard Pennants - 100'

Made of tough 8 mil polyethylene material, these pennants will give the long-lasting performance of plasticloth. 100' string consists of 12" x 18" alternating color pennants spaced 15" apart to meet AAU and NCAA requirements. Special colors available on request.

HH7031610	With Triangular Eyebolt

Competitor Racing Lanes

Official lane line of the NCAA and USA Swimming

Competitor Racing Lanes with LifeSpan+™

Competitor Racing Lanes' patented flow-through design controls water turbulence by allowing wave energy to be dispersed along the length of the lane. This creates the optimum swimming environment for a swimmer's fastest times.

Competitor Lane Lines now feature LifeSpan+, a new proprietary additive formula that substantially increases the useful life of Competitor® discs and come completely assembled and are offered in a variety of colors and sizes to meet any need.

Each lane consists of a series of 4" or 6" polyethylene disks and donuts strung on vinyl coated 3/16" stainless steel cable. Each of these disks is designed to rotate independently of the others, thereby allowing the wave energy to be absorbed and distributed along the channel within the lane. The donuts are placed at regular intervals to maintain proper flotation during use.

Lanes are attached to the pool wall using a stainless steel spring at one end and a stainless steel/bronze ratchet reel at the other for proper tension. By using a disconnect assembly, variable lengths can be obtained from the same lane.

Standard colors: Black, Blue, Burgundy, Gray, Green, Maroon, Navy, Orange, Purple, Red, Sky Blue, Vegas Gold, White and Yellow. Specify when ordering. Price quotes for custom lengths available on request.

Competitor Reels and Pace Clocks

Elite Stor Lane Reel

Standard

Competitor Stor-Lane Reel™

Ideal for the proper storage and easy installation and removal of race lanes. The **Classic Stor-Lane Reel™** accommodates up to 525' of 4" diameter lanes or 300' of 6" lanes. The 5" swivel casters with individual brakes make it easy to maneuver around the pool deck. Main framework is made of durable electroplated aluminum which supports the thermoformed plastic reel assembly.

Competitor Swim's high-capacity **Elite Stor-Lane Reel™** holds 902' of 4" discs and 450' of 6" discs. An end-mounted tow-handle and 6" stainless steel casters make the Elite easy to maneuver and lock in place.

Item Number	Description	Ship Wt.

Anti Wave Racing Lanes

Anti Wave ForeRunner™ 4 3/4" Racing Lanes

Our most popular line of racing lanes, the Anti Wave ForeRunner 4 3/4" Racing Lanes, are designed after our wildly successful 6" *Maximum* lane. Anti Wave's racing lanes use hydromatic propulsion to disperse the waves along the lane line then down to stop all momentum, creating perfectly tranquil water. The ForeRunner is competitively priced and available in the same colors as the "Maximum" lane. Made of UV stable resin plastic which reduces the risk fading and deterioration caused by long term exposure to sun light. Includes **3-year warranty**.

Available colors are Maroon, Red, Orange, Yellow, Green, Teal, Light Blue, Blue, Dark Blue, Purple, White, Silver, Gray, and Black Specify colors with order.

MM37556	50M with Two Disconnects (75')	
MP01656	7' Extension	
MP01856	14' Extension	

60' Lanes ship by UPS; longer lanes by motor freight.

Anti Wave Maximum 6" Racing Lanes

The "Maximum" 6" Racing Lane is the lane used in the Sydney 2000 Summer Games. Using Hydrodynamic Propulsion technology, the *Maximum* forces the waves downward into the pool. The effect is dramatic wave quelling performance. The lanes come factory assembled with the Supertensioner™. The Maximum is shipped completely assembled and carries a **3-year warranty**. Standard lane features a 15' solid-color lead-in, followed by alternating colors every 3'. Variations are available. Call for information regarding custom lengths or configurations.

Available colors are Maroon, Red, Orange, Yellow, Green, Teal, Light Blue, Blue, Dark Blue, Purple, White, Silver, Gray, and Black Specify colors with order.

Lane Storage Reels and More

Ultimate Storeel by Anti Wave

You will love our super-capacity, stunning looking, easy to handle lane storage reel, and you won't believe the incredible price! Our "Ultimate" Storeel is made of top quality coated aluminum with a 79" wide, 6" diameter center spool (designed to eliminate the possibility of damage to the discs) and lockable swivel casters. The Ultimate Storeel includes a **3-year warranty**. Assembly required. Capacity: seven 25M ForeRunner lanes or four 25M Maximum lanes. Ships via truck.

Item Number	Description
MMAW61556	Ultimate Storeel

Cover for Ultimate Storeel

- Produced from top quality UV-resistant Solarguard material for long life and durability
- Comes with a **limited 3-year warranty**

Item Number	Description
MMAW61556	Cover for Ultimate Storeel

Anti Wave Lane Caddy

The Anti Wave Lane Caddy provides for safe and quick removal and installation of Anti Wave swimming racing lanes. The Lane Caddy is designed to be quickly installed onto the pool deck and allows for smooth and unhindered movement of lanes that would otherwise be damaged by the sharp pool edge. Top quality hand-laid fiberglass construction. Includes **3-year warranty**.

Item Number	Description
MM56056	Lane Caddy

Anti Wave Supertensioner™

The Supertensioner™ may be added to your existing lanes to replace worn tension reels. Adjusts with a twist of the wrist! It fits any size or type of lane made in the USA. Comes with a **3-year warranty**. Available in same colors as racing lane discs. **Specify color with order.**

Nordesco Lane Line Storage Reels

Our Nordesco Storage Reel will provide years of service in and around the pool deck. Large Capacity Reel holds up to 720' of 4" lane lines or 400' of 6" lane lines. Small Capacity Reel holds up to 300' of 4" lane lines. The frame is constructed of T-304 stainless steel, and each component is Poly Diamond sealed for added protection from the harsh chemicals and moisture found around aquatic facilities. Reels include Poly Wheels mounted on stainless steel frames for added durability. Each caster has an easy-set foot brake.

A Poly Shield is attached to each Reel Disk to help keep the lanes on the reel and hands out. Allows for easy loading and unloading of racing lanes (Deluxe and Small models only).

Deluxe models include steering handles to allow for easy maneuvering around the pool deck.

Item Number	Description	Capacity (4" Lanes)
MM6122583	Lane Line Storage Reel, Small Capacity	300'
MM6132583	Lane Line Storage Reel, Large Capacity	720'
MM6142583	Deluxe Lane Line Storage Reel, Large Capacity	720'

XL Lane Line Storage Reel

The XL Lane Line Storage Reel offers 25% more capacity than many other lane line reels. That means it can hold up to 985' (300M) of 4" diameter or 575' (175M) of 6" diameter lane lines, which is more than any other storage reel available on the market! Powder coated stainless steel means the reel is resistant to corrosion. The heavy-duty casters are non-marking and can swivel 360° making it easy to maneuver. The specially designed eyehook allows the first lane line to be properly secured. An optional royal blue cover is sold separately.

Specify Reel Color: Silver Gray (stock, shown), Radiant White, or Royal Blue.

MM3800012	XL Lane Line Storage Reel	985'/300M
MM3610012	Cover for XL Lane Line Storage Reel (Royal Blue)	

Lane Line Guard™

The Lane Line Guard™ prolongs the life of swimming pool lane lines by circumventing rough pool deck surfaces and corners by allowing lane lines to glide smoothly through the deep fiberglass channel. An S.R. Smith Lane Line Guard will help make the removal and installation of lane lines easier, and will protect your investment.

- Deep channel with smooth surface
- Lightweight with strong fiberglass construction
- Extends the life of lane lines, saving money
- Rubber trim material along the outside edge of the Lane Line Guard offers protection and helps grip the pool deck
- Designed with built in, user-friendly hand-holds

Item Number	Description
MM3700012	Lane Line Guard

Backstroke Start, Lap Counter & Water Polo

Anti Wave Backstroke Start Device

The Anti Wave Backstroke Start Ledge is a simple and practical backstroke starting device for swimmers to perform top performance backstroke starts. Suitable for training and competition, the Ledge assists swimmers with the fastest possible starts by providing positive traction on the pool wall. The Backstroke Start Ledge has a simple manual height adjustment and is suitable for connection to all standard starting blocks including all Anti Wave Blocks. The Ledge is simple to adjust from in the pool by the swimmer or on the pool deck by the coach.

- PVC bumper to protect pool wall and tiles from scratching
- Five height settings to suit each swimmer's needs using Marine StayPut and Eyelet system
- Meets all FINA regulations

Item Number	Description
MMAW35056	Anti Wave Backstroke Start Ledge

Backstroke Start System

Designed to help make backstroke starts faster and reduce the chance for slipping, the Backstroke Start System provides the option to easily add this capability to virtually any pool deck or starting block configuration. Compliant with FINA standards, the ledge is adjustable to five clearly marked positions: at water level, and up to 40 mm both up and down in 20 mm increments. Made with a combination of a HDPE base, vinyl-coated aluminum components, and polyester strapping, the Backstroke Start System is suitable for exposure to the hard elements found in both indoor and outdoor facilities.

- Anti-slip backstroke ledge with raised diamond pattern
- Easily adjustable ledge height with one-handed operation from in or out of pool
- Three unique mounting options to secure device to most deck and block configurations
- Clear markings on spool to show height of ledge to water level for compliance
- FINA FR 2.10 compliant for competition

Item Number	Description
MMBSS1012	Backstroke Start System
MP1360012	In-Deck Anchoring Kit
MP1360112	Pool Wall Mounting Kit with Strap
MP1360312	Platform Post Mounting Kit

Backstroke Start Training Device

The Backstroke Start Training Device utilizes the same FINA compliant designed ledge from the Backstroke Start System but with a simple and easy attachment of just two 5' polyester straps and a stainless-steel cam buckle to secure and adjust the height. With a lower cost, portability, and easy setup, this device is perfect for training exercises to get swimmers acclimated to fast and secure starts with a ledge.

- Anti-slip backstroke ledge with raised diamond pattern
- Two 5' polyester straps with stainless steel cam buckle to secure and adjust height
- Works with a wide variety of starting platforms

Item Number	Description
MM3650T12	Backstroke Start Training Device

Polo Tube

- No handles to interfere with game mobility
- 37" deflated outer diameter, 33" inflated outer diameter, 16" inner diameter hole
- Heavy duty 30 gauge PVC vinyl
- Double welded, smooth inner seams
- Single main air chamber, push-in valve
- Two self adhesive repair patches per unit

Item Number	Color

Plastex Matting Floorline Water Polo

A quick field marking set-up and easily removed solution to increase visibility of the field lines whilst ensuring safe pool side traffic with slip resistance. Floorline Water Polo matting is very convenient to use at public polo sessions, being light, quick, and easy to install and for subsequent storage. Floorline Water Polo matting is supplied as a one piece tri-colored 15M roll (Green, Yellow and Red), acting as a field marking solution whilst ensuring continued safety underfoot for the referee even when the matting is wet.

- UV Resistant
- Fire Resistant
- Quick to lay down for field set-up
- Increase visibility of field marking lines
- Etched surface
- Anti-microbial & anti-fungal additives
- Made from flexible PVC, supplied in one piece roll
- Tri-colored one piece roll: green (10M), yellow (3M), and red (2M)
- Can be used indoor or outdoor
- Certified high slip resistance DIN 51130 R11

Item Number	Roll Size
LLFLNWP50	2' x 50'

Anti Wave Universal Wall Water Polo Goal

- All metal parts are made of durable white powder-coated aluminum for extra protection, or stainless steel
- The net is of tough polypropylene cord, knotted at every intersection
- The canvas is a durable plain-woven fabric with a top layer of PVC that seals the threaded bottom layer and makes for a smooth and glossy surface
- The Rear Arms are fully adjustable horizontally (up to 36") and can be adapted to most existing deck anchor locations. Two deck anchors are included with the goal
- Can be assembled in approximately one hour by two people. Each goal comes with a detailed assembly instruction sheet
- Includes red net and blue canvas
- Use the Long Goal for shallow water applications (5' or less). Use the Short Goal for deeper water (over 5')

Item Number	Description	Dimensions
MMAW61656	Universal Long Goal	124" L x 66.03" H x 23.62" W
MMAW32856	Universal Short Goal	124" L x 40.35" H x 23.62" W

Anti Wave Odyssey Water Polo Goal

As used in the Sydney Olympics!

Combining unequalled form and function, the Odyssey floating goal is quite simply the finest water polo goal on the market. It has been used in pools around the world since its introduction at the 2000 Sydney Olympics. As the standard for major competition or state-of-the-art facilities, the Odyssey is the only choice. Comes with a **three year warranty**. Assembly required.

Item Number	Description
MMW055056	Odyssey Water Polo Goal
MMAW64356	Replacement Net (Red)

Anti Wave Splashball and FlipFloat Water Polo Goal

The Splashball floating goal is a two-thirds size version of the popular Club goal, making it ideal for splashball, kids' games, practice, residential and club pools, or any location where a full-size competition goal is not needed. The FlipFloat is a full-size competition floating polo goal. What is unique about these goals is that they **fold flat for storage**. Just pull the Rear Arms out of their sockets and the Front Frame folds down onto the Float Panels. Once folded, these goals can be easily carried and stored.

The flotation panels are durable hand-laid fiberglass. The front frame and rear bar are white powder-coated aluminum. The rear struts are 1" diameter nylon rods. The net and rope are polypropylene. All fittings are stainless steel. **Three year warranty.**

Item Number	Description
MMAW67256	Splashball Polo Goal
MMAW67456	FlipFloat Senior Folding Polo Goal

Anti Wave Global Anti Goal Water Polo Goal

The Global Anti Goal represents the culmination of 50 years of experience in goal innovation, design and production, drawing on a long and rich Anti Wave tradition.

The Global Anti Goal blends cutting edge materials and production with innovative design, resulting in a light weight, heavy duty, compact, full sized polo goal that meets the needs of all clubs and facilities around the world. Each component and fitting has been carefully selected and tested for maximum durability and longevity, even under the most severe player and environmental conditions. **Limited 3-year warranty.**

Features:

- Fabricated from custom marine grade powder coated aluminum
- Foldable, take down design for compact and safe poolside storage
- Easy to install newly redesigned marine nylon net clips
- Marine nylon pool edge bumpers on rear of frame
- Durable oversized HDPE flotation elements rest on the pool concourse
- Open corner net configuration reduces ball rebound.
- Comprehensive list of spare parts available.
- Available in 1.2M and 1.4M side depth configurations

Item Number	Description

Spectrum Water Basketball

Spectrum Poolside Basketball Hoops

Water basketball is a fun and engaging way to encourage your customers to spend more time at your pool and play solo or with teams. Spectrum's basketball hoop lineup offers three models to fit different levels of recreation. All Spectrum basketball hoops can be customized to mount directly to the deck if necessary. Clear backboards are standard, but there are customized heavy duty bison backboards also available. Your poolside basketball hoop can also be mounted to concrete pylons, walls, or anything your facility needs to maximize space and play. The Jamma! and Slam! basketball hoops are available with up to 10' rim height and offer various setback levels to provide you with the right poolside basketball hoop for your facility. Spectrum poolside basketball hoop frames are constructed of 304L Stainless Steel to minimize corrosion and provide your facility a poolside feature that will last for years to come.

Eureka Main Drains and Grates

Drain Safety & VGB Act Compliance

The Virginia Graeme Baker Pool and Spa Safety Act (VGB Act) promotes the safe use of pools, spas and hot tubs by imposing mandatory federal requirements for suction entrapment avoidance.

- **Safety Drain Covers:** All suction outlet fitting assemblies (SOFA) made after May 24, 2021 must meet the ANSI/APSP/ICC-16-2017 Standard.
- **Public Pool Drain Covers:** All public pool and spa drains must be equipped with SOFA that are certified to the Standard.
- **Public Pool Drain Systems:** All public pool and spas with a single main drain system, other than an unblockable drain, shall be equipped with one or more additional devices or systems designed to prevent suction entrapment that meet the requirements of any applicable ANSI/APSP Standard or applicable consumer product safety rule. In addition to a compliant drain cover, such additional devices or systems include: a safety vacuum release system (SVRS), suction limiting vent system, gravity drainage system, automatic pump shutoff system, disabled drain, or any other system determined by the CPSC to be equally effective as, or better than, the previously listed systems in preventing suction entrapment.

Stainless Steel Anti-Entrapment Drain Cover

Eureka Stainless Steel Drain Covers provide a certified solution to a wide range of applications, including custom drains for which there may be no other reasonable alternative. Designed to meet or exceed federal anti-entrapment standards as described in the Virginia Graeme Baker Pool & Spa Safety Act. Available in four tested and approved sizes. Covers include installation hardware for concrete pools and sealant, along with instructions for proper installation. Replace hardware after **10 years of installed life**. Replace cover after **20 years of installed life**.

Eureka Stainless Steel Main Drain Sumps

Why spend significant time and effort forming and pouring concrete main drain sumps? Our custom-built stainless steel main drain assemblies help builders get jobs done within budget and on time.

Pool chemicals and UV radiation can lead to chipping and crumbling of concrete main drains and sumps. Eureka stainless steel sumps resist the harsh conditions found in public pools and play features.

Eureka stainless steel main drain sump assemblies for commercial pools are fabricated using 12 gauge low-carbon 304 stainless steel. Equip your sumps with Eureka Stainless Steel Anti-Entrapment Covers for the ultimate in function and safety in compliance with federal regulations.

Optional 2" I.P.S. hydrostatic relief valves and collectors are furnished, when required. Stainless steel studs are welded onto the inside of the sump for ease of pressure testing plumbing systems. Custom designed sizes and shapes are available to meet specific project requirements. For specifications or to receive a prompt price quote, please contact us today!

Features:

- Tough fiberglass and stainless steel construction
- Flat design perfect for high traffic areas
- Laser-etched identification
- May be paired with our custom designed stainless steel sumps
- 1 1/8" height allows retrofitting to many existing sumps
- **NNF242475** is approved for floor mounting, while the **NNF303675** and **NNF304875** are approved for both wall and floor mounts

Eureka Anti-Entrapment Drain Grate

The new Eureka Anti-Entrapment Drain Grate is designed to provide a high level of safety and performance. Ideal for new construction, the flush-mount design will pair nicely with our custom-built stainless steel main drains and will also retrofit nicely to many existing sumps. Currently available in three sizes, these grates are designed from stainless steel and fiberglass I-bar.

The Eureka Anti-Entrapment Drain Grate is NSF Certified and meets the ASME A112.19.8-2007 standard for drain safety specified by the Virginia Graeme Baker Swimming Pool and Spa Safety Act.

Daldorado Main Drains and Grates

Daldorado DalMAX™ Sump & Grate

Introducing the Daldorado DalMAX™ series of Sump and Grate for new construction, and replacement Frame and Grate for 18" x 36", 18" x 54", and 24" x 24" unblockable large area main drains. The DalMAX™ series is certified to APSP-16-2017 Standards by IAPMO, and PVC materials complies with NSF/ANSI 50. Georgia Gulf 7140 White. Westlake Corp. Daldorado is the ONLY American company to design & engineer its APSP-16-2017 Main Drain grates, whether new or VGB replacement, to give a 25 year service life.

DalMAX™ main drain sumps for commercial pools are constructed of fiberglass with grates made from the highest quality PVC that meet or exceed IBC standards. With a large open area of 62% and the highest flow rate in the industry, DalMAX™ is the clear choice for every new commercial pool construction or large area main drain replacement (frame and grate).

- Open area ~ 62%
- Floor or wall installation
- Can be customized to different piping schematics
- Connections can be threaded, flanged or couplings
- Specify outlet location
- Can be customized to different piping schematics. Connections can be threaded, flanged or slip couplings.
- FRP 3" water stop, 5" from edge of sump continuous around perimeter
- Recommended to use a 2" non-separation rope around the sump perimeter
- 1½" x 1½" FRP brace around outside perimeter for additional strength
- **Grates have a 25 Year Service Life under VGB**
- 10 Year Warranty
- Colors available: White

Features

- Certified for APSP-16 (VGB) use for new and replacement
- Virtually any size or shape can be constructed from design specifications
- Open area ~ 37½%
- Frame and grate made of high- grade UV-stable PVC (Axiall 7140) ~ Certified for NSF50
- Floor or wall installation
- Available in white, bone, and gray
- Stainless Steel screws and instructions included
- 25 Year Service Life under VGB

Daldorado Custom Main Drain

Daldorado custom large area main drain grates are IAPMO and NSF certified APSP-16-2017. Whether you need a 24" x 124" size or 72" x 72" size with custom rounded corners, Daldorado will construct your drain grate to fit any commercial swimming pool project. For aquatic designers here's your chance to get creative, the possibilities are endless!*

Daldorado is the ONLY American company to design & engineer its APSP-16-2017 Main Drain grates, whether new or VGB replacement, to give a 25 year service life.

Contact us for specification assistance and pricing.

*Calculated using "Q" formula per the APSP-16 Standard Examples of Custom Sizes, available in 1" increments in width with no more than 24" unsupported. Some restrictions may apply. Please contact us for more information.

Drains Covers and Suction Outlets

HAYWARD®
COMMERCIAL AQUATICS

Hayward Frames and Grates

For residential and commercial concrete pools, Hayward square drain covers are available in a wide range of sizes and flow designs to satisfy any installation requirement. Whether the application demands frames and covers for new construction or replacement cover assemblies for existing installations, Hayward suction outlets set the standard for quality and value.

Hayward's High Flow covers have some of the industry's highest ASME approved flow rates. Each size and flow design cover retrofit to existing Hayward frames. All Hayward WG Series suction outlets and replacement covers are VGB compliant and are tested to ASME A112 19.8b-2009 and ANSI/APSP-16 standards as well as meeting CPSC requirements.

Installation of anything other than the recommended Hayward drain cover on a Hayward frame or Hayward sump may not be ASME A112 19.8b-2009 and ANSI/APSP-16 compliant. Likewise, the installation of a Hayward drain cover on a non-Hayward frame may not be compliant. Replace grates after **7 years of installed life**.

Frame and Grate Assembly Two-Packs

StarGuard Main Drains

Pentair StarGuard Main Drains comply with provisions of the ANSI/ASME A112.19.8-2007 standard and the Virginia Graeme Baker Pool and Spa Safety Act. High quality StarGuard Main Drains are available in a variety of configurations to fit any residential in-ground pool or spa installation. StarGuard Main Drains have an industry-leading 15.35 square inches of open area for water flow. If you are in an area where water velocity through the grate is limited to 1.5 feet/second, the StarGuard covers allow flow rates up to 72 GPM.

Replace after **7 years of installed life**.

Drains • Inlets and Fittings

Lawson SuperFlow™ Large Area Drain Grates

Large area SuperFlow main drain grates begin at 18" x 36" and larger in 18" increments. SuperFlow capacity starting at 2080 GPM is unmatched. Install end-to-end to accommodate higher flow rates—no additional support required. Custom framing available to fit any length.

Features include:

- ANSI/APSP - 16 & NSF Compliant (Available ONLY in multiples of 18" x 18" for larger drains)
- UV and strength tested under ASME A112.19.8.2007
- A raised, cross-ridged profile gives non-slip surface that allows water penetration if blocked.
- For multiple drain use
- Wall or floor installation
- Color: White
- Ten-year warranty

Lawson Aquatics SuperFlow™ Drains

The only ASME-2007 and NSF Listed main drain that is easy to replace and doesn't require any complicated retrofitting that might delay opening a facility.

Lawson Aquatics™ team of engineers and product developers knew that the Virginia Graeme Baker Pool and Spa Safety Act would save lives, but the real challenge came in designing not only a certified main drain but one that also maintains the necessary high, flow rate that couldn't be matched by the competition. The result is the Domed SuperFlow™ Main Drain.

The domed SuperFlow™ main drain grating is unique since it has the capability to maintain flow rates of 816 GPM, (18" x 18"), 365 GPM, (12" x 12") and 261 GPM (9" x 9").

Features include:

- ASME-2007 & NSF Listed (9" x 9", 12" x 12" and 18" x 18")
- UV and strength tested under ASME A112.19.8.2007
- A raised, cross-ridged profile gives non-slip surface that allows water penetration if blocked
- Color: White
- Ten year warranty
- Replace after 10 years of installed life

Anti-Entrapment and FlowVis Flow Meters

Spring Wound Timer

Intermatic's commercial 15 minute timer switch. Installs in single 2½" deep junction box.

Item Number	Description
SSTIMER50	15 Minute Timer

Vacuum Limit Switch

Connect this between pump and strainer to shut off the pump if the strainer becomes clogged or vacuum suction is broken due to low water in the filter tank. Set points are variable over the entire scale.

Item Number	Description
FF153250	Vacuum Limit Switch

Vac-Alert SVRS

The Vac-Alert SVRS (Safety Vacuum Release System) provides a rapid vacuum release when a drain becomes blocked, quickly freeing anyone whose body or limb is trapped on the drain. The Vac-Alert does not interfere with pump function and, once installed, requires little to no maintenance.

- Easy to install
- Self monitoring, low maintenance
- Won't damage pump when activated
- Meets or exceeds all ANSI/ASME performance standards for SVRS
- Constructed of noncorroding parts to ensure long life and superior performance
- **Three year limited warranty**

Item Number	Description
NNSVRS50	Vac-Alert

PSP20 Anti-Entrapment Device

The PSP20 is the only device available for pool & spa anti-entrapment that comes with a no-nuisance trip guarantee! With over 350,000 units installed on pumps worldwide, it's easy to see why the PSP20 is the pool contractor's solution of choice when it comes to safety.

The PSP20 uses the existing pump motor as a sensor to protect swimmers from the horrific injuries and loss of life caused by pool & spa drain entrapment. The PSP20 is simple to install and simple to setup. The unit is supplied as a fully-assembled control panel designed to be installed between an existing pump control panel and the pump motor. Installation typically takes less than one hour. **Contact us for selection assistance and pricing.**

Features:

- CPSC recognized VGB secondary anti-entrapment method
- Technology based on 350,000+ pump monitors installed worldwide
- Simple installation, setup, and calibration
- No plumbing required = no future leak issues
- No false tripping - guaranteed!
- Models for all voltage supplies
- No additional control or wiring for large 208/230V or 3-phase pumps
- Compatible with residential pool/spa combos and in-floor cleaners
- No bypass required for filter backwash or vacuuming
- UL approved - required in many jurisdictions
- Alarm output
- No winterizing required
- Unaffected by hydrostatic relief valves
- Lowest overall cost of ownership

Saddle Clamp Fitting Type

FlowVis® Flow Meter

FlowVis® is the most advanced, affordable, and reliable precision flow meter designed specifically for pools, spas, fountains, and water features. Ingenious in concept and flawless in operation, FlowVis® is a revolution in reliable flow measurement.

Features:

- Installation flexibility; installs horizontally, vertically, or even upside-down
- Can be installed right next to other plumbing fittings such as elbows with no effect on accuracy
- ≥97.9% accuracy across the entire model range
- NSF 50 Certified Level 1 for listed models/
- Working pressure: 50 psi
- 1½", 2" & 2½" models also serve as check valves
- Clear, easy-to-read scale in GPM
- Installs quickly with no calibration required
- Manufactured in the USA
- 15-year design life, **3-year warranty**

Item Number	Description
IIFVD50	FlowVis Digital Display

FlowVis® Digital Display

FlowVis Digital display for all new and existing installations. Does not include FlowVis Flow Meter to which the Digital display is to be installed. FlowVis models for pipe diameter 3"/DN80 and 4"/DN100, that were manufactured prior to Feb. 2020 will require a new retrofit lid assembly.

Contact us for details and pricing.

ELC-800r Water Level Controller

The ELC-800r uses proximity sensing technology, which helps it stand apart from other water level controllers that use floats or introduce electrical currents to the water. Easily programmable, it has the ability to sense dangerously low water conditions and deactivate circulation pumps, protecting them from damage. Available in various configurations to match your application:

- **Standard Well** – designed for mounting at static water levels, usually in a pump pit in the equipment room. For bodies of water with skimmers.
- **Sight Glass** – for bodies of water with balance tanks
- **Surge Tank** – allows mounting in a surge tank to control pool and spa levels. For bodies of water with overflow gutters
- **Wet Well** – this design allows water level sensing in a 2" static well, usually in the equipment room. For bodies of water with skimmers

25' cable length is standard. Additional cable may be added for an additional charge. Solenoid valve purchased separately.

Flow Meters

+GF+ SIGNET Flow Indicator Systems

Signet flow meters can help take the guesswork out of flow monitoring by producing accurate, easy-to-understand information. For restricted space areas, a self-powered analog flowmeter provides installation versatility in one self-contained unit. A digital readout capability is offered in a battery-operated flowmeter. Operated from a signal that is generated by the paddle-wheel flow sensor. A typical system will include a flow sensor, flow rate indicator, and a matched installation fitting.

Flow Rate Indicator

The +GF+ SIGNET 9900 SmartPro Transmitter is a precision instrument that connects with a SIGNET flow sensor and provides digital readings. The bar graph and units of measure can be customized to the application. The SmartPro Transmitter is versatile. It can also be used with several other SIGNET sensors (sold separately) to display readings of pH, ORP, Conductivity/Resistivity, Salinity, Temperature, Pressure, and more. The SmartPro is highly illuminated with an auto-sensing backlit display, making it viewable from 4 to 5 times the distance over traditional transmitters.

Transmitter Number	Description
I1990052	SmartPro Digital Transmitter

Magmeter Flow Sensor

The Signet 2551 Series Magmeter is an insertion-style magnetic flow sensor that features no moving parts. Use with the SmartPro Digital Transmitter.

Flow Sensor Number	Pipe Size Range
I1551P052	1/2" to 4"
I1551P152	5" to 8"
I1551P252	10" to 12"

Battery Powered Flow Totalizer

The +GF+ SIGNET 8150 Battery Powered Flow Totalizer is compatible with the Signet 515 and 525 Flow Sensors, and will provide years of dependable operation. The large digital display indicates flow rate and totaled flow volume simultaneously. Our intuitive software design and four-button keypad provide for simple operation while setting screen displays and programming the system. Calibration can be easily performed by entering the AutoCal feature and entering a value to match an external reference. Screen displays can be modified to suit the user's needs; along with

the flow rate, any of the three totalizers can be selected as the displayed totalizer. Users can quickly scroll through the totalizers simply by pressing any key on the keypad. A display averaging feature is included for applications where the flow in the pipe fluctuates. For applications where flow stops and starts due to production needs, a no-flow indicator will display the hours of non-flow.

Rola-Chem Flow Meter

This Pitot-tube flowmeter can easily be mounted to a horizontal or vertical pipe. Each unit is complete with instructions and stainless clamps. These instruments are calibrated to give actual flow as a visual indication. Both sides of the flowmeter are calibrated in gallons and liters per minute. The Rola-Chem flowmeter is designed to deliver accurate flow rates at a minimal cost. Flowmeters listed are for PVC pipe material. Flowmeters for copper pipe are available upon request. Side mount (for horizontal pipe), Vertical mount (for vertical pipe) and Top mount (for horizontal pipe) styles are available.

Blue-White
Industries, Ltd.

Blue-White Flo-King™ F-300 Series Flow Meter for horizontal pipe

F-300 series flow meters utilize a Pitot tube pick up and a hard edged float design to provide a convenient and economic means of measuring water flow in a closed pipe system. The F-300 impact tube flow meter features a tough, one-piece machined acrylic meter body, corrosion resistant internal parts, and permanent screen-printed scale. You get all the strength and long service life required in most commercial and industrial applications.

Each F-300 series is individually packaged with gasket seal and mounting clamps.

Models listed are Top Mount. Side Mount available special order only.

F-300S Flow Switch

Are you certain your circulation pump is working properly? Is your filter clogged? F-300S takes the guesswork out.

When the new F-300 flowmeters' magnetized PVDF float enters the Alarm Trigger Zone of the F-300S Sensor, the built-in dry contact switch closes, providing a trigger to external devices.

It's a switch, or a sensor, or both!

- Set up as a **Flow Switch**: The F-300S detects if the flow rate is at the desired level
- Set up as a **Flow Sensor**: The F-300S detects whether the water is flowing through the pipe, or if there is a 'no flow' environment
- Set up as a **Flow Switch & Sensor**: Two F-300S Switches can be placed onto one meter to enable both features!

Kit includes magnetized float and flow switch. Flowmeter purchased separately.

Blue-White Digi-Flo Flowmeters

Blue-White
Industries, Ltd.

Digi-Flo Battery Operated Digital Flow Meter

The Blue-White F-1000 RB is ideal for those who require rate of flow only. The meter is shipped pre-programmed and ready to install, sensor mount. Powered by 2 AAA batteries (included) and the meter's spinning paddle. The four-digit LCD display updates every 2 seconds. Accurate to $\pm 2\%$ full scale. Saddle mount units ship without pipe (drill a 1 1/8" diameter hole in your existing PVC pipe and mount the unit). Models listed are for Schedule 40 or steel pipe. Please advise if Schedule 80 is required.

Digi-Flo F-2000 Electronic Flow Meter

The F-2000 Flowmeter is battery powered and remote mount. Sensor mount and pipe mount are available on request. Flowmeters listed have a Schedule 80 fitting.

- All units powered by 4 standard AA batteries (included). 115V AC/DC plug-in transformer may be purchased separately, if desired
- Eight-digit flow rate and total flow display
- Easy-to-read, .39" high, customized LCD display with status indicator icons
- Non volatile memory
- Low battery status warning
- Two minute battery change power feature
- Operator programmable
- Easy to install fittings

The Commercial Pool Supply Specialists!™

Stainless Steel Gutter Systems

Stainless Steel Gutter Systems

Swimming pool water must be recirculated to heat, filter, and chemically treat the water. The effectiveness of the recirculation system directly affects the health and safety of pool patrons as well as the performance of athletes who compete in the pool.

The stainless steel gutter-type perimeter recirculation system has been proven to be so effective that most health departments require the use of perimeter gutters on commercial swimming pools.

Nearly 90% of all organic material, bacteria, dirt, and body oils accumulate within the first few inches of the pool surface. Therefore, it is extremely important that the recirculation system continuously skim these contaminants from the surface of the water.

Our stainless steel gutter systems are designed to perform this task quickly and effectively by combining an overflow trough, which removes dirty water, with a watertight conduit that returns filtered and chemically treated water to the pool.

We've got the 411!

The Commercial Pool Supply Specialists!™

Stainless Steel Gutter Systems

Features and options:

- Gutter systems are custom designed, sized, and made for your pool.
- 12 ga. 304L stainless steel with a #4 polish is standard (316L optional).
- Great for new construction and easy retrofit for existing pools.
- We provide design, drawings, submittals, installation, and testing.
- Anchor options: U-bars, drop-ins, stud anchors, or stainless steel rods with epoxy.
- We can use fiberglass or PVC grating in both T-bar and I-bar styles.
- We can transition to a zero depth gutter or ramp access gutter.
- Supply converter and overflow collector boxes are included.
- Options include surge control weirs, rope anchors, surface agitators, step covers, jet wash fittings, recessed step in the gutter, integrated deck drain, vinyl liner clamps, tile inlays and dual supply dividing wall gutters.

Fiberglass Grating

Duragrid® Fiberglass Grating

Recreation Supply stocks a wide variety of Duragrid Fiberglass Grating. Fiberglass grating is 400 times stronger than PVC grating and more resistant to staining, scratches and fading from the sun and chemicals. Custom cut in-house to your facility's requirements for fast and easy installation. Duragrid Grating is offered in a variety of widths and lengths, parallel and perpendicular in both "T-Style" and "I-Style". Duragrid Fiberglass Gutter Grating is a widely used and cost effective type of gutter grating for competition pools.

- Strong and Cost Effective
- Better resistance to fading
- Cut to your custom measurements
- Perpendicular & Parallel Configurations
- Can fit a 14" Wide gutter and smaller

When ordering Duragrid, make sure bearing bars in the panel are oriented in the correct direction. Bearing bars should traverse from support to support. Length is measured from end to end of the bearing bars. Cross rods are not intended to be applied in the span direction. Width is measured from end to end of the cross rods.

Daldorado Perpendicular Grating

Perpendicular grating is by far the most popular for deck-drain gutter systems. But did you know that the IBC standard for Child Finger and Toe Entanglement requires a gap opening of no more than 8mm? Daldorado grating meets these IBC guidelines and more to help avoid small fingers and toes from getting hurt.

Available in standard 12", 14" and 16" widths, our perpendicular grating conforms to both radius and straight configurations. Hand holds and curb angles available for true ledge support (radius or straight). Easy and worry-free installation.

All corners are custom manufactured and strengthened for inside-outside corners per design requirements. Fully warranted by Daldorado.

- Complies with the International Child Finger/Toe Entrapment Guidelines featuring a gap opening of only 8mm
- Made of high-grade UV-stable PVC (Axiell 7140) ~ **Certified for NSF50**
- Certified to IBC Classification C For Wet-Barefoot Inclining Platform (Ramp) test for Swimming pool ramps and stairs leading to water, swimming pool surrounds and communal shower rooms, communal Changing Rooms
- Complies with the new IBC standard for strength, specifically access covers and grates (3996 Class A ~ over 10kN)
- Available in three colors ~ white, bone and gray. Other colors available with a quantity guarantee.
- Fully warranted for 10 years** against manufacturer defects with a focus on offering the best customer service in the industry

SILENTFlow™

Daldorado SILENTFlow™ Parallel Grating

Daldorado's SILENTFlow™ commercial pool grating system is the next evolution in parallel grating — with features that surpass any other commercial grating currently sold in the US. All grating features the highest flow rate with an unprecedented 40% open area and whisper-quiet noise reduction.

Available in standard 12", 14" and 16" widths, our parallel grating conforms to both radius and straight configurations. Hand holds and curb angles available for true ledge support (radius or straight). All corners are custom manufactured and strengthened for inside-outside corners per design requirements. Fully warranted by Daldorado.

Challenge-Free Installation

Daldorado's SILENTFlow™ parallel grating has been engineered to make installation so easy you will want to install it on all your pools. No more expansion issues or buckling. Added truss support combined with using the highest quality materials allows for superior strength unmatched by any other grating company (excess of 4,000 lbs).

- Complies with the International Child Finger/Toe Entrapment Guidelines featuring a gap opening of only 8mm
- Made of high-grade UV-stable PVC (Axiell 7140) ~ **Certified for NSF50**
- Certified to IBC Classification C For Wet-Barefoot Inclining Platform (Ramp) test for Swimming pool ramps and stairs leading to water, swimming pool surrounds and communal shower rooms, communal Changing Rooms

EPDM joiners act as expansion joints

Throwaway Cap

Daldorado CapSHURE™ Deck Drain

Available in 2-inch and 4-inch depths

The Daldorado CapSHURE™ Deck Drain System takes deck drains to the next level with robust features not found with any other drain systems. With a 40% open area, Daldorado Drain Packages meet or exceed IBC Standards for finger/toe entrapment guidelines with a gap opening of only 8mm, slip resistant and superior strength to withstand light vehicle traffic.

Each package comes complete in 10' lengths and 4" widths, and include a heavy-duty base with a throw-away cap to keep its form when pouring and setting concrete. This system has everything you need to do the job right.

Features:

- 2" depth for above grade, indoor use or other sub-base limitations
- 4" wide × 4" deep deck drain shipped in 10' lengths
- Straight or custom radii down to 6' inside (2 meters)
- Suitable for indoor/outdoor use
- Open Area ~ 40%
- All grating constructed of high-grade UV-stable PVC (Axiell 7140 - Certified for NSF50) and complies with the IBC Child Finger/Toe entrapment guideline (0.315" (8mm) gap opening
- Strength tested for light vehicle traffic (Certified Load Classification under IBC Standard AS 3996 Class A —over 10kN for grates)
- Certified to IBC Classification C For Wet-Barefoot Inclining Platform (Ramp) test for Swimming pool ramps and stairs leading to water, swimming pool surrounds and communal shower rooms, communal Changing Rooms
- EPDM joiners act as expansion joints
- Dropout drain boxes ~ 12" × 12"
- Plumbing sizes are formed to meet designer's specifications
- Heavy-duty base in gray; grate either white, bone or gray
- Pre-drilled base for ease of leveling & securing before pour
- Delivered with a throwaway cap to keep its form when pouring and setting concrete
- Fully warranted for 10 years**

Commercial Pumps

Pentair EQ Series Commercial Plastic Pump

- Designed in every detail for maximum efficiency
- The only non-corrosive, all-plastic pump designed exclusively for commercial applications
- Exclusive impeller design that provides true breakthrough performance and longer motor life
- Cam and Ramp™ see-thru lid for added service convenience

EQ Series pumps are the high-performance plastic injection molded pumps suited for a wide range of commercial applications. They're built to last, and are incredibly efficient, quiet, lightweight and corrosion resistant. The EQ's unique impeller design moves more water more quickly than comparable pumps. As a result, the pump's motor doesn't have to work as hard, resulting in cooler operation and longer life. The EQ has been subjected to a rigorous design, development, and testing program to ensure that it will handle the toughest commercial applications for years to come.

Also available without strainer with pricing on request.

Pentair EQ Series Commercial Plastic Pump with Totally Enclosed Fan Cooled (TEFC) Motor

The new EQ Series 3-phase pool pumps with TEFC motors are a true commercial-duty swimming pool pump. The TEFC (Totally Enclosed Fan Cooled) motor is much more robust and corrosion proof than standard ODP (Open Drip Proof) motors. This commercial-duty motor construction does not allow ambient air to enter the motor; preventing corrosion from the inside out. The motor design features heavy-duty sealed bearings and an ultra-strong aluminum fan for superior cooling; along with Class F insulation for compatibility with Pentair Commercial Aquatics' Acu-Drive™ Variable Frequency Drives.

Pentair WhisperFlo™ Pump

- Oversized strainer basket and volute – industry standard in pool pumps
- compatible with all cleaning systems, various filters and jet action spas
- Heavy duty construction is designed for long life
- Cam & Ramp™ see-thru lid design
- Self-priming, high flow with patented Funnel-Flo™ diffusers
- 2" suction and discharge ports

The Pentair WhisperFlo™ pump is designed specifically to circulate more water in less time, using less energy and creating less noise. WhisperFlo™ Pumps come with a one year limited warranty.

NSF

WhisperFlo High Performance Pump

Under new Department of Energy regulations, most single speed pumps will fall out of compliance with low performance, greater wear and tear, and constant cleanliness worries. But for some small pools, pumped water features, and other situations, single speed pumps still make sense. So Pentair has adjusted, by making our single speed pumps the first and only to use NEMA Premium® Efficient motors for pool applications—to save the most electricity possible and optimize hydraulic horsepower without sacrificing performance. Which means you can offer your customers a single speed solution that fits their needs and keeps them compliant.

- High-quality proprietary Totally Enclosed Fan-Cooled (TEFC) motor for a long, worry-free life.
- 2" NPT suction and discharge ports.
- Heavy-duty/durable construction is designed for long life.
- Cam and Ramp™ Lid permits easy inspection of the strainer basket and locks in place with a quarter turn for cleaning that is fast and easy.
- Meets DOE minimum efficiency requirements

Pentair Pump Seal Quick Kits

Pentair's Pump Seal Quick Kits include the exact same parts used in production of Pentair equipment. Genuine Pentair seals have been factory tested to provide extreme quality and superior performance compared to generic options. Every seal kit includes a QR code that will take you to a video showing you how to correctly install the replacement parts.

IntelliFloXF® VSF Variable Speed and Flow Pump

- Eight programmable speed or flow settings and built-in timer
- Rotatable keypad with optional wall mount kit (sold separately)
- Top-mounted field wiring compartment is easier to access and connect
- Totally enclosed fan-cooled design keeps motor shielded from the elements for extended life
- Menus are easier than ever to use
- Union connectors included for connecting directly to 2½" or 3" plumbing
- Precisely maintains system flow requirements
- Compatible with Pentair Automation

IntelliFloXF VSF pump is the first variable speed and flow pump that adjusts to changes in flow system conditions to maintain its programmed flow rate. With its available performance and efficiency, it is perfectly suited for large and feature rich pools with high flow demand to power waterfalls, slides, negative edges and more.

Pentair IntelliFlo VS+SVRS Pump

IntelliFlo Variable Speed pumps combine variable drive speed technology, onboard digital intelligence, and permanent magnet motors (used in hybrid cars) to reduce pump-related energy costs by up to 90%. The IntelliFlo VS+SVRS model features a built-in Safety Vacuum Release System that detects drain blockage and automatically shuts the pump off. ENERGY STAR® Certified.

Feature Highlights:

- Ability to program exact pump speeds for specific operations – filtering, heating, cleaning, spa jets, water features and more – reduces energy costs up to 90%
- SVRS complies with Virginia Graeme Baker Safety Act
- Built-in diagnostics protect the IntelliFlo pump from the most common causes of premature failure – overheating, freezing, and voltage irregularities
- Includes priming protection. No SVRS calibrations needed. Built-in SVRS cannot be turned off
- Safety lock-out feature (password protected) prevents pump speed settings from being changed by unauthorized personnel
- Ability to set minimum and maximum speeds so pump will only operate within the ranges set to help assure safe operation and long life
- Compatible with IntelliTouch®, EasyTouch®, and SunTouch® Pool Control Systems
- Compliant with the current ASME A1125.19.17 Standard for Safety Vacuum Release Systems (SVRS)
- Operates seamlessly on 50 hz or 60 hz input power. Flow/speed are constant when operating on 50 hz or 60 hz

WhisperFlo XF™ High Performance Pump

The WhisperFloXF™ pool pump was developed using the most advanced engineering tools available – CFD (Computational Fluid Dynamics) and FEA (Finite Element Analysis). The proprietary impeller design delivers a higher level of precision concentricity for increased efficiency. The proprietary hydraulic isolator smooths the water flow inside the volute, raising the efficiency even higher. With capabilities in excess of 200 GPM, WhisperFlo XF™ is an ideal choice for many commercial applications; especially those involving water features, negative edges and slides.

- New upgraded dual-compartment motor for simplified field wiring
- New hydraulic isolator separates priming water from pumping water for faster priming, more turbulence-free flow and increased efficiency
- New union connectors included for connecting directly to 2½" or 3" plumbing
- Diamond seals made of oxidation-resistant, self-retaining EPDM rubber for increased durability and tighter seal
- Extra-large, robust basket with smooth surface for easy debris removal
- Drop-in replacement for original WhisperFlo; optional 400012 XF Riser Base enables easy Challenger replacement
- Modular plumbing system means less need to cut and glue pipe
- External port threading and tool-free union nuts need only hand-tightening
- Easy-carry handle; Easily removable, ergonomic lock ring; and see-through lid for easy basket inspection
- Compatible with Pentair's Acu Drive XS VFDs

WhisperFloXF VS Commercial Variable Speed Pump

- Integrated motor/drive; no expensive external drive required
- Versatile power input capability; runs off a wide range of single- or three-phase power
- Speed or flow control for maximum efficiency and pool performance*
- External control capability through automation systems or relays
- Intuitive programming and operation
- Meets commercial codes and agency requirements

The WhisperFloXF VS Commercial Pump is an economical, combined motor/drive solution for HMA (hotel, motel, apartment, condominium) installations, providing sophisticated, energy-saving pump technology without the high costs typically associated with independent pump/external drive setups.

The WhisperFloXF VS Commercial Pump features variable speed capability, along with digital controls and proprietary software that allow for custom programming of optimum pump speeds for specific tasks such as filtering, heating, cleaning, and spa jets.

Commercial Pumps

Pentair C Series™ Brass Self-Priming Commercial Pump

The Pentair C Series™ heavy duty commercial pump is specifically designed for commercial, public or other large swimming pools, fountains and water features where high flow rates and continuous operation are desired.

C Series™ pumps come with a **one year limited warranty**.

Features:

- Large commercial pump with s/s basket
- Easy serviceability
- High performance motor for maximum flow
- All-bronze construction for strength and durability
- 6" suction and 4" discharge for maximum capabilities
- Heavy-gauge stainless steel strainer basket with an open area 5 times the area of the suction port
- Closed impeller for longer motor bearing life
- Heat-resistant seal capable of operation at up to 150°
- Available in single and three-phase models

Sta-Rite D Series Cast Iron Self-Priming Pump

Especially designed for commercial and public swimming pools and spas, aquatic facilities, water parks and fountain applications where high performance and self-priming characteristics are desired. These self-priming, high performance pumps are available in high head and medium head models, providing a complete range of performance characteristics. Motors are open drip-proof, continuous duty rated 3450 RPM.

Features:

- Back pull-out design allows entire motor to be removed for servicing impeller, seal or motor without disturbing plumbing
- Suitable for outdoor installation
- Precision cast and machined bronze impeller is dynamically balanced for long seal life and quiet operation. Non-overloading
- 200 Volt models available
- 2", 2½" or 3" suction port and 1½", 2" or 2½" discharge port

Sta-Rite CSP Series Cast Iron Self-Priming Pumps

For commercial and public swimming pools and spas, aquatic facilities, water parks and fountain applications where high performance and self-priming characteristics are desired. Rugged, self-priming CSP Series commercial pumps feature an enclosed bronze impeller, standard 6" x 4" flange connections, plus a 1,100 cubic inch capacity hair and lint strainer. Motors are standard JM type, NEMA® Rated "C" flange design with a stainless steel shaft sleeve. These cast iron pumps are available in 7½, 10, 15 and 20 HP, and may be purchased with or without corrosion-preventing epoxy coating on all wetted surfaces. Pump and strainer sold separately.

Features:

- Cast iron construction, enclosed bronze impeller and bronze wear rings for long lasting reliability
- Exceptional self-priming design with hair and lint strainer installed; allows pump to be installed above or below water level
- Nationally recognized NEMA standard motors offer high performance under continuous operation
- Back pullout design enables servicing of normal wearing parts without disconnecting piping
- Dimensionally compatible with most installations for easier initial hookup or retrofit
- Integral design base is slotted for ease of mounting

Aurora 3800 Series Single Stage End Suction Centrifugal Pumps

Liquid handling requirements have evolved over the years and have increased along with temperatures and pressures. Today's installations demand sturdy but quiet, smooth running pumps with longer life cycles. These modern pumps with a clean, straightforward and updated design were developed with upgraded materials of construction and a simplified offering without limiting ranges and keeping maximum interchangeability in mind. These pumps not only feature shared hydraulics and premium materials as standard offering, but also offer industry leading durability.

Features:

- Sturdiest power frames in the industry
- Foot mounted and double volute
- Standard back pullout
- Direct replacement to the largest installed base
- Exceeds U.S. Department of Energy (DOE) pump efficiency standards
- Redesigned pumps provide higher efficiencies
- Shared features and standard upgrades

Contact us for selection assistance and pricing.

Berkeley Close-Coupled Centrifugal Pumps

Where a large volume of water is needed, in flooded suction applications, Berkeley brand pumps can accommodate almost any water-moving needs. Berkeley brand pumps have been one of the top names in the water systems for decades. Once recognized for only being affiliated with irrigation and water systems, Berkeley pumps are now available in many configurations to be used in water features, water parks, aquaculture, and commercial pools & spas.

Contact us for selection assistance and pricing.

Additional Quality Features:

- The motor is close-grained cast iron, providing the strength necessary to minimize deflection and maintain positive alignment. Precision machined to assure proper component sealing
- High-quality, self-lubricating mechanical shaft seal with corrosion resistant metal parts provides maintenance free operation and maximum abrasion resistance without leaking. Optional seals available for special applications
- Multiple taps supplied for easy priming and draining
- Replaceable stainless steel shaft sleeve provides maximum corrosion resistance and protects shaft from wear
- Enclosed impeller is designed and machined to optimize performance and operating efficiencies. Mechanically balanced to reduce bearing loads and increase life. Keyed and locked to motor shaft. Trimmed for maximum efficiency of both pump and motor
- NEMA standard motors

Speck Pumps Model 95

High Performance Plastic Commercial Pool Pump

The ultimate in small commercial design, the Model 95 achieves the performance of much larger, complicated, ANSI flanged pumps in a simple, unionized, one-piece housing.

- Large one-piece housing design with integrated strainer basket and easy on/off two-piece lid.
- Quiet and efficient pump performance.
- This high-performance pump comes complete with Speck's unique mechanical shaft seal that allows the pump, if mistreated, to run dry for up to one hour.
- The pump can be used for pool water with a salt concentration of up to 5000 ppm.
- Equipped with 4" quick disconnect unions for easy installation and maintenance. A wrench for unions and lid is included with each pump. Flanges are available on request.
- Heavy-duty energy efficient totally enclosed fan cooled (TEFC) motor designs. Motor starter required (purchase separately).
- VFD compatible with direct mounting options available (Three Phase Only).
- Every pump is performance tested before leaving the Speck factory.

Also available with VFD mounted. Contact us for selection assistance and pricing.

Submersible Utility Pump

The PCD-1000 submersible, portable, high capacity pump designed for use by the professional in draining pools and spas as well as for general purpose applications, now has improved flow rates and stainless steel casing, suction strainer, impeller and shaft for greater corrosion resistance and longer service life. The PCD-1000 can pump water down to 1-3/8 inches in depth. Debris and stones up to 3/4 inch are able to pass through the pump. It also features a 1-1/4 inch discharge port for faster draining. Discharge port adapters are included. Optional float switch included; switch stops pump when low water level reached. Remove float switch for constant run.

Features:

- 115V, 60 Hz single phase, permanent split capacitor motor
- Automatic thermal overload protection
- Clog-resistant cast stainless steel impeller
- Accommodates water temperatures ranging from 32° F to 130° F
- Permanently lubricated ball bearings
- Equipped with 15', 18/3 grounding type power cord
- Convenient top-mounted handle
- Rubber feet to eliminate scratching
- Optional float switch included

Description

Stainless Steel Submersible Pool Service Pump

Strainers and Baskets

Fiberglass Strainer

FPT SW Series basket strainers are designed specifically for aquatic applications. These strainers offer the corrosion resistance of PVC combined with the mechanical strength of fiberglass plus the durability of stainless steel baskets. The SW Series strainers are hydrostatically tested at 100 PSI and are rated for 75 PSI working pressure. They are available in pipe sizes 3" through 24" for flow rates of up to 15,000 GPM. Drawings and dimension information are available on request. Stainless steel basket included.

Stainless Steel Strainer

FPT SW Series stainless steel strainers are manufactured from Schedule 10, 316 stainless steel pipe. Van Stone type flanges are 316 SS stub ends with 304 SS back up rings.

The cover flange is 1" thick acrylic sheet, secured with 304 SS eyebolts and tee handles. A 1/4" thick neoprene gasket is standard (Viton or EPDM materials are options).

Baskets are 316 stainless with 1/8" perforations on 3/16" centers, producing 40% open area. Larger or smaller perforations are available. Please call for details.

Flanged Concentric Reducers

Our flanged concentric and eccentric reducers and designed specifically for aquatic piping systems where maximum resistance to corrosion, pressure, and temperature is required. Our reducers are available in Fiberglass Reinforced Plastic (FRP)/PVC or high-grade T304 stainless steel in sizes ranging from 2" to 16". Concentric reducers are designed for pump discharge and eccentric reducers are designed for pump suction. Eccentric reducer configurations are available at the same prices as the concentric configurations. Additional size configurations are available with pricing on request.

Hair and Lint Strainer Baskets

Recreation Supply Company supplies a complete line of strainer baskets. If your basket is not a standard item, our facilities and equipment are geared to produce professional quality stainless steel baskets. An actual sample of your old basket is preferred. Please call for pricing information.

How to Order a Strainer Basket

Please provide the following information:

1. The pump manufacturer's name
2. The make and model number on the pump or complete dimensions of the basket
3. Style: Slant top - Flat top or Tapered
 - A. Height of tall side - under the lip
 - B. Height of short side - under the lip
 - C. Outside diameter of the basket
 - D. Width of basket including the lip
 - E. Width of the lip
 - F. Outside diameter on bottom of tapered basket

Strainers and Variable Frequency Drives

Pentair PS Series™ In-Line Strainers

Designed for ease of installation and hydraulic efficiencies in commercial aquatics applications. Three standard sizes, but with the addition of eccentric reducers, PS Series strainers fit with almost any plumbing configuration. ANSI flange bolt pattern allows for ease of installation and peace of mind.

Features:

- Superior design for hydraulic performance
- Clear lid with easy access allows for simple visibility of debris
- Extra large stainless steel strainer basket
- 50 PSI rating
- NSF listed

Mueller Cast Iron Strainer

Mueller simplex cast iron basket strainers are designed to achieve maximum straining efficiency. They have provided competitive economical flow control solutions worldwide. They are constructed of durable cast iron and feature flanged ends with a clamp type cover. The 2" - 12" models are rated 200 PSI at 150°F and have flanged ends. The 14" - 16" models are rated 150 PSI at 150°F and feature vertical swing clamps.

Eco-Flow-C® Aquatic Variable Speed Drives

The Eco-Flow-C® Aquatic Variable Frequency Drive from H2flow is ideal for the hostile environment of a pool equipment room. Its standard rugged NEMA 12 configuration and Aquatic Controller make it a durable and user-friendly solution for even the most unforgiving commercial pool room environments.

Features:

- Rugged ¾ die cast aluminum body with NEMA 12 construction for durability
- Aquatic Controller for simple operation yet sophisticated capability
- Multiple programming options for optimal energy & system efficiency
- Patented Load Curve Monitoring protects the pump and system from inadvertent events, i.e., power fluctuations, loss of prime, closed suction / discharge valves, dead heading, worn impeller detection, over load, under load conditions
- I/O capacity for integration with other mechanical room equipment
- BMS (Building Management System) capable for monitoring and control
- Optional Bypass Control with integrated Aquatic Controller
- Live local and national support for prompt assistance if needed

Contact us for selection assistance and pricing.

Acu Drive™ XS

Features:

- Save up to 60% or more on pump's electricity usage
- "Right-size" your pump to the exact flow required
- Saves energy with constant flow as the filters gets dirty (with optional flow sensor)
- Off-hour flow management capability
- Does not blow corrosive filter-room air across the circuitry
- High efficiency up to 98% - adjusts drive input voltage for best efficiency point
- Eliminates need for motor starters
- Integrated disconnects, fusing and optional bypasses
- 2-step ramps (Soft Start Feature)
- Real-time clock for time based functions
- Overload trip protection protects motor and Acu Drive from Voltage Spikes and phase unbalance
- Can connect to an IntelliTouch system
- Up to a 6 year on-site warranty available
- Start-up included with every drive (technical training option available)
- Indoor & Outdoor-rated enclosures
- One drive type for the full power range
- For use with 3 phase pumps only

The Acu Drive XS™ offers built-in intelligence for increased performance in all aquatic pump applications. Specified to save energy, space, costs and time, the Acu Drive XS is built to be the heart of the pump room. With minimal payback time due to energy savings and equipped with a unique feature which continuously displays the time remaining until the drive pays for itself. Built with powerful standard and optional features specifically designed for energy optimization, the Acu Drive XS is perfectly matched with the full line of Pentair Water Commercial Pool and Aquatics' pumps.

THREE LOCATIONS TO SERVE YOU BETTER! • MOST IN-STOCK ORDERS SHIP THE SAME DAY!

Eureka Hi-Rate Sand Filters

The Hi-Rate Filter concept employed in Eureka Manufacturing Company's HRL, HRL2C, and HRG Hi-Rate Permanent Media Filters has been refined and tested with thousands of systems successfully installed and operating throughout the world. This experience has tested the original premise of the design, making the Hi-Rate an effective, proven method of water filtration.

These filters are designed for and installed in large, commercial aquatic centers, public swimming pools, and commercial water parks.

Our Hi-Rate Permanent Media Filters are manufactured in sizes from 30 inches diameter up to 120 inches diameter. The filters are available in single and multi-vessel configurations, as well as with multiple cells inside a single vessel.

Our filters, in single or dual vessel configurations will service pools with total volumes ranging from 50,000 gallons up to 550,000 gallons. Flow ranges can be accommodated from 142 gpm up to 2,086 gpm. Larger pools or higher flow rates are also readily available.

Eureka Commercial Hi-Rate Permanent Media Filter Systems

Features:

- Tested and Certified by NSF International
- Flow rates of up to 20 gpm per sq. ft. of filter area
- Standard models filter from 26,640 gallons per six hours to 565,200 gallons per six hours
- Low maintenance, easy to operate
- High backwash rates without loss of media
- Automated Backwash Control available

Item Number	Model Number	Diameter	Filter Area (Sq. Ft.)
FFHRL4875	HRL48	48"	12.6

FFRL12075	HRL120	120"	78.5

Eureka Commercial Dual Cell Hi-Rate Sand Filters

HRL Dual Cell Hi-Rate Sand Filters are single vessels that contain two separate permanent media filter cells inside. HRL Filters have high filter capacity, but take up relatively little square footage in an equipment room.

HRL Filters share all the same great features as the classic Swimquip Hi-Rate Filters, including ease of use, low maintenance requirements, and optional Automatic Backwash Control Systems.

Eureka/Swimquip Filter Parts

We stock a complete line of filter parts for Eureka and SwimQuip HRG and HRL series Hi-Rate Sand Filters and SwimQuip HB/F D.E. Filters

HRL/HRG Hi-Rate Permanent Media Filters

For decades, the HRG and HRL Series Hi-Rate Permanent Media Filters have been widely used throughout the world. Today, thousands of commercial aquatics facilities employ these easy to operate, reliable commercial water filters. If you are faced with the failure of your commercial filtration system due to aging parts, contact our sales engineers for our complete selection of replacement components.

A complete catalog of parts for your older HRG or HRL system is available. Call 1-800-437-8072 for your free copy today!

HB/F D.E. Filters

The HB/F diatomaceous earth filter system is no longer in production. However, we do carry a number of replacement parts for these popular systems. To extend the useful life of your trusted equipment, call us at 1-800-437-8072 for specifications or to have a list of available parts faxed immediately to you!

Please call our sales engineers for information on multiple cell or multiple tank systems, to receive a brochure about these filters, or to compare our competitive prices.

Pentair THS and Waterco Filters

Pentair THS Series Horizontal Sand Filter

Pentair has engineered a state-of-the-art horizontal sand filter unlike any other on the market. The THS filter is an NSF-approved 50 PSI rated tank with flow rates up to 535 gallons per minute.

The filter shell is manufactured from a unique and lasting composite laminate design that makes winding unnecessary. A special gel coat inside and out gives the THS Series a smooth and attractive finish.

The THS Series design significantly exceeds typical operating pressures found in most commercial and residential applications. The THS filter provides high performance with minimal maintenance. Sand must only be replaced once every five years with proper maintenance, and each THS filter comes with a **10-year tank warranty**.

Features include:

- Manway in front for easy access and smaller footprint
- Optional manual, automatic, or semiautomatic systems
- 6" flanged connections
- Internal manway seal to prevent leaks.
- Accessible drain
- Lateral V-slots for self-cleaning
- Influent manifold distribution to prevent clogging
- Single-bolt saddles for easy leveling
- NSF certified from 5-20 gpm/sq ft

Waterco Commercial Fiberglass Sidemount Deep Bed Filters

Micron fiberglass filters embody the latest in fiberglass winding technology. Waterco's computer controlled filament winding machine faultlessly winds continuous strands of high quality fiberglass filament under controlled tension to create a seamless one-piece vessel with refined consistency and superior quality. There are no welds or seams or special tank linings which can corrode or electrolyze.

Manufactured from the highest grade of non corrosive materials and employing the latest in fiberglass winding technology, Micron fiberglass filters are designed and built for many years of trouble free operation.

- Available in top mount, side mount and horizontal configurations from filter areas of 0.87 sq m/9.3 sq ft to 10.0 sq m/110 sq ft Pressure rated at 400 kPa (58 psi) and up to 800 kPa (118 psi)
- Optional sight glasses and lateral man holes
- Optional fiberglass reinforced vinyl ester for improved chemical resistance and compliance with NSF61

Micron "Fish Bone" laterals

Conventional laterals are not suitable for larger sized commercial filters. "Dead legs" exist between the laterals and water flow is not optimized through the filter bed. Waterco's "Fish Bone" lateral configuration eliminates any "dead legs" by improving water flow distribution through the filter bed.

Deep Bed

The effect of deep media bed improves the filtration efficiency over standard High-rate filters by providing enhanced in-depth filtration and increased dirt capacity. In addition, the greater bed depth permits efficient use of mixed bed filter media and water treatment media such as granular activated carbon.

The filter's 1000 mm (39") media bed ensures that finer dirt particles and colloidal substances are retained to a far greater level than a filter with a shallower bed depth. Also available with flanges.

Pentair Triton II Sand Filter

Triton II features the patented Glas-Lok one-piece reinforced tank with UV-resistant finish for years of unequalled strength and durability. The slotted lateral design provides superior flow characteristics and long filter cycles for economical operation and backwashing. The heavy-duty closure provides easy inspection, and features an easy-to-read pressure gauge and air relief valve. Triton II's swing-away diffuser allows instant access to sand and all internal parts. All internal parts are threaded for ease of service. Bulkhead connectors are threaded for easy installation and service. Combination sand and water drain makes servicing and winterizing fast and easy. Maximum operating pressure is 50 psi. Order Triton II valve separately. Models TR100C-3 and TR140C-3 feature standard 3" flange connections.

Pentair Triton Valve

Efficient Hi-flow 2" multiport valve directs system operator through filter backwash, rinse, waste, recirculate, closed and winterize functions.

Cartridges for Cluster Style Filters - SuperTuf 6

Each SuperTuf/6 polyester plus cartridge has 6 square feet of filtering area which filters from 20 microns down. This superior cartridge lasts longer and is more chemical-resistant as its fibers won't swell or delaminate. The SuperTuf/6 features a rugged PVC center tube and welded end caps which keeps pleats and tube permanently sealed for maximum structural strength and long life. Its corrugated construction keeps pleats separated providing clear channels for maximum flow under all conditions.

Sta-Rite Cartridge Filter and Gauges

Simply Smarter.

Sta-Rite System 3 Cartridge Filters

Sta-Rite's advanced technology has brought an entirely new class of filtration to the industry. Sta-Rite's modular media concept incorporates the latest in media science, perfectly balanced flow, and an integral manifold design. Split-tank design opens easily to allow convenient access for cleaning or changing filtration media. Posi-Lok™ clamping system is safe and easy for adult access, yet tamper resistant for kids. Dura-Glas® exterior is durable, lightweight and corrosion resistant for years of trouble-free operation, regardless of temperature extremes. Sleek black tank profile blends well into any landscape design.

Infrequent cleanings are a snap; simply remove the tank top and rinse the filtration modules with ease. Their removal is not necessary for normal maintenance.

Through-tank bulkhead fittings feature full 2" diameter clear flow. Hand secured against o-ring seals, the bulkhead fittings allow for union style connection to any of the Sta-Rite slide or multi-position valves.

Valves

Lever-Style Operator

Gear-Style Operator

Asahi Pool-Pro® Butterfly Valves

- PVC/PVC/EPDM construction: Ideal for chlorinated water applications. Submersible valve body
- Blue handle design: Blue handle designates the proper valve is in place for chlorinated water applications.
- Stainless steel stem: Stem does not come in contact with the media, but is still compatible in direct contact.
- Thermoplastic material: Lightweight construction allows for easy installation.
- ISO mounting pad: Allows for field mounting of accessories including stem extensions, gear operators & automation.
- 18 position throttle plate: For lever handle style

Cla-Val Float Valve

The Cla-Val Model 624-01 Float Valve is a non-modulating valve that accurately controls the liquid level in tanks. This valve is designed to open fully when the liquid level reaches a pre-set low point and close drip-tight when the level reaches a preset high point.

Standard model includes two feet of PVC rod and a plastic float ball. Also available with epoxy coating, flanged connections, stainless steel rod and/or stainless steel float ball with pricing on request.

Features:

- Accurate and repeatable level control
- On-off of non-modulating action
- Fully adjustable high and low level settings
- Simple design, proven reliable
- Easy installation and maintenance

Item Number	Valve Size	Connection

Item Number	Description
FF306CL10	Stark Filtration 6" Clear Backwash Valve, Flanged

Eureka High Capacity Balance Tanks

Eureka High Capacity, Commercial Balance Tanks absorb the rise in water level, or "static surge", created by swimmers entering the pool, which prevents the loss of heated and treated water and reduces the long-term operating costs of the facility.

Eureka's Balance Tanks are constructed of ASTM A36 carbon steel. The tanks are each equipped with replaceable sacrificial anodes that protect the tank from corrosion caused by electrolysis.

Custom designed tanks (including stainless steel tanks, open topped tanks, rectangular tanks, and extra large capacities) are available.

For sizing assistance or specifications call 1-800-437-8072.

Pentair Pool Heaters

Pentair PowerMax™ Commercial Heaters

The PowerMax is packed with advanced features specific to the commercial swimming pool and water theme park market. Available in seven sizes from 500,000 to 2,000,000 BTU/h, PowerMax is Low NOx approved, runs reliably on natural or LP gas, and delivers efficiency levels up to 85%. With superior overall construction and high-efficiency combustion, PowerMax can cut fuel costs significantly compared to conventional water heating systems. Savings can amount to thousands of dollars over the life of the equipment.

PowerMax makes service easy and operation reliable. Whether you use room or outside air for combustion, vent into a chimney or through a sidewall, or install indoors or outside, PowerMax is ready "out of the box." And we have made installation easier by providing a control system that gives installers several different operation modes, selected with the touch of a button. Controls are also service-friendly, with clean and simple wiring, and are readily accessible in a slide-out drawer. Please call us for sizing and pricing assistance.

Features:

- Seven sizes delivering up to 85% efficiency ratings and meeting all low NOx requirements
- Reliable operation in natural gas or propane models
- Fan assisted and filtered combustion air
- Dual ignition systems for models over 750,000 BTU
- Built-in mixing system reduces condensation possibilities
- Fits through standard doorways
- Gas supply right or left side
- CSA certified
- CSD-1 and other options available

Sta-Rite Max-E-Therm® Pool and Spa Heater

Features:

- Lightweight – Lightest heater in its class
- Best-in-class – energy efficiency*
- Compact Design – Ideal for retro-fit installations
- Easy to Switch – Change gas sources with installation of separate orifice
- Environmentally Friendly – All units are low NOx
- Rustproof Housing – Sleek, matte black enclosure is made of Dura-Glas™ – an exclusive Sta-Rite material that handles the heat and weathers the elements
- Lower Operating Costs – 84% efficiency rating – rated 1st in its class for highest energy efficiency

Custom or Retrofit – Direct-connects to Sta-Rite System 3® Mod Media™ filter or easily fits other systems For indoor or outdoor installations on pools and spas. Features include an LED temperature readout with dual thermostat controls, temperature safety lockout, and 6-position control panel. PMG burner technology requires no outdoor draft hood. Proven Dura-Glas™ rust-proof construction with plastic manifold and PVC union connections. Heavy-duty (HD) unit with cupro-nickel exchanger stands up to the harshest of applications, like low pH, high flow or heavy use.

Pentair UltraTemp® Commercial Heat Pump

Now there's an UltraTemp® heat pump that's been designed specifically for commercial pools and aquatic facilities. UltraTemp is ideal for hotels, motels, apartments, condominiums and community/association pools that use 3-phase power. With eco-friendly technology that meets mandatory 2010 refrigerant requirements, energy efficiency and a long list of standard features, UltraTemp is the perfect solution for combating rising heat costs.

Features:

- Proven Emerson Copeland Scroll compressor that's efficient, durable, reliable and quieter than piston driven compressors
- 10% increase in energy efficiency vs. single-phase units.
- 100% pure titanium heat exchanger for corrosion-free performance and extra-long life
- Thermostatic Expansion Valve (TXV) controls refrigerant flow for optimum efficiency and BTU output over a wider operating range
- Automatic Defrost feature senses refrigerant temperature and prevents UltraTemp from freezing in cold temperatures
- Self-diagnostic software continuously monitors UltraTemp heat pump's operation for peak performance
- The first swimming pool heat pump that uses EPA-recognized R-410A refrigerant and meets 2010 mandatory requirements
- UL, CSA, and ETL Listed
- BTU and efficiency independently certified by the Air-Conditioning, Heating and Refrigeration Institute, AHRI

Call 1-800-437-8072 for Pricing, Specifications or Replacement Parts.

Raypak Hi-Delta Heaters

Raypak's Hi Delta is easy to install, operate and service. The Hi Delta has a patented burner with an innovative design that provides an optimized air-gas pathway for complete combustion. This makes the Hi Delta the most adaptable sealed-combustion boiler on the market today. The touch panel display on the Hi-Delta includes onboard diagnostics. In the event of any system problems, technicians can quickly review the fault history of the unit.

The Hi Delta product family covers the full spectrum of both indoor and outdoor applications including space heating, process heating, pool heating and domestic hot water heating. When installed indoors, the Hi Delta's versatility is revealed via smaller vent diameters, direct-venting capability, and the convenience of stacking to decrease the footprint for multiple appliances.

Features:

- 83.1% efficiency
- Multiple vertical venting and sidewall venting options. No extractor required for sidewall applications up to 70ft on room air
- All models indoor/outdoor certified
- Patented burner "security blanket" enhances staged combustion, minimizes installation/start-up issues, and protects burners from metal fatigue
- 105°F minimum inlet water temperature
- Cupro-nickel finned-tube heat exchanger with brass headers. AB 1953 compliant
- VERSA IC® control package with LCD display
- Status display lights
- Cascade control of up to 8 units, no external sequencer required
- Diagnostics center
- Modbus RTU BMS port (RS485)
- 0-10 VDC BMS Interface (set point or direct drive)
- Ducted combustion air capable. TruSeal® CSA-Certified direct-vent available
- Models 992C-2002C certified to SCAQMD Rule 1146.2. Meets all Low NOx regulations
- All models except 2002C available for natural gas and propane. Model 2002C available for natural gas only
- Certified to the ANSI Z21.56 pool heater standard

Raypak XTherm Professional Condensing Heaters

Raypak's XTherm product packs everything you need into one cabinet – a vertical heat exchanger, ultra-high efficiency (up to 97%), a heater pumping package, easy-to-understand diagnostics, low emissions, even a built-in multi-unit controller. The result is a pool heater that is practically plug-and-play.

Options:

- BACNet IP, BACnet MS/TP, Modbus TCP, N2 Metasys (B-85)
- Lonworks (B-86)
- PVC Vent – Factory-Installed ONLY (D-32)
- Centrotherm® Polypropylene Vent Adapter (D-33)
- Alarm with 4" Bell (E-5)
- Low Water Cutoff (F-10)
- Condensate Neutralizer (Z-12)

Features:

- 97% Thermal Efficiency at Full Rate
- Positive vent pressure, Condensing Appliance - Cat IV Vent Required
- Bronze Headers with Cupro-Nickel Finned-Tube Primary Heat Exchanger. 316L Stainless Steel Condensing Heat Exchanger. ASME Section IV constructed and stamped, National Board registered
- CSA Low-Lead certified, less than 0.25% Lead.
- Certified to ANSI Z21.56
- Minimum Continuous Inlet Water Temperature: 50°F
- Maximum Setpoint: 106°F
- On/Off Operation with Soft Start
- VERSA IC® Control Package with LCD Display
- Status Display Lights
- Cascade control of up to 8 units, no external sequencer required
- Diagnostics Center with History, English, no codes
- Modbus RTU BMS port (RS485)
- 0-10 VDC BMS Interface (Setpoint or Direct Drive)
- All models indoor/outdoor construction
- Engineered with precisely matched system components
- 100% Factory Fire Tested
- Complete cabinet protects all controls and wiring. Tough, rust-resistant powder-coat finish
- Suitable for altitudes up to 10,000 ft. (derate above 5,000 ft.)
- Available for natural gas or propane
- Integral Combustion Air Filter (MERV8)
- Quiet Operation
- Proudly Assembled in the USA

Call 1-800-437-8072 for Pricing, Specifications or Replacement Parts.

Raypak MBV Vertical Pool Heaters

Time-honored technologies unite with cutting-edge advancements in Raypak's MBV modulating vertical pool heater. Small space is no longer a problem, and our compact design fits through a 32" door opening to make it the perfect choice for those hard-to-reach retrofit projects.

Options:

- BACNet IP, BACnet MS/TP, Modbus TCP, N2 Metasys (B-85)
- Lonworks (B-86)
- Alarm with 4" Bell (E-5)
- Low Water Cutoff (F-10)
- Cold Water Run
- Condensate Neutralizer (Z-12)

Bypass Options:

- Standard external bypass uses a user adjustable valve to adjust bypass flow and achieve cold-water protection.
- The Cold-Water Run option provides electronic control of a variable-speed pump to continuously adjust bypass flow, achieving real-time cold-water protection.

Features:

- 83 to 83.3% Thermal Efficiency at Full Rate
- Negative vent pressure, Non-condensing Appliance - Cat I Vent Required
- Bronze headers with Cupro-Nickel finned tube heat exchanger standard. ASME Section IV constructed and stamped, National Board registered
- CSA Low-Lead certified, less than 0.25% Lead
- Certified to ANSI Z21.56
- Minimum Continuous Inlet Water Temperature: 105°F
- Maximum Setpoint: 106°F
- On/Off Operation with Soft Start
- VERSA IC® Control Package with LCD Display
- Status Display Lights
- Cascade control of up to 8 units, no external sequencer required
- Diagnostics Center with History, English, no codes
- Modbus RTU BMS port (RS485)
- 0-10 VDC BMS Interface (Setpoint or Direct Drive)
- All models indoor/outdoor construction
- Certified under SCAQMD Rule 1146.2. Meets all Low NOx regulations
- Engineered with precisely matched system components
- Smallest installed footprint (5.4 square feet) design fits tight spaces and easily replaces larger boilers
- 100% Factory Fire Tested
- Complete cabinet protects all controls and wiring. Tough, rust-resistant powder-coat finish
- Suitable for altitudes up to 10,000 ft. (derate above 2,000 ft.)
- No boiler condensate drain required
- Available for natural gas or propane
- Integral Combustion Air Filter (MERV8)
- Multiple Pump Outputs – Boiler Pump, System Pump
- Whisper-Quiet Operation
- Proudly Assembled in the USA
- Certified to the ANSI Z21.56 pool heater standard

Call 1-800-437-8072 for Pricing, Specifications or Replacement Parts.

Raypak XTherm Professional Indirect Heaters

The Professional Indirect Pool Heater, utilizes Raypak's ultra-high-efficiency XTherm boiler which drives a highly efficient indirect heat exchanger. The Professional Indirect is corrosion resistant and comes as a factory built skid system, so no set-up is required. It is easy to install and commission. The

Professional Indirect provides high-efficiency heating with minimal maintenance, perfect for heavy commercial usage, such as competition pools.

Features:

- 96% thermal efficiency
- Condensate treatment kit
- VERSA IC® with Raymote™
- Reversible PVC venting
- Pre-plumbed boiler loop with system pump and expansion tank
- Corrosion-resistant cupronickel or titanium indirect heat exchanger

Call 1-800-437-8072 for Pricing, Specifications or Replacement Parts.

Smaller Application Heaters and Thermometers

Raypak Professional Series Gas Heater

Designed specifically for commercial properties such as apartments, condos, hotels, motels, schools, parks, community and high-end private pools. It is also perfect for tough coastal weather conditions where salt air challenges durability.

- Microprocessor-controlled Thermostat
- Self-diagnostic
- Remote-compatible
- Stainless steel burners
- Liberal use of stainless steel materials throughout for maximum durability
- Brass headers and cupro-nickel tubes are standard
- ASME compliant
- 3 year warranty

Model Number	BTU/Hour Input	Gas
R268	266,000	Natural or Propane
R408	399,000	Natural or Propane

Raypak Digital ASME Heater

- Digital LCD for temperature control and heater settings
- Bronze headers
- Microprocessor controls diagnostic readout and continuously monitors operational status
- Unitherm governor eliminates condensation
- Small footprint
- High-wind reliability
- Stainless steel burners
- 125# pressure relief valve
- ANSI Z21.56 design certified
- Outdoor top is standard; indoor top may be added for slight additional charge
- Copper exchanger is standard; cupro-nickel exchanger option is available
- Specify installation elevation when ordering.

Raypak Millivolt ASME Heater

Standard Features:

- 2" glass-lined cast iron headers
- Unitherm Plus eliminates condensation
- Small footprint
- High-wind reliability
- Stainless steel burners
- 125# pressure relief valve
- ANSI Z21.56 design certified
- Outdoor top is standard; indoor top may be added for slight additional charge
- Copper exchanger is standard; Cupro-nickel exchanger option is available
- Specify installation elevation when ordering.

In-Line Thermometers

Small diameter stem and powerful low mass temperature element provides fast response to any temperature change. A stainless steel case, stem and connection, hermetically sealed, climate-proof instrument. Outside temperature will not affect the performance of these thermometers. Face: 3" diameter.

Item Number	Description
JJSL150	3-1/2" stem, 1/2" NPT nylon well. Dual scale 30-130°F, 0-55°C
JJSL-2D50	2-3/4" stem, 1/2" NPT brass. Dual scale 50-220°F, 10-100°C
JPSWN50	Well for JJ-SL150 thermometer

Coates Electric Heaters

These pool and spa heaters feature a built-in flow switch to prevent operation when there is no water flow. An all stainless steel tank ensures corrosion resistance and a long service life.

Model CE: 19" L x 10" W x 11" H, 1 1/2" male NPT connections
Model CPH: 24" L x 12" W x 13" H, 1 1/2" male NPT connections
Model PHS: 28" L x 15" W x 15" H, 2" male NPT connections

Standard Features:

- Stainless steel tank
- Digital thermostat
- Incoloy heating element
- Manual reset high-limit
- Flow switch
- Element, flow and high temp 'on' lights
- Element fusing on units over 48 amps
- U.L. listed for indoor/outdoor installation
- PHS-CN models specifically designed for salt water systems are also available

B	CC13004	Brass Tube Thermometer
C	CC13604	E-Z Read Thermometer

ThermGard® Insulated Swimming Pool Cover

ThermGard® Standard and Deluxe Insulated Swimming Pool Covers are the culmination of over 20 years of pool cover manufacturing experience. The heart of a pool cover system is the fabric. ThermGard® uses a seven-layer, custom-laminated polyethylene to provide the optimum in insulation and durability. Over a dozen different materials are used to construct a single cover. Each raw material is of the highest quality available.

Covers are custom made to insure fits. Cutouts for ladders, handrails, slides, and other water features are included. A choice of edging is available to offer wind resistance, if necessary. Lock stitching is used throughout each cover. ThermGard® covers are backed by a factory warranty.

Call 1-800-437-8072 for a Price Quote

Cover for Thermal Cover Storage Reel

Whether to protect your thermal covers and/or reels from the elements or simply to hide them from view, these covers are ideal complements to your thermal cover system.

Thermal Cover Storage Reel

Our Thermal Cover Storage Reels are designed for cover handling ease and durability, with aesthetics in mind. Each reel is constructed entirely of grade 304 stainless steel. Round tubing is used to blend with other deck equipment and all visible tubing is mill polished to a mirrorlike finish. Easily the best looking storage reels available, they are also the strongest. The reel frames are the only all-welded units in the industry. Heavy duty .120" tubing offers capacity of 150 lineal feet of cover per winding tube. Reels are available in single, double, and triple winding tube configurations. Our storage reels are the perfect complement to ThermGard® covers for a total pool cover system.

Merlin Professional Safety Covers

Considered by many as the most innovative company in the marketplace, Merlin Industries, Inc. can custom design and manufacture a perfect fitting cover for any pool!

For years, commercial pools have gone without covers during the off season. This has lead to increased opening costs, unattractive and potentially unsafe pool sites and unnecessary wasted water each year as these pools are drained and re-filled to get ready for the season.

With a Merlin Professional Safety Cover, you get the safety, security and aesthetics Merlin Professional Safety Covers have been providing for over 20 years.

Offered in both Mesh and Solid materials, Merlin can manufacture a cover that is a perfect fit for your site's needs. The flag ship of the Merlin Professional Safety Cover line is SmartMesh™. With over 5 years of development and over 6 years in the marketplace, Patented SmartMesh™ has proven to be a true innovation in safety cover material design and a great cover material for commercial applications.

SmartMesh™ is a mesh cover which allows water to pass through it, at the same time blocking 100% of the sun's algae breeding U.V. rays! This translates into a cleaner pool opening in the spring without a lot of cover maintenance during the off season. SmartMesh™ also filters the water as it passes through it. SmartMesh™ filters particles as small as 40 microns. This filtration ability is similar to a sand filter! SmartMesh™ also boasts superior burst strength and abrasion resistance. Now that's innovation! SmartMesh™ covers are backed by a 15 year limited pro-rated warranty. Merlin Professional Safety Covers feature American made materials and hardware designed to last and perform for years. Merlin's standard cover hardware features a special "no jam" thread design brass deck anchor, stainless steel buckles and the strongest stainless steel spring on the market able to withstand 127 pounds per inch of compression! For pools with raised water features such as spas, waterfalls or grottoes, Merlin features a high tension stainless steel cable system which allows for a clean custom installation in these areas. Merlin also offers special cut-out options for items such as mushrooms, spray features and water park components.

Better materials, better design and better customer support make Merlin Professional Safety Covers the best choice for your pool no matter how simple or complex it may be. Call us today for your custom quotation.

J & J Electronics Pool Lights and Fixtures

PureWhite® LED Pool Light

PureWhite LED Pool Light Fixtures provide an LED lighting alternative to inefficient incandescent lamps, for installations requiring a wet niche fixture. They significantly reduce energy consumption and maintenance costs. Plus, all PureWhite LED Pool Light Fixtures feature a superior rugged construction that is unmatched in the industry.

Features:

- \$33 a year to operate
- Uses less energy – up to 90%*
- Lasts up to 50,000 hours – 20x longer life**
- Enhances pool water appearance – looks clearer and cleaner
- Enhances dark finish pools
- Installs easily – compact fixture depth allows bottom catch visibility from pool deck

*58W equivalent lights, compared to incandescent lamps

**Compared to incandescent lamps

Compatible with select Pentair, Hayward, and Jandy Niches. Visit RecSupply.com for more information.

ColorSplash® Lights

J&J Electronics' ColorSplash® Series of in-ground pool and spa fixtures and lamps offer a variety of lighting colors and shows. With five solid color and seven lights shows, instantly transform any pool or spa into a custom illuminated paradise. ColorSplash Series fixtures and lamps operate with a standard pool light switch, J&J Electronics' XG Controller or can be integrated into most Pentair® and Jandy® automation systems; enabling a "one touch" color show selection.

Features:

- RGB and RGB-W models available
- Operates with most manufacturers' automation systems
- Zero Pixelation Lens provides fuller, richer color
- Heavy Duty 316 Stainless Steel Construction
- Advanced processor delivers seamless color transitions
- Industry leading 3-year limited warranty
- Designed, engineered and assembled in the USA

J & J Electronics Replacement Parts and Accessories

Pool Lamp

Spa Lamp

PureWhite® LED Pool Replacement Lamps

PureWhite® LED replacement lamps are the standard in all white lighting for pools and spas. Even and smooth LED light distribution is ensured with a proprietary Zero-Pixilation lens system.

PureWhite® White LED lamps retrofit most popular light fixtures on the market including, Pentair®, Jandy® and Hayward®. Every PureWhite® LED lamp comes with a Guardian® Silicone Lens Gasket. Included gasket model is for the Pentair® Amerlite™, SpaBrite™ or Aqualight™ pool and spa. Purchaser must buy a separate gasket for installation into Hayward® or Jandy® pool/spa lights.

Features:

- Up to 90% reduction in energy costs*
- Energy efficient, 21 watts; 300 watt equivalent
- Fully dimmable
- Lasts up to 50,000 hours - 20x longer life*
- UL Listed
- 3-year limited warranty

*Compared to incandescent lamps

Item Number	Lamp Type	Brightness Equivalent	Installation Voltage
EP2661082	Pool	300/400 Watts	120V
EP2661282	Pool	300/400 Watts	12V

BOGA Paddle & Surf Fitness Equipment

BOGA 3 FITMAT

BOGA 3 YOGA

BOGA FITMAT Aqua Aquatic Fitness Platforms

The FITMAT is a floating training platform that provides a new, fun, and dynamic way to exercise. Its main feature is its rigidity and ability to float on water. It can hold in excess of 400lbs without sacrificing its integrity and can make the most basic exercises challenging. If there is no access to water the FITMAT has an amphibian-like quality with a base attachment that can simulate all the challenges of working out on water. The FitMat can be used in a one-on-one setting or group setting with up to 10-plus participants. As there are no other training modality that can mimic the benefits of the FITMAT, this is going to revolutionize the definition of exercising.

- 8' L x 35" W
- 400 lbs weight capacity
- Quick and easy set-up and storage

Item Number	Description
MMFITMAT50	FITMAT Aquatic Fitness Platform (includes pump, bag & tethers)
MPPUMP50	Pump for BOGA Boards and Mats
MPTSET50	Tether set for FITMAT (set of 4)
MPVIDE050	Live Skype Video Training for BOGA FITMAT

BOGA YOGA Air Yoga & Fitness Boards

The YOGA Air is the first iSUP YOGA & Fitness board and a perfect solution to SUP's biggest hurdles, portability, durability, and storage. As with all boards, selecting the best construction is very important to us at BOGA. BOGA uses 6" Non-Linear Drop Stitch core material for extreme stiffness in addition to a high tensile uni-directional center stringer. This construction makes the BOGA Air sturdy, stiff and responsive – more like a standard epoxy board.

- 11' L x 33" W x 6" Thickness
- Nose and tail anchor points
- Includes: Paddle, Leash and Tie-Downs

Item Number	Description
MMYOGA50	Yoga & Fitness Board (includes pump, paddle, leash and bag)
MPPUMP50	Pump for BOGA Boards and Mats

MM8712076	Sport Seat Option	4 lbs

Kemp Kickboard

This EVA foam kickboard won't chip, break or absorb water. The smaller size kickboard provides less flotation support and promotes kick by preventing swimmers from lying on the board as a crutch while practicing their kick. Highly recommended for swim teams and is an excellent training aid. The larger size kickboard gives the swimmer more flotation support while helping to improve kick. This kickboard is recommended for recreational swimmers.

- Handhold Style Dimensions: 16½" × 12¼" × 1½"
- Small Dimensions: 15¼" × 9¾" × 1¼"
- Large Dimensions: 19" × 11" × 1¼"

0014001BLS	Blue	Small
0014001BLL	Blue	Large
0014001RDL	Red	Large
0014001YLL	Yellow	Large

Kemp USA Color Coded Water Aerobic Belt

The Kemp USA Pro Color-Coded Water Aerobic Belt is color-coded by size for ease of finding your belt size during water aerobics classes. This belt is manufactured out of special EVA foam designed to withstand chlorinated water. Most belts wear out at the attachment of the nylon belt to the foam but we reinforce ours with plastic couplings. This newly designed belt also engages the core muscles due to its unique shape. It's still slim enough to keep you afloat and not hamper arm movement.

Item Number	Size	Color	Recommended Weight
MM14013LG	Large	Blue	220 lbs or more
MM14013MD	Medium	Yellow	160 to 220 lbs
MM14013SM	Small	Purple	100 to 160 lbs
MM14013XS	Extra Small	Multi	under 100 lbs

Swim Teacher

A safe, lightweight float bar. It has two 7" polyethylene floats on a 30" PVC tube bar. Use as a kick developer, swim rest, or for instruction.

AquaJogger Aquatic Fitness Belts

Aqua Jogger provides a wide variety of aquatic fitness belts to fit all body types.

- Classic – a great all-around belt for most average body types.
- Pro – 30% more buoyant than the Classic, ideal for men with average body types.
- Pro Plus – 50% more buoyant than the Classic, perfect for men with low body fat.
- Shape – longer sides and lowered arch make this belt ideal for women with full figures, pregnancy, and lower back pain.
- Shape Pro – 30% more buoyant than the Shape. Great for men with wider waistlines or lower back pain.
- Fit – designed for petite, athletic and short waisted women.
- Junior – works great as a learn-to-swim belt or an exercise tool for children ages 3 to 12 years.

MM53019XL	Extra Large	Black/White

Nordesco Fitness & Training

Nordesco AquaFlex Water Fan Paddles

Build upper body strength with AquaFlex Water Fan Paddles, featuring adjustable fan blades to vary resistance. Sold as pair. Color: Blue

Item Number	Description
MM4145083	AquaFlex Water Fan Paddles (pair)

Nordesco Aquafitness Belt

The Nordesco Aquafitness Belt is made of molded EVA foam and designed to offer superior comfort. Its 3D ergonomic shape forms to the body while in motion while its level of flotation creates an ideal position for the swimmer, allowing the swimmer full concentration on the workout. This belt can be used for cardiovascular and muscular exercises at variable intensity. It is also practical for rehabilitation following leg or back injuries.

Available in three sizes: **Small (green), Medium (orange), and Large (red).**

Item Number	Size	Color
MM1370550	Small	Green
MM1371050	Medium	Orange
MM1371550	Large	Red

Nordesco Hand Bar Exerciser

This item was developed by aquatic fitness professionals, and uses the principles of water resistance to tone the muscles of the upper body. It is offered in 2 strengths: "regular" for beginners, and "advanced" which offers more of a challenge. Made with soft EVA foam. Sold per pair.

Item Number	Strength	Color
MM4142083	Beginner	Blue
MM4144083	Advanced	Yellow

Nordesco AquaDisk

The Nordesco AquaDisk is a training tool that uses water resistance for the workout. Made of EVA molded foam, the ergonomic design of the grip insures a safe workout without putting stress on the shoulders.

The AquaDisk can be used in a wide variety of exercises for the arms and shoulders. In deep water, use it in conjunction with the Nordesco Aquafitness Belt.

Sold by the pair.

Item Number	Size	Color
MM4152550	Small	Green
MM4153050	Medium	Orange

Nordesco Pull Buoy

Made of two cylinders of ethafoam and equipped with an adjustable strap. Just the right amount of flotation allows for a great stroke correction.

Item Number	Size
MM3071083	Mini
MM3071683	6"

StrechCordz Aquatic Resistance Training Gear

StrechCordz®

Aquatic Resistance Training Gear

StrechCordz® provides a variety of resistance band products specially designed for aquatic training. StrechCordz® in-water engineered resistance cords and bands are requested by international Olympians and novice swimmers for:

- Competitive Swim Training
- Quicker Acceleration
- Increased Stamina & Speed
- Improved Flexibility
- StrechCordz® in-water swim training equipment is used for resisted and assisted swimming, push offs, barge pulls, proper positioning, hip rotation and more.

Available resistance levels are referenced by a 2-letter code with each product. Specify resistance level when ordering, if applicable.

Resistance Levels (when stretching tube 1 to 3 times original length)

Color	Resistance Range (lbs.)
Silver (SI)	3-8
Yellow (YL)	5-14
Green (GR)	8-24
Red (RD)	12-31
Blue (BL)	14-34
Black (BK)	20-45

Original StrechCordz® with Handles

The original dryland training device used for curls, triceps extensions, flies and lat pulls. Includes two, 4' dedicated tubes with handles and combination mounting loop. Specify resistance: **SI, YL, GR, RD, BL**

Item Number
MMS10050

Description

Original StrechCordz® with Paddles

The unique paddle design emulates a swimming pull. Specify resistance: **SI, YL, GR, RD, BL**

Item Number
MMS10150

Description
Original StrechCordz® with Paddles (Specify Resistance)

StrechCordz® with Leg Straps

A comfortable 2" wide leg strap provides resistance for leg adduction, abduction, leg extension and leg curls. Includes two 4' dedicated tubes with leg straps and combination mounting loop. Specify resistance: **SI, YL, GR, RD, BL**

Item Number
MMS10250

Description
StrechCordz® with Leg Straps (Specify Resistance)

Long Belt Slider

Used for adding resistance to swimming, the Long Belt Slider is StrechCordz's #1 in-water resistance product. It provides swim out and pull-back resistance to improve strength and stamina. Accelerate quicker, strengthen the finishes of each stroke and improve your times. Specify resistance: **SI, YL, GR, RD**

Item Number
MMS11850

Description
Long Belt Slider (Specify Resistance)

Grudge Belt

Two belts connected by a 7' length of heavy latex tubing for swimming tug-of-war, barge pulls or many other exercises. Resistance: **BK**

Item Number
MMS12050

Description
Grudge Belt

StrechCordz® Modular Set

A complete modular set for dryland training. This set includes handles, paddles, leg straps and a pair of 4' modular tubing with mounting straps, in a convenient carry bag. Specify resistance: **SI, YL, GR, RD, BL**

Item Number
MMS10350

Description
StrechCordz® Modular Set (Specify Resistance)

Deluxe Mini Modular Set

A modular set consisting of a pair of handles, padded leg straps and 3' modular tubing with mounting straps, in a convenient carry bag.

Specify resistance: **SI, YL, GR, RD, BL**

Item Number
MMS10450

Description
StrechCordz® Modular Set (Specify Resistance)

Breaststroke Machine

A unique device used for both outward and inward sweep in breaststroke pull. Specify resistance: **SI, YL, GR, RD, BL**

Item Number
MMS10850

Description
Breaststroke Machine (Specify Resistance)

Stationary Swim Trainer

Designed for swim teams for in-place resistance swim training while using lane lines. Specifically used for training proper hip rotation; critical to stroke efficiency. Can also be used in home swimming spas where the jets are not powerful enough or do not exist for stationary swimming. Resistance: **GR**

Item Number
MMS12150

Description
Stationary Swim Trainer

Kick Trainer

Adds resistance to legs during kick sets. Assists ankle recovery from breaststroke kick as well as adding resistance to abdominal muscles during dolphin kick. Specify resistance: **SI, YL, GR, RD, BL**

Item Number
MMS12350

Description
Kick Trainer

Knee Elastic

Used in the water for control of knee position during breaststroke kick. Also assists in adduction to facilitate recovery of groin injuries.

Item Number
MMS122550

Description
Knee Elastic

Adjustable Extension

Adjustable extension provides a 6 foot length of webbing to reach fence, post or other stationary object.

Item Number
MMS119X50

Description

Nordesco Multi-Grip Disk

Trying to teach children can be a challenge at times. We have designed a product that will allow children to have fun and learn at the same time. Our multi-grip disk allows you to have kids compete against each other by grabbing on the multi-grip disk and practice pushing. It is also a practical tool in swimming courses because it allows the child to practice his/her swim kicks. Made from high density EVA foam, it is comfortable to use and durable.

Nordesco Deluxe Floats

Serpano

The Serpano will amuse and delight everyone! Made to accommodate several children at the same time, you can move its head and tail from side to side imitating the movement of a snake. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! Colors may vary and assembly is required.

Item Number	Description	Dimensions
001020750	Serpano	11-1/2" x 20"

Canoe

Kids can imagine being in the great outdoors while they paddle along in the Canoe! Made to accommodate 1 to 2 children at the same time, it is a great tool in developing coordination and balance in the water. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! Colors may vary and assembly is required. Two paddles are included with the canoe.

Item Number	Description	Dimensions
001021050	Canoe	76" x 26"

Water Roll

Kids and instructors alike love this product because it can be used in free swim to play an array of games and challenges. Instructors like it because kids can practice balancing while lying on their stomach, as well as practice diving into the water from a sitting position. Manufactured from the highest quality of EVA foam on the market, this foam toy will be enjoyed for years to come! Colors may vary and assembly is not required.

Item Number	Description	Ships Via	Dimensions
000147050	Water Roll 4'	UPS	9" x 4'

Flat Water Roll

A useful tool in aiding to develop equilibrium, this foam toy is multifunctional and can be used in free swim periods as well as in swim courses. A variation of the original water-roll, this model is an oval shape instead of perfectly round. Made to accommodate several children at the same time, the water-roll is manufactured from the highest quality, vibrantly colored EVA foam on the market; this foam toy will be enjoyed for years to come! Colors may vary and assembly is not required.

Item Number	Description	Dimensions
001021350	Flat Water Roll 4'	5" x 13-1/2" x 4'

Splash Bike

The Splash Bike is a new vehicle sure to add fun for your pool. Designed with a low gravity center and large wheels to ensure great stability, children can mount this aquatic motor bike without difficulty. Kids will ride around the pool using the ecologic "kicking power". Manufactured from the highest quality EVA foam on the market, you will be able to enjoy this foam toy for years. Colors may vary and assembly is required.

Item Number	Description	Dimensions
000207550	Splash Bike	52" L x 38" W x 20" H

Note: Some items require assembly.

Mini-Boat

The Mini-Boat is one of the most popular foam toys. Made to accommodate up to 6 children at the same time, this foam toy can be used with the deluxe sea serpents as oars, allowing you to move about the pool. It is a great tool in developing coordination and balance in the water, or in teaching boat safety to the kids. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! Colors may vary and comes fully assembled.

Item Number	Description	Ships Via	Dimensions
000145050	Mini-Boat	Motor Freight	72" x 36"

36" Bowl

Great fun and challenging if used as a small boat because you have to learn how to paddle to get from point A to B without just spinning in circles. Designed to be spun around in free swim and can also be used as a small gathering place for tots during lessons. Manufactured from the highest quality EVA foam on the market. Assembly is required.

Item Number	Description	Ships Via	Dimensions
000145250	Super Bowl	UPS	36" round

Airplane

The Airplane will allow kids to use and develop their imagination. Made to accommodate several children at the same time, you can sit on its wings and tail and by kicking your feet, power the airplane to move in the water. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! Colors may vary and assembly is required.

Item Number	Description	Dimensions
001020950	Airplane	63" L x 58" W

Car

A unique toy that brings life to the pool! The kids drive around the pool by using their kicking feet to "power" the car. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! Available in assorted colors and assembly required. Actual product may vary from model shown.

Item Number	Description	Dimensions
001020650	Car	58-3/4" L x 32-1/2" W

Floating Tot Slide

Slides are always popular with children, and this floating version is no exception. Kids simply climb onto the slide using the steps, and gently slide into the water. The bottom part of this slide can also be used as a tunnel. For easy storage, simply detach the top and bottom parts of the slide and it becomes flat. Colors may vary and assembly is required. Dimensions: 74" L x 36" W x 25" H

Tube Pro Waterpark Tubes

Our rugged Tube Pro commercial vinyl waterpark tubes are manufactured from heavy-duty colored 30 gauge PVC or clear 24 gauge PVC with double welded vinyl seams. The PVC is fade resistant and built for long life. Large rider support handles include finger grooves for better grip and are ergonomically positioned for a comfortable ride. Available in single and multi-rider models. All tubes feature a single main air chamber with a small push-in valve. Inner hole diameter is 16". Sizes listed are **deflated** sizes (for approximate inflated sizes, subtract 4" from each dimension). Two repair patches included with each unit.

Minimum order is 12 tubes. Sizes and colors may be mixed and matched to meet the minimum.

Tube Pro Premium Waterpark Tubes

With Smooth Overlap Seams

These tubes feature the same rugged Tube Pro commercial vinyl material, but are manufactured with smooth overlapped inner and outer vinyl seams. With welded overlapped seams, your park will not only experience increased rider comfort while seated in the tube, but also increased tube longevity. The exterior pinch welded seam on standard waterpark tubes is the most problematic area for tube abrasion. The smooth exterior overlap of our premium line prevents exterior seam leakage, maximizing tube life. Tube Pro™ overlap seam tubes are also outfitted with a larger 3/4" quick inflation/deflation safety valve that is recessed and a tamper resistant with a tightening slot. Inner hole diameter is 16". Sizes listed are **deflated** sizes (for approximate inflated sizes, subtract 4" from each dimension). Two repair patches included with each unit.

Minimum order is 12 tubes. Sizes and colors may be mixed and matched to meet the minimum.

44" Lily Pad with Cover

Tube Pro Waterpark Rafts

Tube Pro™ Rafts are constructed from superior heavy-duty whitewater rafting PVC tarpaulin material. Our higher sidewalls further protect against abrasion when banking on serpentine corners. Having a solid black bottom ensures the rafts will be detected by sensor gates at the start of the slide.

Two inch thick buoyant closed-cell waterproof foam is enclosed in the reinforced raft bottom floor. The waterproof foam core helps cushions bumps when traveling down the slide, in addition to stabilizing the raft during sudden plunges in slide pitch. The self-bailing raft floor fosters stability and allows users to experience the sensations of getting wet! Eight to sixteen upper and lower heavy-duty sewn webbing support handles allow for multiple gripping locations making it easy for all sizes of riders to secure their seating position.

The reinforced higher black sidewalls further protect against abrasion when banking on serpentine corners. Having an all black bottom ensures the rafts will be detected by your sensor gates at the start of the slide.

- Raft top material - 31 oz 1000 denier reinforced PVC
- Raft bottom material - 40 oz heavy duty 1000 denier reinforced PVC
- 2" closed-cell waterproof foam floor
- H3 raft inflation valve - for quick inflation/deflation
- Full higher black underside of raft for extra abrasion protection
- Self bailing cut out in rafts bottom for water circulation
- Extra circle repair patches & urethane glue included

Swim Training Platforms

Aqua Creek Swim Training Platform

Young swimming students are more eager and less afraid of the water when the depth of the pool is less intimidating. This light-weight training platform features a durable, non-slip polypropylene deck with UV inhibitors making it an ideal solution for both indoor and outdoor pools.

The Platform also features adjustable height legs from 16" to 21" on a corrosion resistant PVC frame with removable rails making it usable in almost any application. Maximum weight capacity is 300 lbs. Multiple units can be joined together to make larger platforms. Extremely durable construction will last many years.

Ships via truck. Shipping Weight: 96 lbs

Platform Dimensions: 36" x 60"

SS150/SS200 Swim Station

Our economical versions of the popular Swim Station, the SS150 and SS200, are incredibly strong, lightweight, versatile, and easy on your budget. They have been designed to vastly outperform similar teaching platforms.

- Durable – its fluted construction grade PVC with aluminum subframe brings exceptional durability and stability
- Adjustable – simply flip the platform over to provide a different teaching height
- Non-Skid – exclusive textured plastic surface provides sure footing for young swimmers

Dimensions:

SS150: 47" L x 27" W x 29" H

SS200: 54" L x 32" W x 42" H (14"/20" platform height)

Warehouse Locations

Recreation Supply Company has distribution centers in Bismarck, ND, North Haven, CT, and Bourbon, MO, giving us the ability to get supplies to commercial aquatics facilities in much of the country faster than ever before! We are now able to get our products to 72% of the U.S. population in 2 days or less by standard ground shipping services.

Note:

Actual ship time may vary depending on choice of carrier, service level, and stock status of products purchased.

FedEx is our primary ground and air shipping carrier.

We also use **USPS First Class** or **Priority Mail** for shipment of smaller packages. Typical shipping time for these shipments is 1 to 3 days.

If you have time-critical needs, please contact us to discuss available options and costs. We will do our best to get you what you need, when you need it, and at the least cost to you that we can.

Terms and Conditions of Sale

Payment Methods:

Upon review of a properly completed credit application, credit may be established with Net 30 terms. A service charge of 1½% per month is charged on invoices over 30 days old. Alternate methods of payment include payment in advance by check or money order (please allow up to 2 weeks for personal checks to clear) or payment in advance by credit card (Visa, Master Card, Discover, American Express).

If it is one of your first times ordering from us and you are paying by credit card, your order must ship to the billing address of your chosen payment method. We will contact you if we are unable to ship to the address you provided. This policy exists to reduce fraudulent orders and protect our customers. If you prefer not to pay for an item until after it ships, or if your order must ship to a different address than your billing address, consider applying for Net 30 payment terms by submitting a completed credit application.

Additional Charges for Premium Truck Delivery Services:

- Expedited services such as Next Day and Second Day service – Quote on Request
- Truck Shipments to addresses designated residential or limited access (military, school, etc.) – varies, approximately \$40 to \$125
- Truck Shipments requiring inside delivery or a lift gate – varies, approximately \$75 to \$125

Prices and Freight:

All prices are stated in US Dollars. Where quantity price breaks are given, prices are per unit. **Due to market conditions, prices are subject to change without notice.** Current prices are published online at RecSupply.com.

Next Day, Second Day, or other special handling for rush shipments is available on request at the purchaser's expense.

Taxes:

Sales tax will be collected in states in which we are required to collect it. Shipments to those states will be charged applicable Sales Tax unless purchaser furnishes acceptable tax exempt certification prior to purchase. No item prices include sales tax.

Freight and Freight Claims:

Standard shipping terms are FOB Origin. Our primary carriers are FedEx and USPS. Truck shipments may require assistance unloading and will require a signature. It is your responsibility to inspect your goods immediately upon receipt. Freight companies have strict policies regarding damaged freight. Recovery claims must be filed with the carrier by the purchaser within the time limit allowed by such carrier. The loss or damage claim should be noted on the original copy of the

freight bill by the receiver. If you sign for a damaged package without noting the damage at the time of delivery, they will often not allow the claim. Please make sure you inspect your packages before accepting them. RSC is not responsible for goods damaged or lost in transit. We will gladly help customers establish any just claim for damaged goods. Contact us immediately for assistance with damaged shipments.

Returns:

Products being returned for credit must be accompanied by a Return Authorization Number and proof of purchase (e.g., an invoice or packing slip). A Return Authorization Number may be obtained by calling customer service at (800) 437-8072. The Return Authorization Number must be written on the outside of each package of goods being returned. Returns must be sent freight prepaid. All returned merchandise must be in original packaging and in new condition. Returns must pass inspection at our facilities prior to issuance of credit. Authorized returns in original condition may be subject to a restocking fee. Shipping and handling charges are not eligible for credit. Orders for custom merchandise or special orders cannot be canceled once processed. Certain items may not be returned for credit. This list includes, but is not limited to: inflatables that have been inflated, special-ordered sizes or colors, and paint types or colors that are not commonly stocked by RSC. Merchandise will no longer be considered for return 30 days after the invoice date for the product. Many item-specific return policy details are now published on product pages at RecSupply.com.

Warranty:

All products are covered by manufacturers' warranties and are the sole responsibility of the manufacturers. No warranties, express or implied, are made by RSC or any of our agents.

Hours:

Monday through Friday 8:00 a.m. to 6:00 p.m. Eastern Time
